

INSTRUCTIONS - 2, 3, & 4 TIERED STANDS

All tiered stands consist of 3 items:

- a) 2 - 'L' shaped legs
- b) 1 - stand body (or 2 parts if the stand is in 'cut down' form for freight purposes).

Steps to assemble:

1. Place 'L' shaped leg into hole at bottom of profile and the same at the top of the profile where indicated with arrows pictured above.
2. If necessary use a mallet/hammer to insert the legs fully into the holes.
3. Place stand on level ground

Note: Larger stands have a support bar in the middle section of the stand. This support bar does not have a leg.
