

## Dri-Buffer

**e-clean Dri-Buffer** is a product of entirely new technology that provides the ultimate in floor appearance, protection and safety at the lowest cost of labor and material. It can be used to maintain any floor finish including other “green” floor finishes.

One pint treats 120,000 square feet! It will greatly reduce stripping and re-coating needed with regular floor care programs, as well as increasing the slip resistance of the finish.

Use with the companion **e-clean Floor Finish, Stripper** and **Floor Cleaner** to produce a safe, clean, floor surface.

### How to use:

If the floor is relatively clean, only dust mopping is required. If heavily soiled, clean first with **e-clean Floor Cleaner**.

Use a high speed buffing pad and burnishing machine. Apply 4 nickel diameter size drops of **e-clean Dri-Buffer** onto the floor in a circular pattern. Center the buffing pad over the drops and burnish the floor over a 30-40 square foot area. Repeat application of the **e-clean Dri-Buffer**. Note: Less product per square foot is needed if more floor area is covered by the machine with each 4 drop application. If floor was dirty before application, dust mop after the floor is burnished.

**e-clean products** are powerful solutions that are carefully formulated to give superior performance while maintaining balance with nature. **e-clean products** are certified safer for the environment and for the user. **Clean right to get Green!**
