

# Half Covers

Retail prices June 11, 2021

Rain/Shade covers are manufactured from 'solashield' or shadecloth fabric.

The shadecloth thro-over is designed to protect your plants from excessive sun exposure and keeps temperatures down in summer.

The solashield thro-over is designed to keep out rain and wind. Also helps to ease the effects of frost and helps to keep the warmth in.

The Stand off cover stands off the house supported by brackets. Brackets & frame are manufactured from galvanised BHP steel and is easily installed. This type of cover allows for superior cooling as the **air between** the two covers is cooled first.

	Thro-over (standard house)	Thro-over with fitted ends (standard house)	Stand off (Split Roof house)
<b><u>1800mm (6') WIDE</u></b>	\$	\$	\$
1800W x 1800L (6 x 6')		310	369
