

HOHOHO!

Oh My Goodness...Where Did This Year Go?!

You could push me over with a feather as it is already December 2023! And what a year it has been.

New Zealand has never seen weather like we've had this year for many, many years. The North Island got hit by Cyclone Gabrielle followed by Cyclone Hale. Then later in the year the South Island particularly the bottom end got hammered. They could quite rightly call it The Big Wet. We trust all those people affected this year have recovered and/or are still recovering.

Whether you are a believer in climate change or not, one thing is certain that the climate is certainly changing. It is definitely different from my old school days. The latest news from the weather gurus is that we are in for an El Nino, very dry weather pattern from September this year. As of yet it hasn't happened. If the big dry does occur, then it will be back to the notes on how to farm in dry conditions.

On the economic front, the payout and the interest rates are certainly challenging. I believe that dairy farmers are one of the most resilient business sectors, evidenced by so many of our customers simply saying, "It is, what it is and the good times will come back, as it

is cyclical!" This year has seen so many raw materials, freight and packaging costs increase like they've never done before, with many increases well over 100%. Agmax's non-negotiable and founding principle and strategy is to provide dairy farmers with quality products at the lowest possible prices. We've never deviated from that. Our other guiding principle is that when we do get a price reduction, we will pass it on to our customers. This has already happened with our Chlorhexidine teatspray and some herbicides. Now to other stuff. The All Blacks came second in the world cup, but we thrashed Australia recently in the Rugby league test. The Americas cup is looking good for New Zealand, we made the semi finals in the cricket world cup, the White Ferns gave their all in the women's world football cup and Paul Coles is setting the world on fire with his squash titles. Way to go New Zealand. The country voted for change, and we now have a new government. Here is to hoping that this lot is better than the last lot. Now it's time to relax and leave your cares and worries behind.

You have all grafted this season, so get the relief milkers in. You deserve a

break whether you are a newcomer to the industry or an old timer. Well done to you all. You deserve to leave work behind and have huge amounts of fun doing whatever spins your wheels over the Christmas and New Year period.

Get ready to make New Year resolutions and spin good yarns over some great food and a few chilled ones. Make sure the BBQ is primed and ready to go, the cricket bat and ball loaded, the sunscreen packed, and last but not least, check the bach and boat are ready to be used and abused by friends and family alike.

And please check out our closing and opening dates below so you do have enough product over Christmas and the New Year!

So from all of us at Agmax, here's to a cracker Christmas, and we will see you on the other side in the New Year.

Love life and stay well!

Paul Whitting

CLOSE OFF FOR PRE-CHRISTMAS ORDERS

Due to transport company constraints, namely the clash of foodstuffs and dangerous goods, the last day to place an order to ensure on-farm delivery prior to Christmas is:

Monday 11th December for South Island orders and
Friday 15th December for North Island orders.

Agmax closes: **Friday 22nd December 2023**
And reopens: **Monday 8th January 2024.**

How to be grade free and relax on your summer break

Milk Cooling

You will all be aware there is a big emphasis on Milk Cooling.

- Milk must be cooled to 10°C or below within 4 hours of the start of milking.
- Be cooled to 6°C or below within the sooner of:
 - 6 hours from the start of milking, or 2 hours from the completion of milking:
 - Is held at or below 6°C without freezing until collection or the next milking:
- Does not exceed 10°C during subsequent milkings until collection.

*****Don't forget to turn your refrigeration on!*****

The weather is warming up now, which takes us into the dreaded 'thermoduric grade' season!

Protein is the main food source for thermoduric bugs and alkali detergents remove protein deposits in the plant and vats.

HOT TIP - Increase your hot alkali washes to at least three a week from November through until March.

Stock up on Alkali, Chlorine and Vat Cleaner (alkali based products) which eliminate protein and keep your plants clean and your milk grade free!

GRADE BUSTERS

Alkali Sachets

The preferred chemical to eradicate, eliminate, get rid of, destroy, annihilate and blitz milk soil is Agmax Alkali. Milk soil has two major components. Milk fat and protein. Alkali is made up of chlorine which gets rid of protein and caustic soda which gets rid of fat. However, people like to skimp on alkali because it involves too much hard work. That is, you have to do an Acid detergent rinse afterwards and it uses hot water.

