## Give your garden a head start!

Ideal for backyard hobbyists, who love to grow their own vegies, herbs, seedlings etc.

Mini houses are designed for those gardeners who like to grow warm loving plants, propagate from seeds and cuttings or grow herbs and vegetables. The mini house provides a perfect growing room that will last many years.

Our products are designed to be functional and long-lasting, using only products of high quality.

Popular for gardeners who are restricted by lack of space - units, balconies, flats etc.

The covers are made from either 'solashield' or shadecloth. These are both long-life materials, which withstand extreme weather conditions. 'Solashield' is a waterproof, UV stabilised polyfabric. It is resistant to tears, rips, solvents and alkalis. Light transmission is 85.6% which is perfect growing environment.

Shadecloth is available in beige, green or white colour.

Zips are heavy duty uv treated to withstand extreme conditions and constant use.

Lots of options are available eg. shade caps to keep out excess sun, rain caps to keep the rain off plants, variations on internal benching.

### All mini houses comprise:

1. Heavy duty galvanised steel frame and bench/es in kit form
2. Long lasting fitted cover (shadecloth or 'solashield')
3. Pegs, fixing screws, frameshield tape (for hot house cover only)
4. Easy 'do it yourself' instructions

### Information:

Rain/Shade Cap Covers top of house & down to approximately 500mm

Zip door can opened fully to allow maximum air flow

Zip door may be opened to the halfway point for moderate airflow

3 Tier stand is available for Mini or Midi gro in place of flat benches

Tools needed for installation : screwdriver, spade, concrete.
