Section 1 - Product and Company Identification

Material Name                   •  Black Jack Rubr-Seal Roof and Flashing Cement
Chemical Category               •  Mixture
Product Code                    •  6148-9-62
Product Description             •  Rubberized Roof Cement
Product Use                     •  Roofing
Synonyms                       •  Asphalt Based Roof Cement
Manufacturer                    •  Gardner-Gibson
                                  4161 East 7th Avenue
                                  Tampa, FL 33605
                                  United States

Telephone
  General • 813-248-2101

Section 2 - Hazards Identification

GHS HAZARDS AND PRECAUTIONS

SIGNAL WORD: WARNING!

Flammable liquid (paste) and Vapor. Contains Combustible Petroleum Distillates. Harmful or Fatal if swallowed. Keep away from heat, sparks, and open flame. Avoid prolonged breathing of vapor and use only in adequate ventilation. Repeated and prolonged overexposure to solvent vapor may cause brain and nervous system damage, respiratory tract irritation, dizziness, or loss of consciousness. May cause skin and eye irritation.

Prevention
Avoid breathing dust, fume, gas, mist, vapors and/or spray. Do not handle until all safety precautions have been read and understood. Keep away from heat, sparks, open flames and/or hot surfaces. - No smoking. Use personal protective equipment as required. Keep out of reach of children.

Response
IF INHALED: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.

Storage/Disposal
Store in a closed container. Store in a well-ventilated place. Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.
Physical Form  • Liquid
Color  • Black
Odor  • Mild Hydrocarbon.
Flash Point  • 105°F (40.6°C) CC (Closed Cup)
UEL  • 6 %
LEL  • 0.9 %

OSHA(HCS2012)  • Flammable Liquids - Category 3, Specific Target Organ Toxicity Repeated Exposure - Category 2, Skin Corrosion/Irritation - Category 2, Serious Eye Damage, Eye Irritation - Category 2A, Carcinogenicity - Category 1A

WHMIS  • Combustible Liquids - B3, Other Toxic Effects - D2A, Other Toxic Effects - D2B

GHS  • Flammable Liquids - Category 3, Specific Target Organ Toxicity Repeated Exposure - Category 2, Skin Corrosion/Irritation - Category 2, Serious Eye Damage, Eye Irritation - Category 2A, Carcinogenicity - Category 1A

Potential Health Effects

Inhalation
Acute (Immediate)  • May cause irritation. Excessive breathing of high vapor concentration can cause possible unconsciousness and even asphyxiation.
Chronic (Delayed)  • Refer to other information found in Section 11 - Toxicology.

Skin
Acute (Immediate)  • May cause irritation.
Chronic (Delayed)  • Repeated and prolonged exposure may cause dermatitis.

Eye
Acute (Immediate)  • May cause irritation.
Chronic (Delayed)  • Repeated and prolonged exposure may cause irritation.

Ingestion
Acute (Immediate)  • May be harmful or fatal if swallowed.
Chronic (Delayed)  • Repeated and prolonged exposure may be harmful.

Carcinogenic Effects  • This product or one of its ingredients present at 0.1% or more is listed as a carcinogen by NTP, IARC or OSHA. See Section 11 - Toxicological Information for more details.

This product is an encapsulated mixture which reduces the likelihood of exposure to hazardous particulates. Airborne exposures to hazardous dusts or mists may be generated by spraying, sanding or grinding.

### Section 4 - First Aid Measures

**Inhalation**  • IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If breathing is difficult, give oxygen. Get medical attention immediately.

**Skin**  • IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash before reuse.

**Eye**  • IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

**Ingestion**  • Call a physician or poison control center immediately. If swallowed, do not induce vomiting: seek medical advice immediately and show this container or label. Never give anything by mouth to an unconscious person.

### Section 5 - Fire Fighting Measures

**Extinguishing Media**  • Use CO2, dry chemical, or foam.

**Unsuitable Extinguishing Media**  • Do not use direct stream of water.

**Firefighting Procedures**  • Fight advanced or massive fires from safe distance or protected location. Avoid water in a straight hose stream as the stream will cause splatter and spread fire. If product is heated above its flash point it will produce vapors sufficient to support combustion. Vapors are heavier than air and may travel along the ground and can be ignited by heat, pilot lights, other flames and ignition sources at locations near the point of release.
Unusual Fire and Explosion Hazards

- Combustible liquid. May release irritating or toxic gases, fumes, or vapors.

Hazardous Combustion Products

- Carbon monoxide, carbon dioxide, hydrocarbons.

Protection of Firefighters

- Firefighters should wear self-contained breathing apparatus and full protective gear.

Flash Point

- 105°F (40.6°C) CC (Closed Cup)

Explosion Limits

- Upper: 6%
- Lower: 0.9%

Autoignition Temperature

- No data available

### Section 6 - Accidental Release Measures

**Personal Precautions**

- Do not handle damaged containers or spilled material unless wearing appropriate protective clothing. Stay upwind. Ventilate the area before entry. Protect building inlet air when working around fresh air vents.

