

Access to Medicinal Cannabis for All In Need

At NGC, everything we do is in support of our patients. We believe that the therapeutic potential and power of medicinal cannabis should be available to all patients who require it. That's why we are proud to offer discount and pricing programs that improve affordability and access to medicinal cannabis.

NGC offers a Compassionate Pricing Program to our clients who qualify for financial assistance to obtain medical cannabis. Our goal is to protect your safety and empower your ability to get access to medical cannabis for your health care needs. At NGC, our Compassionate Pricing Program is applicable to all our products and strains. We believe in staying inclusive and enabling our clients to apply their Compassionate Pricing discount to any strain and product we offer.

Northern Green Canada offers a 20% discount on all cannabis products for eligible patients with an annual income below \$32,500 and patients who are on disability or similar government subsidy programs.*

**Additional discount codes and offers cannot be combined with the compassionate pricing program. The compassionate pricing discount is also not applicable to items that are currently on sale unless otherwise stated.*
