WHAT’S INSIDE

BUCKSHOT PRO

FLASHLIGHT ACCESSORY

BIKE MOUNT

*Micro USB Cord and instructional manual are also included in the packaging.
- Multifunction button (MFB)
- Blue and red LED light indicator
- Volume up // Skip forward
- Volume down // Skip backward
- Microphone
- Passive bass port
- Micro USB port
- USB output port
Flashlight Accessory

- Threading
- Power button
- USB male plug

Powerbank // Flashlight accessory

- Charging station side
- Space for accessory threading

*Hook to hang the device upside down

Speaker side
HANDLE BAR MOUNT INCLUDED.

For a more secure fit, wrap the rubberized bike mount around the bar once before incorporating the Buckshot Pro as seen above.

*The speaker side should be facing you with the flashlight facing the other direction.

The included rubber bike mount can be used in different ways to accommodate your outdoor lifestyle. Whether it’s a bike handlebar or your backpack strap, you can be creative in the ways you wrap your Buckshot Pro to any space.

(super)
**STEPS**

1. Align the light accessory male USB plug with the USB output on the Buckshot Pro.

2. Insert the plug into the USB output. You will see the threading from the light accessory (the gap between the locking mechanism and accessory.)

3. To secure the light accessory, rotate the "lock" counter clockwise so that the piece moves upwards. Keep rotating till you meet resistance and the accessory is secure.
**LIGHT ACCESSORY FUNCTIONS**

*The light accessory can function without the Buckshot Pro turned on. It has its own power button and is powered by the Buckshot Pro’s powerbank.*

**TURN ON/ OFF**

Hold Power button down for 3 seconds to turn the light accessory on and off.

**CHANGE LIGHT SETTING**

Click on the power button to change and alternate between light settings.

There are three different light settings to choose from: torch, lamp, and flash.
TO CHARGE

1. Connect the included Micro USB cord to a power source and the charging port on the Buckshot Pro. When charging, the red LED light will stay activated. ***Full charge time is about 3 hours.

2. When the Buckshot Pro is fully charged, the RED light will turn off.

The displayed battery meter is supported for Apple products.

*The Buckshot Pro’s Bluetooth and music functions can still operate while charging.
Charging your devices:

1. Connect the USB Port cable to the Buckshot Pro's output port.

2. Connect the other port to your device.

3. Your device should automatically start charging.

4. When the your device is fully charged, disconnect the Buckshot Pro.

Remember, the Buckshot Pro shares its 2600 mAh battery with three functions: speaker, powerbank, and flashlight accessory. The amount of charge, music time, light time will vary based on the use of any of the three functions.
PAIRING MODE

Power On / Off
ON: Hold the MFB for 2-3 seconds or until the LED light flashes blue and the voice prompt states "Power on"
OFF: Hold the MFB for 3-4 seconds or until the LED light flashes red and the voice prompt states "Power off"

Enter Pairing Mode
When powered on, it will enter into pairing mode automatically. Hold the MFB for 2-3 seconds or until you see the LED light flash blue and the voice prompts states "Power on, Pairing." The LED lights will then flash red and blue alternately.

Pairing Buckshot Pro to Device
Open the Bluetooth settings on your device. If you have put your Buckshot Pro into pairing mode, it should be listed as "ODT Buckshot Pro" as an available device to pair. Connect with the Buckshot Pro. The voice prompt will state "Successful" if the Buckshot Pro and your device connected. The blue LED light will flash for as long as the device is connected and on.

*The Buckshot Pro will automatically repair to a previously paired device.
# MUSIC FUNCTIONS

## Music/Device Controls

- **Skip forward**
- **Volume up**
- **MFB** (Menu/Function Button)
- **Skip backward**
- **Volume down**

*The Volume up button is closest to the speaker end of the Buckshot Pro.*

**Rating:** IPX5
- Do not access the input/output simultaneously. It may affect the product's performance and not charge properly.

- Use a soft, dry cloth to wipe the surface. Do not use intensive chemical products or detergent to clean the product.

- Charge the product at least once every three months, to prevent the batteries from drying out.

- It is normal for the battery to heat up during its charge. The temperature should be below 45° & does not affect the Buckshot Pro’s performance.

- For best performance, fully charge the Buckshot Pro before charging other devices.

- All products have passed the strict quality inspection, Do not use the battery/device if it gives off an odor, generates heat, becomes deformed, abrasion, damaged or appears abnormal in any way
K, Later gator.
