## Golf In A Box

### The Complete OptiShot Setup

Adding the stance mat and net to the swing pad gives the user an even more realistic golf experience in the comfort of their own home with accurate swing analysis featuring; club head speed, face angle, swing path, distance, swing tempo, and face contact point. The net allows you to use real golf balls while the mat gives you the feeling of standing on the fairway. The heads up display gives the user real time feedback with dynamic visuals. OptiShot's Par 3 Tee feature gives you comfort in confined spaces. With the ability to setup for both left and right handed golfers the user can practice on our dynamic driving range with multiple targets or our world class library of golf courses.

#### Game Modes

##### • Practice mode

Turns any OptiShot course into your own practice range. OptiShot PinPoint Practice tracks and records your progress. Six different target greens help to improve your shot accuracy and the precision ring & accuracy grid get you closer to the pin. Driving-accuracy mode foster straight fairway shot and the vital feedback on the HUD includes full session data.

##### • Play Mode

Choose from an exclusive library of world class OptiShot Courses and 8 different Game Types including; Stroke Play, Better Ball, Match Play, Best Ball, Stableford, Skins, Alternate Shot, and Custom Game Lengths. Experience a fully-immersive and realistic game of golf. With various in game customizations including; multiple camera views, multiple putting options, precision putting grid, green and fairway speed control, custom club sets, standard or metric measurements, weather customization, and ambient nature sounds, OptiShot Golf give you the opportunity to play real golf, day or night, rain or shine.
