HISTORY OF SCIENCE**

All of our items are offered subject to prior sale. Payment with order. We accept payment via Most Major Credit Cards, Paypal, Checks, Money orders and bank transfers. Most items (except large groups of periodicals) are offered postpaid via Media Mail within USA. Large groups of periodicals or, Overseas or Priority shipping quoted. 8% Sales tax collected on all orders shipped within New York State unless exempt. Any item may be returned within 2 weeks for any reason. All autographs are guaranteed authentic, and if found otherwise may be returned by original purchaser without time limit for refund of original payment. We deal in original artifacts in most subjects.

Our office hours are 10 am to 5 pm Mon-Fri Eastern. Saturday, Sunday and holidays by chance. We currently do not have an open shop for browsing.

1) Guyer, Michael F. and others 9 offprints 1912-1935 w/ 3 page holograph note

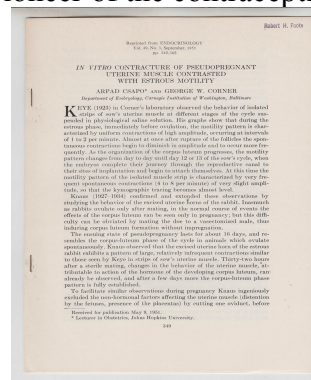

First separate editions. In Original wrappers. Included are: Modifications in the Testes of Hybrids from The Guinea and the Common Fowl Journal of Morphology Vol. 22, No. 1 March 1912 (front page loose, else good. pp. 45-59. includes 2 plates.); Studies in Cytolysis 1. Some Prenatal Effects of Lens Antibodies with E. A. Smith (Journal of Experimental Zoology, vol. 26, No. 1, May 1918); The Golgi Apparatus in Relation to Vacuolation in the Basophiles of the Anterior Pituitary of Castrate and of Cancerous Rats with Pearl E. Claus (The Anatomical Record Vol. 61, No. 1, December, 1934) pp 57-70; Further Studies on Inheritance of Eye Defects Induced in Rabbits with E. A. Smith (Journal of Experimental Zoology, Vol. 38, No. 4, January, 1924) pp 449-474, 1 plate; Precipitin Production Through Lens Injury (Journal of Infectious Diseases, Vol. 37, No. 1, July 1925) pp. 1-3; Cancer Irradiation with Cathode Rays with Farrington Daniels (Journal of Cancer Research, Vol. XII, No. 2, June 1928) pp. 166-187; Cellular Constituents of the Anterior Hypophysis After Uterine Implants of Carcinoma in Rats with P. E. Claus (The Anatomical Record, Vol. 56, No. 4, July 1933) pp. 373-381; Induced Sterility with Pearl E. Claus (Physiological Zoology, Vol. VI, No. 2, July 1933) pp. 253-288; Effects of Artificially Induced Lymphopenia in Cancer-Resistant and Cancer-Susceptible Rats with F. E. Mohs and E. M. Shebesta. (Archives of Pathology, January 1935, Vol. 19. pp. 66-74.

Most are very good, with stamps from prior owners which include: E. M. East, Karl Sax, J. T. Baldwin, Jr., E. N. Harvey, and one institution. 3 page holograph of Alan Boyden's 1926 The Precipitin Reaction in the Study of Animal Relationships \$400.00

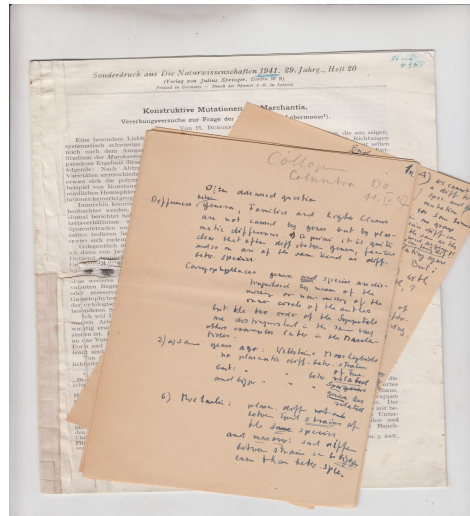

Michael F. Guyer "In 1902, he independently discovered Mendel's laws from the cytology of spermatogenesis in pigeon hybrids." Wikipedia

2) Csapo, Arpad and George W. Corner In Vitro Contracture of Pseudopregnant Uterine Muscle Contrasted with Estrous Motility. First separate edition. Offprint from Endocrinology Vol. 49, No. 3, September, 1951 pp. 349-368. Stamp of Cornell Researcher in In Vitro fertilization Robert H. Foote. Very good. George W. Corner was a pioneer of the contraceptive pill. Scarce. \$150.00