Remember bacteria cause grades, chemicals don't. The only way bacteria can be in your plant is if there is milk soil in your plant. That is, it hasn't been cleaned properly. That is not the chemical fault. It is the fault of poor cleaning action in the plant and people not doing their job properly.

Uses

- For plant and vat washes.

Note:

*This alkali comes in a fantastically sealed pre-measured sachet. The chlorine and caustic soda stay intact, it doesn't go off and degrade as it does in loose alkali powder in buckets.

*No measuring, no spills, no waste.

*Sachets retain full alkali strength for years.

Vat Cleaner

This product is exclusive to Agmax. The most amazing invention since sliced bread. We have taken the alkali powder and through magic and pure genius have created this caustic chlorinated alkali gel. The only one of its kind on the market. This product cleans more effectively as it sticks to surfaces and therefore has greater contact time.

That is, any milk fat and protein will have been eradicated. Remember no fat, no protein therefore no bacteria can live there because there is no food source, therefore no grades. We have since found other dynamic uses for Vat Cleaner.

Uses

•Vats

Add up to 500mls of Vat Cleaner into the vat alkali wash. Vat washes are not affected by the amount of foam. This prevents you from climbing inside the vat to manually clean. The foam will cling to the vat walls. Leave for 15 minutes and rinse with cold water.

•Machine

For plants with a poor/weak mechanical action – that is no slug or boss wash system to provide longer wash water contact time. Add 100mls of Vat Cleaner to your alkali wash – this will result in

more foam to make good contact in the milkline and receiving can. Too much foam will flood the sanitary trap.

- Dynamic for putting on the end of a brush with a filter sock and scrubbing the milk line. This will remove baked on milk. If there is a heavy build-up – repeat the process.

Chlorine

Not all chlorines are equal. Check the labels of other chlorines and you will find they are weaker in strength.

Our chlorine is 270g/lit of Sodium Hypochlorite. If you find it is less than this – it has just been diluted with water. Chlorine is the protein buster. This is your weapon for getting rid of protein. That is chlorine eliminates and gets rid of protein in your plant and vat. Thermodurics love living in protein. Get rid of the protein, get rid of the thermodurics therefore no grade.

Uses

- For all water exclusion farms use 5mls of Agmax Chlorine per 100Lt of wash water.
- Add 100 – 500 mls per alkali wash in plant and vat when required
- Also use for getting rid of organic slime and gunk on shed walls and concrete floors, spray on wash off

Dairy Shed Essentials

CONCENTRATED ALKALI SACHETS POWDER

- 20kg equal to 30kg of other brands
- Dilution rate 100gm/100lt
- No measuring, spills or waste
- Sachets retain full chlorine strength
- **NPE & QAC FREE!**

MPI approved for use in Farm Dairies

20kg bag (100g, 150g or 250g) **\$180** all incl GST
\$156.52 ex GST

CONCENTRATED ACID SACHETS POWDER

- Super low foaming
- 20kg equals 30lt of liquid acid
- Powerful cold water detergent
- Dilution rate 100gm/100lt
- No measuring, spills or waste
- **NPE & QAC FREE!**

MPI approved for use in Farm Dairies

20kg bag (100g, 150g or 250g) **\$168** all incl GST
\$146.09 ex GST

AGMAX CHLORINE

This liquid chlorine contains 270g/ltr Sodium Hypochlorite. It can be used as an additive to your alkali wash in both the machine and vat, to prevent protein build up. It is also a fast and effective way to remove slime and algae off concrete. 100s of other uses on the farm.

