

KODIAK MINI ULTRA

**PORTABLE
RUGGED**

POWER BANK

WARNING: Use only a UL certified adapter when recharging the Kodiak USB Power Bank. The use of a USB to AC adapter that is not UL certified can cause high voltage and a spike in AC current, which in turn could cause the Power Bank, the adapter, or both to explode or catch on fire. To verify that the UL mark on the adapter has been certified by UL go to: http://database.ul.com/cgi-bin/XYV/template/LISEXT/1FRAME/index.html?utm_source=ulcom&utm_medium=web&utm_campaign=database

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

CARE & MAINTENANCE

- Do not access the input/output simultaneously. It may affect the product's performance and not charge properly.
- When not in use, please make sure the lid is tightly closed and kept away from extreme heat conditions.
- Keep the Kodiak Mini Ultra away from direct sunlight or hot places. High temperatures will shorten the life of electronic devices, destroy the battery or distort certain plastic parts.
- Use a soft, dry cloth to wipe the surface. Do not use intensive chemical products or detergent to clean the product.
- Charge the product at least once every three months, to prevent the batteries from drying out.

7

CARE & MAINTENANCE

- For best performance, fully charge the Kodiak Mini Ultra before charging other devices.
- Do not try to disassemble the Kodiak Mini Ultra.
- Do not scratch the surface with sharp things.
- It is normal for the battery to heat up during its charge. The temperature should be below 45° & does not affect the Kodiak Mini Ultra performance.
- All products have passed the strict quality inspection, Do not use the battery if it gives off an odor, generates heat, becomes deformed, abrasion, damaged or appears abnormal in any way.
