ABOUT TRINITY BAMBOO

My name is Tom Goodham and I am the founder and President of Trinity Bamboo. Having worked in the bamboo flooring industry since 2003, I know how to manufacture some of the finest bamboo flooring in the world.

I manufacture all of my flooring products in the People's Republic of China. Why? This is where Moso bamboo grows and where there is the technical expertise to turn a hollow bamboo stalk (called a "culm") into high-quality, beautiful flooring. China is an amazing country and is as full of beautiful, generous, loving people as any place I have ever visited. You can rest assured that ANY product sold by Trinity Bamboo is made by adult workers in a clean, safe, and happy environment. There is no acceptable alternative.