MPI approved for use in Farm Dairies

20lt **\$77** • 100lt **\$319** • 200lt **\$547** all incl GST
20lt \$66.96 • 100lt \$277.39 • 200lt \$475.65 ex GST

MULTIWASH 900 LIQUID CHLORINATED ALKALI

- Use alkali at least 3x per week
- Prevents fat & protein deposits
- Use at 150ml per 100lt hot water
- Suitable for reverse flow machines
- **NPE & QAC FREE!**

MPI approved for use in Farm Dairies

20lt **\$135** • 100lt **\$507** • 200lt **\$890** all incl GST
20lt \$117.39 • 100lt \$440.87 • 200lt \$773.91 ex GST

MAXIMUM Acid Detergent Sanitiser

- Low Foaming and suitable for hard water
- Concentrated use rate 100mls/100 litres equals less ordering/less drums
- Superior cleaning performance, easily biodegradable
- For hot or cold water
- **NPE & QAC FREE!**

MPI approved for use in Farm Dairies

20lt **\$153** • 100lt **\$667** • 200lt **\$1142** all incl GST
20lt \$133.04 • 100lt \$580 • 200lt \$993.04 ex GST

WORKS Acid Detergent Sanitiser

- For hot or cold water
- Use rate 150mls/100 litres
- Superior cleaning performance
- Easily biodegradable
- Low Foaming and suitable for hard water
- **NPE & QAC FREE!**

MPI approved for use in Farm Dairies

Animal Health Products

TEATSWEET

- Fast acting No.1 mastitis killer. Attacks mastitis bugs immediately
- Independently trialled and tested
- Protocol 'A' Approved
- Teatspray in a Sachet - convenient, safe and economical
- Each sachet makes 20 litres of ready-to-spray solution
- Add up to 10% emollient e.g. Glycerine, Titivate or Sorbitol
- Outstanding performance against all mastitis bacteria
- **NPE & QAC FREE!**

ACVM No.A7793

5kg pail (39 sachets makes up to 780 litres) **\$445** incl GST
12kg pail (94 sachets makes up to 1880 litres) **\$986** incl GST
5kg pail \$386.96 ex GST • 12kg pail \$857.39 ex GST

IODINE TEATSPRAY

- Provides 20g/lit available iodine and emollients
- Use at 1:9 dilution ratio
- Protocol 'A' Approved
- New, smooth flowing concentrate with excellent sticking power
- **NPE & QAC FREE!**

ACVM No.A7793

MEGASTART

- High energy drench for cows post calving and when nutritionally stressed
- Unique powder formula that doesn't separate in storage
- Can be added dry to supplementary feed or diluted with water for drenching
- Just dilute with water and administer with drenching bottle. **See pictured >*
- **Not suitable for drenching guns**
- High energy from vegetable derived carbohydrate and bypass fat
- Good source of calcium + magnesium needed after calving
- Good source of Cobalt for vitamin B12 synthesis in rumen
- Supplied in convenient 16 kg (20 doses), re-sealable pail and measure; suitable for cows and sheep
- Dose rate: 800g per dose.

*Nutrient/energy per 800g dose: Energy 16.7MJ
Magnesium12g Calcium 70g Cobalt 2g*

16kg pail **\$185** incl GST • \$160.87 ex GST

***Note: Drench bottle not supplied.**

STOCKFOOD SUPPLEMENT

- Smooth solution - easy to pour, natural liquid mineral supplement
- Assists stock in stress conditions
- Drench at dose rate of 20mls/per cow or 10mls/per calf per day. Alternatively can be added to separate drinking container (not the trough).

The typical analysis of the product is:

*Total Solids..52% Carbohydrates...6% Magnesium...2.5%
Phosphorus...1.5% Crude Protein...25% Nitrogen...4%
Potassium...2.5% Sodium...1.5% + trace elements, amino acids + B group vitamins.*

The cost of delivering small orders is high, compared with the value of your order. This is an incentive to order more than \$250 of Agmax products. **Conditions apply.*

Herbicides

Note: The pack sizes are 5, 10 and 20 ltrs all packed in 5 ltr jerry can style containers with tamper evident screw caps. Shipped in heavy duty cardboard cartons. Other products are in wide mouth heavy duty plastic containers with child resistant resealable caps. When appropriate products contain a free measuring jug, scoops and direction leaflets. Please call on our free phone 0508 524 824 for further information.

