Brushable Blacktop Crack Filler

Heavy Duty

- Fills cracks up to 1"
- Extra thick formula
- E-Z brush application

Black Jack® Brushable Blacktop Crack Filler is designed to fill cracks in asphalt parking lots, driveways, playgrounds, walkways, running tracks, tennis courts, etc. This thick formula fills cracks better than the liquid fillers and has less shrink. Use prior to application of blacktop driveway sealers.

PREPARATION: Clean areas prior to applying driveway patches and coating to surfaces. All dirt, and light oil stains must be removed for proper adhesion of driveway repair products and sealers. Rinse areas thoroughly with water leaving no puddles. Remove any loose and flaking material from area prior to application.

APPLICATION: Apply product on a clear, warm, sunny day when surface temperature is at least 60 °F and rising. Warmer temperatures provide better results. Do not apply if rain or cooler temperatures are expected within 24 hours. Mix contents to a uniform consistency and apply to slightly dampened surface. Do not apply to cracks or holes which have water puddles. Use brush to apply filler, ending with a smooth surface finish. For repairs or depths greater than 1", you may need a second application. Dry time will be extended in cool weather. Allow 24-48 hours before vehicle traffic.

COVERAGE RATE: This container will cover approximately 50 linear feet of 1" cracks.

CLEAN-UP: Clean tools with soap and water when wet, or an orange citrus cleaner when cured.

STORAGE AND HANDLING PRECAUTIONS: Do not freeze. When transporting this product, ensure that lid is tight and pail secure and upright. Do not allow pail to tumble as this may cause lid to loosen and leakage to occur. Do not transport on passenger seats or inside the passenger compartment of any vehicle. Store product in the cargo area of vehicle, and secure over protective cloths to prevent damage due to accidental spills. Do not apply at temperatures below 50 °F. Do not allow stored product to freeze. Seal container when not in use. Do not use in drinking water or food systems.

WARRANTY AND DISCLAIMER: Gardner-Gibson, Inc., warrants this product to give satisfactory results when our directions are followed in its use and application, for a period of 12 months from the date of purchase. In no event however shall the manufacturer be liable for an amount in excess of the purchase price of the product used. If not completely satisfied, return to place of purchase for a refund.
