

LARSON JEWELERS FINGERPRINT ENGRAVING FORM

There are multiple boxes so you can practice your fingerprint several times until you get it close to the sample print shown below. Do not roll your finger, simply gently touch your finger to the paper and slowly lift it straight up again. Your fingerprint does not need to have dark lines, as long as the lines are clean and visible. There should be as little smudging and as little ink or gray areas between the ridges.

IMPORTANT: Take many fingerprints so that we can select the best one to use.

EXAMPLE:

--	--

--	--

--	--	--	--

After you are done, please take a picture of the fingerprint that looks best, or if you cannot decide you can take multiple pictures and we will pick the best print. You may also mail this form to us. Please email your pictures to service@larsonjewelers.com

Please reference your order number in your email.