GLYPHOSATE 360

Glyphosate is one of the most common non-selective herbicides for control of broadleaf weeds and many annual and perennial grasses.

- Contains 360g/l glyphosate herbicide as the isopropylamine salt
- Non-selective herbicide; ideal for spraying out pasture

ACVM No.P005441

5lt **\$57.00** • 20lt (4x5l) **\$178.25** • 200lt **\$1690.50** incl GST
5lt \$50 • 20lt \$155 • 200lt \$1470 all ex GST

TRICLO

- Triclo is a selective herbicide and is grass friendly
- Controls blackberry, broom, gorse, lupin, tutus, fennel, sweet briar and old man's beard
Also effective against most broadleaf weeds in pasture
- Contains 600g/l triclopyr as the butoxyethyl ester

ACVM No.P007189

5lt **\$253.00** • 20lt (4x5l) **\$655.50** all inc GST
5lt \$220 • 20lt \$570 all ex GST

MSF 600

- The lowest cost gorse killer, both popular and proven in New Zealand
- MSF 600 herbicide is a water dispersible granule; easy to handle and dissolves fast
- MSF 600 herbicide controls gorse, bracken, manuka, blackberry, ragwort, thistles and many other broadleaf and brush weeds

ACVM No.P007027

200g **\$32.20** • 500g **\$43.70** • 1kg **\$80.50** • 2kg **\$147.20** all inc GST
• 200g \$28 • 500g \$38 • 1kg \$70 • 2kg \$128 all ex GST

GLYPHOSATE 540

- 540g/L glyphosate potassium salt as a soluble concentrate
- Non-selective herbicide; ideal for spraying out pasture
- Leaves no residue in the soil; sow new seed 48 hours after application
- No withholding period

5lt **\$86.25** • 20lt (4x5l) **\$271.40** • 200lt **\$2535.75** all incl GST
• 5lt \$75 • 20lt \$236 • 200lt \$2205 all ex GST

BUCKSHOT

Direct spot application for the control of scattered broadleaf weeds and brush weeds in pasture. Applied as a dry granule; no mixing or preparation is required so it's always ready to use.

- Contains 20g/kg picloram active ingredient
- Apply by hand, by pogo stick applicator, or by applicator bottle (including the ever-popular old detergent bottle, etc)
- Buckshot will not harm pasture grasses, but it does damage clover

ACVM No.P007717

5kg **\$103.50** • 20kg (4x5l) **\$368** all inc GST
5kg \$90 • 20kg \$320 all ex GST

SUPERWETTER

- Organosilicones provide optimum penetration into woody-stemmed species (gorse, black-berry, etc)
- Faster uptake by plant; reduces rain risk
- Boosts herbicide performance against harder-to-kill species, and when target plants are stressed or dusty

5lt **\$132.25** • 20lt (4x5l) **\$480.70** all inc GST
5lt \$115 • 20lt \$418 all ex GST

Note: All Herbicide orders incur a freight charge. Call us for more information.

Herbicides

Note: The pack sizes are 5, 10 and 20 ltrs all packed in 5 ltr jerry can style containers with tamper evident screw caps. Shipped in heavy duty cardboard cartons. Other products are in wide mouth heavy duty plastic containers with child resistant resealable caps. When appropriate products contain a free measuring jug, scoops and direction leaflets. Please call on our free phone 0508 524 824 for further information.

GRANNY- GRANULAR GLYPHOSATE

- Water-soluble granules containing 800g/kg of active glyphosate herbicide
- Non-selective herbicide for spraying out pasture, plus general weed control
- The stronger, smarter and most economical glyphosate option

ACVM No.P007499

2.25kg **\$57.50** • 4.5kg **\$103.50** • 9kg (2x4.5kg) **\$178.25** all inc GST

• 2.25kg \$50 • 4.5kg \$90 • 9kg \$155 all ex GST

GA200

GA200 controls a wide range of weeds, grasses and clovers, and is safe to use in orchards and vineyards.

