WHAT YOU'LL NEED:

- ✓ 4 LYNX LEVELERS*
- ✓ 2 LYNX CHOCK 'R DOCKS**
- ✓ 1 LYNXCAP™ LEVELER TOP
- ✓ 1 LYNX STAY-PUT 7-PIN PLUG HOLDER* + TWO (2) #8-32 x 3/4" HEX HEAD SCREWS (NOT INCLUDED)
- ✓ Warranty after registering at WWW.LYNXBOATING.COM

SAFETY TIPS:

- Do not position products while engine is running or vehicle is in motion.
- Take all precautions to be clear of any roadways, moving vehicles, people and pets while setting up.
- Remove any large stones that will be directly under any Lynx products.
- If performing a tire change, we recommend no more than 5 inches of lift off the ground. Find a safe place free of obstacles, and allow at least 3 feet of clear flat surface before starting. Use the Lynx Chock 'R Dock™ to secure at least one trailer wheel to prevent movement.

SECURING YOUR BOAT

SECURING YOUR WHEELS

If the front of your boat trailer is level or tilting downhill, position the Lynx Chock 'R Dock™ under the front of the wheel (as in the image above).

If the front of your boat trailer is tilting uphill, position the Lynx Chock 'R Dock™ under the back of the wheel.

Tightly center and square the chock against the tire.

SECURING YOUR TONGUE JACK

The Lynx Chock 'R Dock™ holds up to 1200 lbs (544KG) of tongue weight and up to an 8" (20.5 cm) wheel diameter, or up to 2 1/4" (6 cm) round or square post.

Position the Lynx Chock 'R Dock™ on the ground underneath the wheel or post. Slowly place the wheel or post inside the well of the Lynx Chock 'R Dock™.

For added height, interlock up to 4 Lynx Levelers* under the Lynx Chock 'R Dock™ to gain up to a maximum recommended 5" (12.5 cm).

One block will raise your boat trailer jack 1.5 inches. Using all 4 Lynx Levelers* and a Chock 'R Dock™ will give you the maximum recommended 5 inches of lift.

DRAINING YOUR BOAT

To drain your boat, you need to unlvel it towards the direction of the drain.

Use a Lynx Chock 'R Deck™ to secure at least one wheel while draining.

If unlveling front to back, use your Lynx Chock 'R Dock™ to secure your wheel or post (see previous instructions for Securing Your Tongue Jack).

If unlveling side to side, use your Lynx Levelers* and LynxCap™. To stack your Lynx Levelers* in a pyramid, place the bottom two (2) levelers beside each other, tightly and squarely against the boat trailer wheel to be raised. Place the final leveling block and LynxCap™ in the middle, above the base, before moving the wheel onto the stack. Remember to stay clear when moving the trailer.

PRO TIP: You may want to place a bucket underneath the spout to catch any unwanted debris.

SECURING YOUR 7-WAY PLUG HOLDER

- Place the plug holder where you want to install it, and mark the holes for position.
- Use 9/64" drill bit to create a pilot hole.
- Screw the plug holder into place using two (2) #8-32 x 3/4" metal screws (not included).

10 YEAR WARRANTY

WARRANTY INFO

REGISTER AT TRILYNX.COM

The 10 year warranty registration is available online at www.lynxboating.com.

The Lynx Boat Trailer pack must be registered online within 21 days of purchase at www.trilynx.com to validate any claim.

LYNX® LINE-UP

LYNX® LEVELERS®

The ORIGINAL RV leveling system since 1992.

Lynx Levelers® leveling blocks are designed to withstand tremendous weight for most leveling or stabilizing functions.

LYNX® STOP 'N CHOCK®

Lynx Stop 'N Chock® wheel chock is designed to interlock with Lynx Levelers leveling blocks as a self-positioning wheel guide, and as a stabilizing wheel chock.

LYNX® LINE-UP

LYNX® CHOCK 'R DOCK™

Lynx Chock 'R Dock™ wheel chock will never sit idle. The two-in-one accessory adds safety and stability to your rig using it as a wheel chock or a tongue dock.

LYNXCAP®

LynxCap® Leveler Tops are designed to give your pyramid or stack of Lynx Levelers® a flat top for easier stabilization and leveling.

LYNX® LIL' CHOCK™

Lynx Lil' Chock™ is a small but mighty chock made from the same material and design as our other wheel chocks.

LYNX® LINE-UP

LYNX® BOAT TRAILER PACK™

Everything you need to stabilize, store, and drain your boat trailer.
