WHY CHOOSE synxBody

At SynxBody, we believe that everyone deserves access to affordable and effective footcare. With our innovative products and solutions, we are changing the game, making it our mission to improve foot health for people everywhere.

Our success story is your opportunity. Join us, and together, we'll change lives and make footcare more accessible worldwide.

Here's why SynxBody is the brand you want to partner with:

INCREDIBLE GROWTH

We're not just growing; we're skyrocketing! Our 100% year-on-year growth speaks to our dedication and the market's demand for our products.

INNOVATIVE SOLUTIONS

We're not your typical footcare brand. Our products are designed to provide long-lasting comfort and health benefits. From orthotic insoles to compression socks, our range is built on innovation to solve the most common foot problems, and we are here to support the whole body through all stages of life.

AFFORDABLE & PROFESSIONAL

We're passionate about solving problems, and our co-founder and CEO is a sports podiatrist with over 20 years' experience finding better ways to solve the world's biggest footcare problems. Our commitment to accessible pricing sets us apart in the industry.

GLOBAL EXPANSION

We're on a mission to take SynxBody around the world. Join us as a distributor, and together, we'll change the way people think about feet, no matter where they are.

WEALTH

We are a hugely profitable and successful brand in Australia. After launching into the market in 2015 on Shark Tank we have gone on to pave our way, expanding the range and our distribution through Australia and New Zealand. We are established, we have the financial backing and we are aiming for global market domination.

GLOBAL PODCAST ON FOOT & BODY HEALTH

We are just launching a health and wellness podcast with Rachael Ferguson as the host, educating the public on podiatry conditions, treatments and interviewing health experts from around the world. This podcast will be marketed globally to increase our brand awareness and match our global expansion goals.
