**ANATOMY**

- Tempered glass screen protector
- Black rubber TPU bumper case with polycarbonate clear back.
GETTING STARTED

1. Tear open the wet wipe. Clean your screen real good, seriously. One last polish and then don't touch it. Let it rest for a second.

2. The moment of truth is near. Carefully peel back the protective film. Deep breath.

3. Line up the home button and speaker grill. Lay it down with grace. Once it's on it's on, no second chances.

*Lifetime warranty on the Yowie glass. If the Yowie glass breaks we will replace it for free.*
Slide phone into the case bottom first then peel rubber frame up around the top corners for a secure fit.
K, bye.
