Lincoln Quicklub centralized and automatic lubrication systems

Quicklub® Lubrication Systems

Fittings, Adapters and Accessories

Divider Valve Mounting Accessories

Model No.	Description			
246416	Valve mounting bracket			
51304	1/4" nylon locknut for valve mounting			
247023	Grade 8, 1/4" valve mounting bolt			
239499	Template for divider valve mounting (6, 8, 10 and 12 outlet valves)			
252807	Valve mounting block for welding			
249987	6mm bolt to be used with the 252807			
272569	Lock washer for valve mounting			

Standard Compression Fittings for Steel or Nylon Tubing

Model No.	Description
241290	1/4" tube x 1/8" NPT male straight fitting
241293	¼" tube x ⅓" NPT male 90° fitting

Divider Valve Outlet Adapters for $\frac{1}{4}$ " O.D. Steel or Nylon Tubing Compression-Style With Check Valve

Model No.	Description
68462	Ferrule 1/4"
404-22602-1	Compression nut
504-31606-3	Check valve body
404-22581-2	Ferrule

Divider Valve Outlet Adapters for 1/4" O.D. Steel or Nylon Tubing Compression-Style Without Check Valve

Model No.	Description
404-20236-4	Compression nut
404-23668-1	Compression nut (stainless steel)
404-22581-2	Ferrule

Divider Valve Outlet Adapters for 1/8" I.D. Hose

Model No.	Description	
404-22581-2	Ferrule	
239857	Valve outlet adapter with check (1/8" NPT female)	
239959	Valve outlet adapter without check (1/6" NPT female)	

For SSVM Valves—Compression Fitting

Model No.	Description	Material	Feed Line Connection
13112	Compression nut	Brass	
419-22990-1	Adapter		1/" Ctool or Nidon Tubo
419-22618-2	Ferrule		1/4" Steel or Nylon Tube
519-30583-1	Check valve body		

NOTE: Quicklub® adapters without check valves are for use in oil systems with open tube (minimal backpressure). Quicklub adapters with check valves are for use in all automated systems.
