(super)
TO CHARGE

1. Connect the power charging ports with a power source. When charging, the RED light will be on. **Full charge time is about 3 hours.

2. When the Buckshot is fully charged, the RED light will be off and the BLUE light will be on. **When charging, the Buckshot's buttons will be not function, but you may use and operate the device via your phone's controls.
Power On/Off
ON: Hold the MFB for 3 seconds until you see a blue LED flashing to power on the device.
OFF: In standby mode, hold the MFB for 3 seconds until you see the red LED flashing to power off the device.

ENTER PAIRING MODE

When the headset is off, press and hold the MFB button for 3-5 seconds, or until the BLUE and RED lights flash alternately.

PAIR

Ensure that the Buckshot is withing 3 feet of your device.

Enter pairing mode on the Buckshot. Search for your bluetooth manager on your bluetooth device.

Find Buckshot on your device and select it for pairing.

If asked for a password, enter "0000"
PHONE FUNCTIONS

RECEIVE A CALL
When there is a call, press the multifunction button once to answer.

END A CALL
After the call is over, press the multifunction once to end it.

REJECT INCOMING CALL
Press and hold the multifunction button to reject

REDIAL A CALL
In standby mode, press the multifunction button twice and you will hear one beep. The last number dialed will then redial.

VOICE REDIALING
In standby mode, press the multifunction and volume-up buttons until you hear the tone for voice dialing.
MUSIC FUNCTIONS

PLAY/PAUSE

In standby mode, press the multi-function button once to activate music play. Press again to pause.

CHANGE VOLUME

Press the +/- key shortly to raise and lower the volume.
PLAY/PAUSE

If you are unable to connect your Buckshot with your Bluetooth device, please try the following:

Ensure your Buckshot is turned on and fully charged.

Ensure the Buckshot is in pairing mode when you try to pair it with your device.

If the Buckshot is left with BLUE & RED leds flashing alternately in pairing mode for three minutes it will shut off automatically.

Ensure that your device is Bluetooth capable. Refer to your device’s manual for information.

Ensure the Buckshot is within a maximum of 30 feet from your Bluetooth device and there are no obstructions, such as walls, statues, or other electronic devices.

If the above suggestions do not solve your problems, please contact us at info@outdoortech.com.
