

# **TJ 4200 Wagon Organizer 2023**

**Gorilla Carts Heavy-Duty Poly Yard Cart — 1500-Lb. Capacity, Model#  
GOR10-16**

**Google search the best company for your location and purchase this  
cart wagon and then attach the organizer kit to it...**

Mobility and everything has a place!

Wood wedge used to hold  
jacks solid...

Drilling 3 of the 6 - 3/8" holes to attach the 2- angles to the sides...

Attach wood screws into plastic boards to secure to the wagon as shown here. 6 on this side and 6 on the opposite side.

Four lift feet secured in the rubber bump stop assembly here at the back of the angled wagon barrel

Wood wedge to secure  
the jacks

Three boards are fastened from the outside at the ends with two screws in each end.

Board with rubber bump stops is installed  $1\frac{3}{4}$ " from the angled back of the wagon.

Install Plastic bump and lock board 1  $\frac{3}{4}$ " from angled back of the barrel

1 ½" gap provides the necessary room for the jack foot plates and the wood wedge.

At the front of the barrel.

Ratchet holster can be installed on either side.

Note ½” drive Ratchet not included with the TJ 4200- we recommend you use a 10” - 12” ratchet handle length – 100 foot pounds delivers 10,000 lbs of clamping force if you screw and nut assembly are clean and free of dirt and debris.

Ratchet holster can be installed on either side.

Pictures for installation  
perspective

Insert jacks at the front of the wagon and use the wood wedge to secure them

Showing the full
