Logiflex with straddle legs
- optimum handling of goods

High flexibility and efficiency - Logiflex with straddle legs transports, lifts and handles goods on all types of pallets - also closed pallets. Large range of optional extras ensures optimum flexibility.

The design puts focus on the safety and ergonomic working conditions of the user - Logiflex can be adjusted to the individual user, and the ergonomic correct handle ensures the user a relaxed hold.

No damage to surroundings, pallets and goods. Logiflex has an elegant design with rounded corners.

High quality is ensured through an extended test programme and in cooperation with experts in Health and Safety.
Technical Specifications

Straddle legs make it possible to handle many different pallet types.

Optimum safety for the user through:
- Central location of all control buttons on the handle
- Transparent and impact-resistant safety screen on the mast
- Location of parking brake

Available with manual and electric lifting.

Adjustable forks are available in many different lengths and types.

Ergonomic handle ensures the user a relaxed hold. The handle can be marked with the name/department.

Available with side-lifting forks and/or optional extras, e.g. drum turner, remote control, level control, crane arm.