- The Active ingredient is glufosinate-ammonium at 200g/litre in the form of a soluble liquid concentrate
- GA200 is a non-selective herbicide but with very limited systemic movement through the target plant

ACVM No.P009422

5lt **\$159.85** • 20lt (4x5l) **\$529.00** all incl GST

5lt \$139 • 20lt (4x5l) \$460 all ex GST

SPRAYWETTER

Spraywetter non-ionic surfactant, improves penetration, especially into harder and waxy plants. Effective for most broadleaf weeds.

- Cost-effective and great weedkiller wetting agent
- Faster plant uptake significantly reduces the rain risk period
- Aids in herbicides' penetration into a wide range of target weeds

5lt **\$86.25** • 20lt (4x5l) **\$253.00** all inc GST

5lt \$75 • 20lt \$220 all ex GST

GRASSMATE

This selective herbicide doesn't harm common pasture grasses and is a great way to control brush weeds and broadleaf weeds in pasture.

- Contains 300g/L triclopyr as the butoxyethyl ester plus 100g/l picloram as the amine salt in the form of an emulsifiable concentrate
- Controls Blackberry, Broom, Gorse, Lupin, Tutus, Sweet Briar, and Matagouri. Also controls broadleaf weeds

ACVM No.P007417

5lt **\$201.25** • 20lt (4x5l) **\$670.45** all inc GST

5lt \$175 • 20lt \$583 all ex GST

DECISION

A new selective herbicide for post-emergent weed control in new and established pasture, as well as in lucerne, chicory, clover and maize crops.

- Contains 800g/kg Flumetsulam in a water dispersible granule
- A clover-friendly herbicide; provides control of annual and perennial buttercups in pasture

ACVM No.P008368

200g **\$103.50** • 500g **\$195.50** all inc GST

200g \$90 • 500g \$170 all ex GST

RANGER

Ranger is a great weedkiller that controls docks and buttercup and is a selective herbicide for use in pasture, wheat, barley, and oat crops.

- Contains: 750g/kg thifensulfuron-methyl as a water-dispersible granule
- For use in conservation tillage.

ACVM No.P7668

100g **\$87.40** • 1kg **\$851** all incl GST

100g \$76 • 1kg \$740 all ex GST

Note: All Herbicide orders incur a freight charge. Call us for more information.

Homecare Products

LAUNDRY

Concentrated Laundry Powder with Enzymes

This is the BEST laundry powder on the market. No fillers, low foaming and super concentrated. Use only 30g (i.e. the scoop provided) for a full heavily soiled load. It sounds crazy but that is all you need. Uses: For heavily and all other soiled laundry.

5kg bucket **\$51** • 20kg bucket **\$152** all incl GST
5kg bucket \$44.35 • 20kg bucket \$132.17 ex GST

WORK SOAP

Antiseptic, anti-bacterial, perfumed, heavy duty flowing soap. A concentrated formula that only requires small quantities to be effective. Uses: For removing grease, graphite, garden soil, etc. Effective in salt water; ideal for boating, yachting and camping.

5 litres **\$62** incl GST • 5 litres \$53.91 ex GST

AUTOMATIC DISHWASHING POWDER

State of the Art high performance concentrated powder that sanitises as it cleans. Just add small amount to the dispenser. For use in automatic dishwashers. Biodegradable, concentrated, easy to use.

5kg bucket **\$56** • 20kg bucket **\$155** all incl GST
5kg bucket \$48.70 • 20kg bucket \$134.78 ex GST

DETERGENTS

Premium Concentrated Dishwashing Liquid

Lemon scented dish washing detergent. Uses: For hand dishwashing in home and commercial applications. High grease-cutting properties.

5 litres **\$33** • 20lt bucket **\$89** incl GST
5 litres \$28.70 • 20lt bucket \$77.39 ex GST

Nitrosol Product Range

NITROSOL ORIGINAL

Nitrosol Original ovine blood and bone for use in all horticultural crops and home gardens. Nitrosol Original has a balanced NPK of 11.5.7 plus trace elements and minerals and recommended for use in all horticultural crops and home garden.

