

ONE UP

Luxury Vinyl Tile Cleaner

EXTENDS

One Up Extends LVT Cleaner is not just another neutral floor cleaner. Extends LVT Cleaner and its proprietary blend of surfactants, natural solvents and patented ingredients that clean the floor surface and leave behind a protective membrane that inhibits soil, dirt and other harmful materials from adhering to the surface. This makes the cleaning that much easier each time it is used.

Directions:

Before application of the Extends LVT Cleaner it is recommended that you dust mop the floor to remove excessive dirt and soil.

Place wet floor signs in area being cleaned.

1. Dilute the Extends LVT Cleaner for mop cleaning at a rate of 2-4 ounces per gallon of water. If Extends LVT Cleaner is being used in an auto scrubber dilute at 2 ounces per gallon of water.

2. Apply Extends LVT Cleaner. For best results allow a short dwell time for the product to loosen the soil and dirt and then pick up solution.

FUTURE CARE: Clean the LVT flooring on a daily basis (depending on traffic) . Use One Up Extends LVT Cleaner with a mop or auto scrubber. Maintaining a clean floor is very important to “extend” the life of the LVT floor’s wear layer.
