ABOUT **BATHORIUM**

BATHORIUM began with one mission in mind: to #bringbackthebath. inspired by the sacred bath time of many europeans, a luxuriant bath allows for the stresses of reality to fade. infusing their baths with pure essential oils, luscious vegetable butters and rock harvest salts - bathers from the south of france to the coasts of amalfi would leave their tubs feeling rejuvenated and restored.

our goal is to provide the ultimate bathing experience. to de-stress and refresh your mind, body, and soul. cherishing the bath and worshipping the body is the backbone for all of our BATHORIUM products, and we strive for everyone to bath, beautifully.

our bath products are focused on the benefits that the bather reaps from the tub; mental clarity, skin brightening and deep muscle rejuvenation. we are a canadian start up on a global mission to #BringBacktheBath.