20lt **\$205.00** • 100lt **\$677.00**
200lt **\$1,063.00** • 1000lt **\$5,082.00**

NITROSOL NITROGEN BOOSTER

Nitrogen Booster is a high nitrogen liquid formulation containing a balanced blend of nitrogen rich materials from plant based amino acids and dissolved urea. Nitrogen Booster has 21.5% nitrogen.

20lt **\$132.00** • 100lt **\$489.00**
200lt **\$747.00** • 1000lt **\$3,444.00**

NITROSOL MICROLIME

Nitrosol MicroLime is a finely ground high purity calcium carbonate used to increase pH or supply calcium. Certified Biogro organic input and IFOAM accredited.

25kg bag **\$19.25** • 1 tonne bag **\$693.00**

NITROSOL CALCIPRILL

is a 2-6 mm lime granule made from finely ground, high purity limestone. It is low in dust, easy to spread and breaks down rapidly in moisture.

It gives you the option of using your own fertiliser spreading equipment for a timelier application and can lower the risk of introducing off-farm pathogens or weeds.

25kg bag **\$25.0** • 500kg bag **\$325.00**

NITROSOL OCEANIC

Nitrosol Oceanic is a liquid fertiliser manufactured from deep-sea fish blood and bone plus trace elements and minerals with a balanced NPK of 11.5.7.

20lt **\$212.00** • 100lt **\$688.00**
200lt **\$1,089.00** • 1000lt **\$5,197.00**

NITROSOL MAGSULPHATE

includes 7.5% organic carbohydrates to feed and stimulate biological activity in the soil. Magnesium is an important plant nutrient that is often found to be deficient in New Zealand crops. Sulphur is essential for productive pastures, crops and animals.

200lt **\$330.00** • 1000lt **\$1,563.00**

NITROSOL ORGANIC

is a new liquid organic fish fertiliser developed for use as a certified input for organic farmers. Silky smooth and not guggy with a vastly improved odour. Certified Biogro organic input and IFOAM accredited. NPK of 6.1.3

20lt **\$220.00** • 100lt **\$699.00**
200lt **\$1,098.00** • 1000lt **\$5,255.00**

NITROSOL SEAWEED FLAKES

100% soluble seaweed flake derived from Ascophyllum Nodosum. Certified Biogro organic input and IFOAM accredited.

2kg pack **\$58.00** • 20kg box **\$529.00**

NITROSOL GIBB A90

is a water soluble powder of gibberellic acid, a naturally occurring plant growth promotant. Apply at only 9gms per hectare.

540g tub **\$410.00**

Please note prices exclude GST & delivery, and are subject to change without notice. Purchase your products direct from Nitrosol Limited or your local rural merchant, eg: Farmlands, PGG Wrightson, Fruited, FarmSource, Horticulture etc.

Herd Over The Fenceline

The last laugh... Simplified Urine Test

Go outside and pee in the garden.

If ants gather: **Diabetes**

If you pee on your feet: **Prostate**

If it smells like a BBQ: **Cholesterol**

If when you shake it, your wrist hurts: **Osteoarthritis**

If you return to your room with your penis outside your pants: **Alzheimer**

You've gotta love Frank

Mildred the church gossip and self appointed monitor of the churches morals, keeps sticking her nose into other people's business. Several members did not approve of her extracurricular activities but feared her enough to maintain their silence. She made a mistake, however, when she accused Frank, a new member of being an alcoholic after she saw his old pickup parked in front of the town's only bar one afternoon. She emphatically told Frank and several others that everyone seeing it there would know what he was doing.

Frank, being a man of few words, stared at her for a moment and turned, then walked away. He didn't explain, defend or deny. He said nothing. Later that evening Frank quietly parked his pickup in front of Mildred's house and walked home. He left it there all night!

All I want for Christmas is a bedazzled udder!

I'm too sexy for this herd

Credit card payments

Visa / MasterCard only

Agmax has the facility to accept Credit Card payments. You will need to have a current email address. Please contact us on **0508 524 824** and we will be happy to explain the procedure.

10% AGMAX REBATE

Recommend Agmax to a new customer and:

- They get a **10% saving** off their first order
- You get a **10% saving** off your next order