**Emergency Procedures**

- ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area) Stop leak if you can do it without risk. Isolate the area and contain the spilled material. Product is a paste material which will have reduced flow.

**Environmental Precautions**

- Prevent entry into waterways, sewers, basements or confined areas.

**Containment/Clean-up Measures**

- Contain and/or absorb spill with inert material (e.g. sand, vermiculite), then place in suitable container. Use appropriate Personal Protective Equipment (PPE)

**Prohibited Materials**

- Avoid contact with strong oxidizing agents and acids.

### Section 7 - Handling and Storage

**Handling**

- KEEP OUT OF THE REACH OF CHILDREN! Keep away from heat, sparks, and flame – No Smoking. Use only with adequate ventilation. Protect building air inlets when using this product.

**Storage**

- Store in a well-ventilated place. Keep container tightly closed. No open flames, no sparks and no smoking.

**Special Packaging Materials**

- No data available

**Incompatible Materials or Ignition Sources**

- Avoid contact with strong oxidizing agents and acids.

### Section 8 - Exposure Controls/Personal Protection

**Personal Protective Equipment**

- **Pictograms**

  ![Respiratory](image)

  ![Eye/face](image)

  ![Hands](image)

  ![Skin/body](image)

**Respiratory**

- In case of insufficient ventilation, wear suitable respiratory equipment. If listed exposure limits are expected to be exceeded, use approved respiratory protection suitable for the hazard. When used with adequate ventilation, a respirator is not normally required. If required, use a NIOSH-approved air purifying respirator with organic vapor cartridge or supplied air respirator.

**Eye/face**

- Wear ANSI approved safety glasses with side shields or safety goggles.

**Hands**

- Wear chemical protective gloves made of Nitrile or Neoprene.

**Skin/body**

- Wear clothing that covers the skin to prevent skin exposure.
General Industrial Hygiene Considerations
- Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling. Do not smoke, eat, or drink while using the product.

Engineering Measures/Controls
- Adequate ventilation systems as needed to control concentrations of airborne contaminants below applicable threshold limit values. Use precaution to protect building intake from fumes and vapors created outdoors.

**Other Component Information**
- IARC has concluded that the following chemicals in this product are carcinogenic to humans (Group 1): silica, quartz. ACGIH has designated the following chemicals in this product as suspected human carcinogens (A2): silica, quartz. NTP has listed the following chemicals in this product as known human carcinogens: silica, quartz. Risk of cancer depends on duration and level of exposure to this product as a dust or aerosol mist. This product contains petroleum asphalt. Petroleum asphalt is not listed as a carcinogen by OSHA or NTP. The National Institute of Occupational Safety and Health (NIOSH), has concluded that at higher temperatures roofing asphalt fumes are a potential occupational carcinogen. If this product is heated or comes in contact with heated material, avoid breathing fumes. This product may contain small amounts of polycyclic aromatic hydrocarbons (PAH's) which are recognized carcinogens in humans and experimental animals. Mouse skin painting studies of roofing asphalt vapor concentrate have shown evidence of tumor formation associated with localized skin irritation. Inhalation studies of high airborne concentrations of asphalt/bitumen fumes in rats and mice produced bronchitis, pneumonitis, and lung changes such as fibrosis and cell damage.

### Section 12 - Ecological Information

- **Ecological Fate**: No data available.
- **Persistence/Degradability**: No data available.
- **Bioaccumulation Potential**: No data available.
- **Mobility in Soil**: No data available.

### Section 13 - Disposal Considerations

- **Product**: Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

### Section 14 - Transportation Information

- **DOT – Department of Transportation**: Not restricted if shipped in containers <450L (119 gallons) Restricted if shipped in containers >450L (119 gallons).
- **TDG Transportation Other Information**: Not Restricted under General Exemption for small container packaging.
- **TDG - Canada Transportation of Dangerous Goods**: Tars, Liquids; UN1999; Hazard Class: 3; Packing Group: III 1.33 Class 3, Flammable Liquids
- **IMO/IMDG –International Maritime Transport**: IMDG Code 2.3.2.5 - exempted from marking, labeling & testing of packages. - Tars, Liquids; UN1999; Hazard Class: 3; Packing Group: III 1.33 Class 3, Flammable Liquids
- **IATA - International Air Transport Association**: TARS, LIQUID; UN1999; Hazard Class: 3; Packing Group: III.

### Section 15 - Regulatory Information

- **SARA Hazard Classifications**: Acute, Chronic
- **Risk & Safety Phrases**: California PROP 65: Asphalt and Asphalt Fumes may contain detectable amounts of chemicals known to the State of California to cause cancer or reproductive harm.
