Flat Skid Firefighting Unit: Fire Fighting & Containment

The Challenge

Due to more frequent dry weather and forest fires in BC, a notable Forestry Management company required more fast response but economical fire-fighting equipment that would fit quickly onto their existing trucks and equipment with no significant modifications to the vehicles.

The Solution

The customer provided us with the truck and we custom designed and manufactured a skid mounted 1035 US Gallon quick response firefighting unit with a high performance firefighting pump and foam injector kit.

Project Team

Supplier: BARR Plastics

Engineer: BARR Plastics

Specifications

- 1035 USG Elliptical Leg Tank
- 300 PSI Waterax High Performance Fire Fighting Pump
- 1.5" Universal Fire Hose Connections (x2)
- 2" Dust Control Spraybar System
- 20 USG Foam Injector Kit
- Internal Baffle Ball Surge Stabilizers
