What is unique about the Black Jack® Eterna-Kote® Silicone+ System?

Eterna-Kote® is unique because it contains Silicone+ technology. Silicone+ technology is enhanced engineering to improve the performance of the silicone coating. This is achieved by using premium ingredients and manufacturing in a state of the art, climate-controlled "Clean Room". Product has exceptional performance with long-term in-can stability.

With precise control over the manufacturing process, the product quality is superior in both shelf-stability and long-term product performance.

Industry-leading benefits of Black Jack® Eterna-Kote® Silicone+:

- 1. Enhanced with TIO2 whitening agents, delivering a brighter white finish with 90% initial solar reflectance and greater UV stability.
- 2. Formulated to resist mildew growth on the cured film, thereby providing a cleaner and brighter looking surface, which lasts longer.
- 3. Highest solids in industry at 97%, which provides a higher mil thickness and greater coverage rates versus competitive products.
- 4. More application opportunities. Rain Safe in 15 minutes and expanded application range from 35°F to 120°F. Can be applied in many application windows where other products can't.

Delivers Superior Value

- Higher coverage rates
- Faster 1 coat application
- **Lifetime Warranty**

Ensuring responsible manufacturing & product safety

The Black Jack® Eterna-Kote® Silicone+ product line is focused to minimize the impact on our environment. We use new manufacturing equipment and natural lighting options in our facility to maximize efficiencies. Our high solids formulas are moisture cure, have ultra low VOCs and no solvents, and are some of the most advanced products in the world. In fact, all of our silicone formulas meet the strictest US and global guidelines for Clean Air Standards and Workplace Safety. All packaging containers are made with recycled content and any waste is recycled. **Eterna-Kote®** products can help restore old roofs, preventing them from being torn off and going into landfills. We are proud to embrace responsible manufacturing while producing exceptional products that respect our environment.

Stain Block Roof Primer

Black Jack® Eterna-Kote® Stain Block Primer is a premium stain blocking primer designed to coat over asphalt roofing products. Unique polymers penetrate and block the asphalt and bitumen oils from discoloring the top coat. This light gray base coat seals surfaces so the top coating maintains color integrity and a brighter finish, delivering maximum reflectivity. Also, this product is very cost effective as it helps increase coverage rates of the coatings applied over it. Use prior to Black Jack® Eterna-Kote® Silicone or Black Jack® White Elastomeric Roof Coatings.

- Use over asphalt roofing
- ✓ Blocks bleed through
- ✓ Provides a brighter finish for top coatings
- ✓ Improves coverage of top coat
- ✓ Use with silicone or acrylics
- ✓ Fast dry, rain safe in 45 minutes

Black Jack ETERNA-KOTE

Silicone Waterproofing Technology

Black Jack® Eterna-Kote® Silicone+ Roof Coating, our best liquid waterproof coating, forms a seamless layer of waterproofing protection for your roof.

Silicone⁺ Roof **Coating**

*Also available in Tan or Grav

Black Jack® Eterna-Kote® Silicone+ Roof Coating is a 100% high solids, white silicone coating that provides the ultimate durability and longevity to your roof surface. This moisture cure product has the highest degree of waterproofing protection and provides superior protection to all roof surfaces. It is ideally suited for flat roofs that have problems with ponding water, as well as on installations that require high degrees of waterproofing protection.

The bright white finish keeps roofs cooler, which in turn can help lower cooling costs. In hot or cold climates, this coating forms a seamless layer of waterproofing protection that will stretch to prevent cracking and peeling. This premium product has high solids, is self-leveling and only needs one coat for a lasting finish.

- ✓ Stops leaks & waterproofs roofs
- ✓ High solids, one coat application
- ✓ Withstands ponding water
- ✓ Reflects heat to help lower cooling costs*
- ✓ Widest application range: 35°F to 120°F

| 5576-1-20 | Eterna-Kote Silicone+ Roof Coating White | 1 gallon |
|-----------|--|----------|
| 5576-1-22 | Eterna-Kote Silicone+ Roof Coating White | 2 gallon |
| 5576-1-30 | Eterna-Kote Silicone+ Roof Coating White | 5 gallon |
| 5576-7-30 | Eterna-Kote Silicone+ Roof Coating Gray | 5 gallon |
| 5576-T-30 | Eterna-Kote Silicone+ Roof Coating Tan | 5 gallon |

^{*} This product can help lower cooling costs in buildings that use air conditioning. This product will reduce the temperature of the roof, which lowers the amount of heat gain that penetrates through roof surface.

Waterproofing & Seam Tape

Construction and repair tape & sealant that immediately blocks water, air and vapor leaks on roofs, windows, doors, skylights, gutters, flashings, HVAC, walls and many other surfaces. Designed to seal seams on metal roofs, TPO and EPDM, asphalt built up & more.

- ✓ Ideal waterproofer
- ✓ Bonds to wood, metal, masonry, plastic & roofing. Seals seams & cracks on TPO & EPDM.
- Designed to be coated with acrylic or silicone products

Silicone⁺ Roof Patch

Black Jack® Eterna-Kote® Silicone+ Roof Patch is a trowel grade, white rubber sealant that provides the ultimate waterproofing repair. Use to repair cracks, splits, holes and other deteriorated surfaces. This quick setting sealant has exceptional adhesion and flexibility, while providing permanent watertight repairs. The cured sealant is mildew resistant.

- ✓ Stops leaks, waterproof seal
 - Excellent adhesion
- Trowel grade and brushable
- ✓ Fiber reinforced

Remains flexible

✓ Permanent repair
