Looking Glass Dies

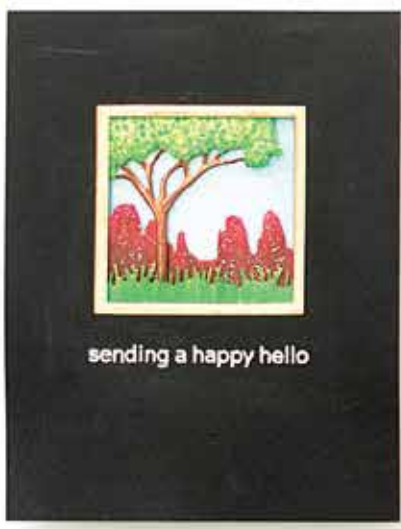

Looking Glass Dies are designed for cutting windows, creating backgrounds and building layered scenes. These versatile dies can be used individually, interchangeably, or layered. They come to life when combined with stamps, different colors of paper, and slimline cards or any other other card size you choose. Each die is 2.25" wide.

★ DI885 Looking Glass Paris (E)

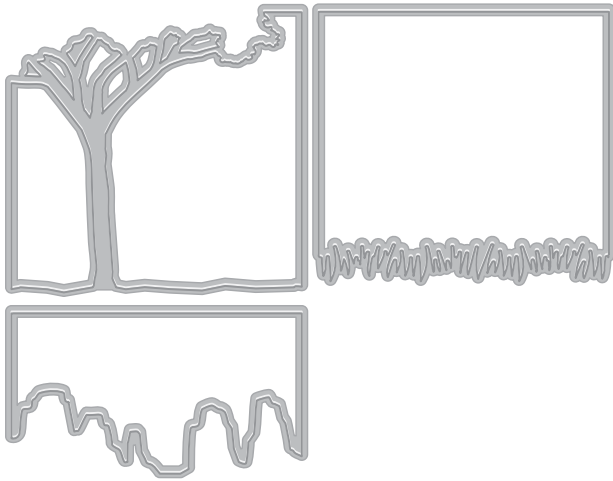

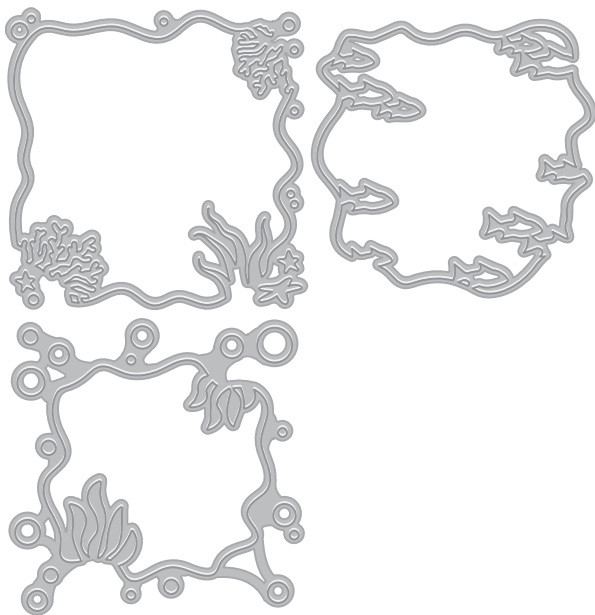

★ D1886 Looking Glass Day or Night (E)

