

KID'S FOOT MEASURING GUIDE

U.S. sizes. Print on 8.5" x 11" paper, at 100% scale.

Measuring Your Child's Foot

1

Have your child stand straight and measure from heel to toe. Go with the bigger foot and round up if you are between sizes.

2

Be sure to use the socks that your child will be wearing when they are walking in the shoe.

3

Try to measure your child's foot at the end of the day when their foot is at their largest (happens after playing all day).

Your measurement can be used to compare to the particular shoe style sizing charts on livieandluca.com for the right fit.