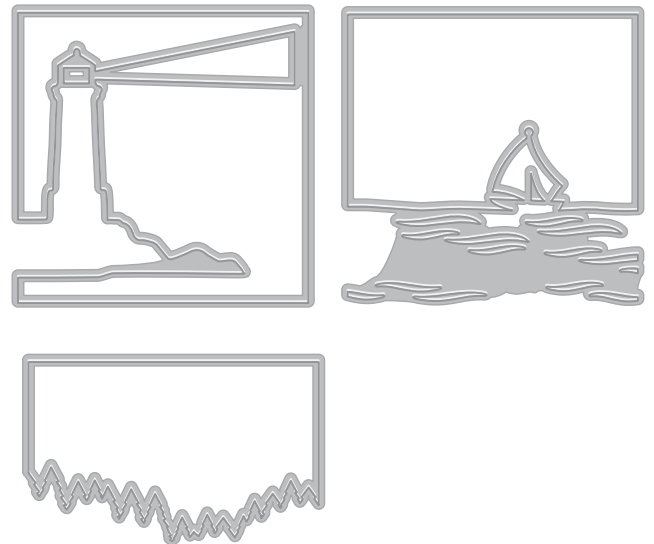

★ D1887 Looking Glass Rain & Clouds (E)

★ D1884 Looking Glass Canyon Lands (E)

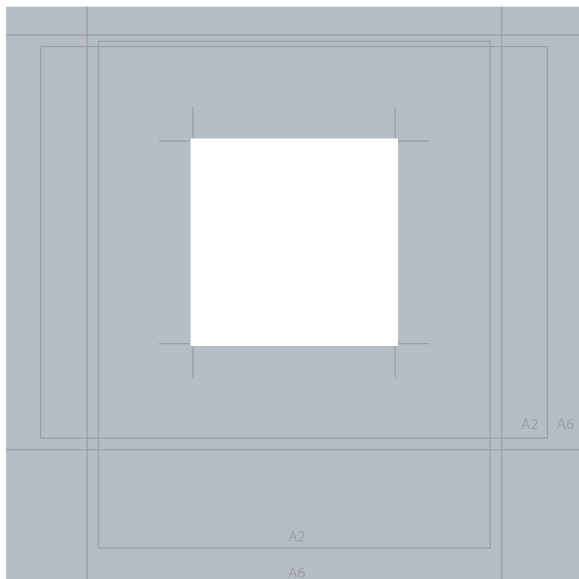

★ D1896 Looking Glass Underwater Reef (E)

Tip: Easy Window Alignment

Use these alignment tools as stencils or as a way to easily align your Looking Glass Dies. Whether you are using the slimline or the A2/A6 size, first position the tool on your card, place a Looking Glass die in the opening and tape temporarily to hold in place, remove the alignment tool, and then run your positioned die through your favorite cutting machine. These tools will help position the die exactly where you want it!

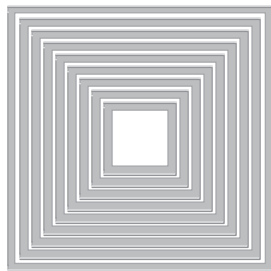

★ HT206 Alignment Tool A2 & A6 Stencil (6.25" x 6.25")

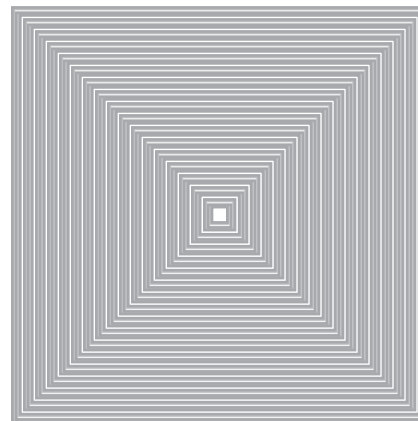

★ HT207 Alignment Tool Slimline Stencil (4" x 9")

Tip: Combine With Infinity Dies

These Infinity Dies work together with the Looking Glass Dies, allowing you to create a window (cut-out using DI713) or door opening (scored on one side using DI764).

HeroScapes™

HeroScapes stretch across the width of a card and overlay a richness of color and perspective. With the Hero Arts Color Layering technique of adding layer upon layer of ink, you can further affect the mood and feel of your HeroScape setting. The large format 6" x 8" clear size offers a wide variety of layers and options for your cardmaking. There are also 4" x 6" sets, and most come with matching dies and are sold either individually or as a bundle.