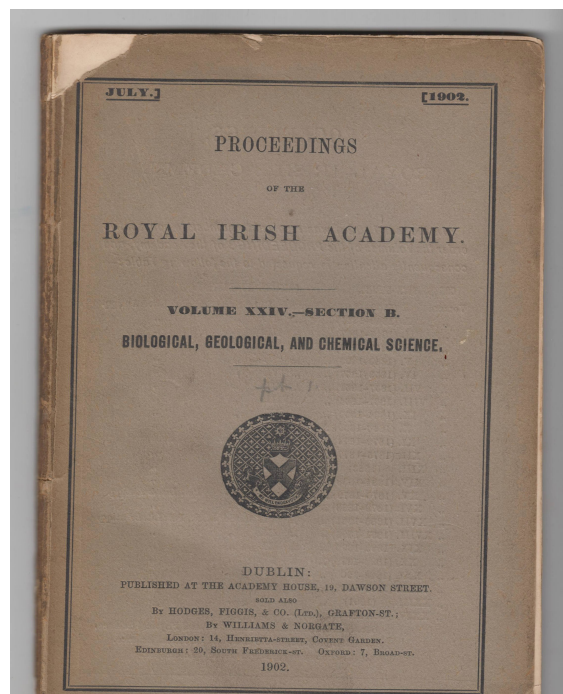

3) Burgeff, Hans and (Emil Heitz) Konstruktive Mutationen bei Marchantia with 7 pages of notes by German botanist Emil Heitz

Naturwissenschaften, v29 n20 (1941): 289-299 Condition Good Description First separate edition. Offprint. Original wrappers. Some tearing at folds, tape to spine, else good. Notations in pencil on pages, page 209 half-page of notes. Together with 7 pages of notes by Emil Heitz (German botanist) while he was at Columbia University in 1947 shortly after the war. \$225.00

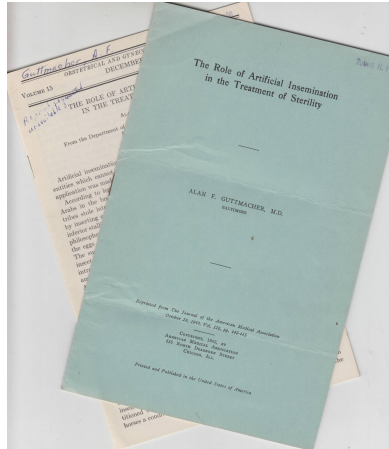

4) Praeger b Robert Lloyd Proceedings of the Royal Irish Academy Volume XXIV-Section B Biological, Geological, and Chemical Science

The Academy House, Dublin Publisher Year 1902 Condition Good Description Original printing. First edition. Good front cover detached. Contains: On Types of Distribution in the Irish Flora and Gleanings in Irish Typographical Botany by Robert Lloyd Praeger Irish botanist. 94pp. \$75.00

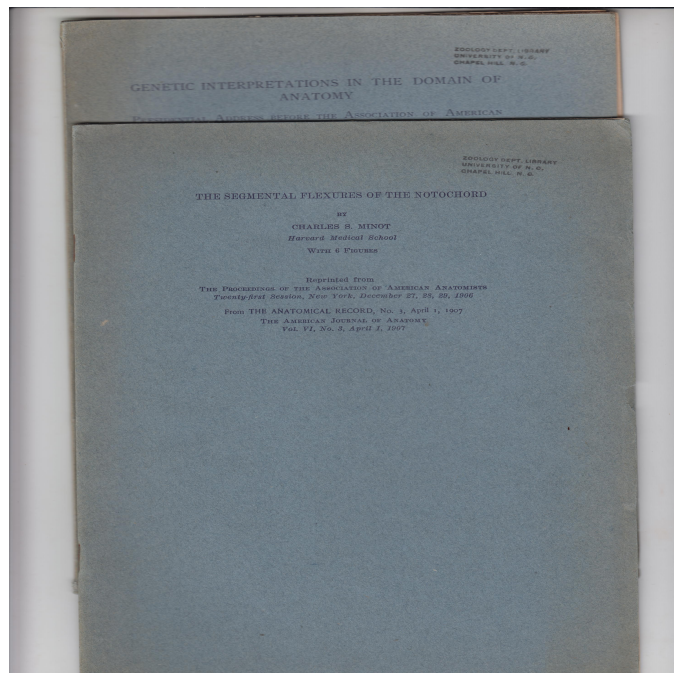

5) Guttmacher, Alan F. The Role of Artificial Insemination in the Treatment of Sterility. Offprint, First Separate Edition, in original wrappers. The Journal of the American Medical Association. October 10, 1942. Vol. 120, pp. 442-445. Robert H. Foote stamp front cover. Together with an apparent revision: The Role of Artificial Insemination in the Treatment of Sterility, Obstetrical and Gynecological Survey, December 1960, Number 6. Also with the Robert H. Foote pp. 767-785. Includes a bibliography not available in the earlier offprint, including many entries post 1942. Scarce. Alan F. Guttmacher was President of Planned Parenthood, and Vice-President of the American Eugenics Society. \$125.00

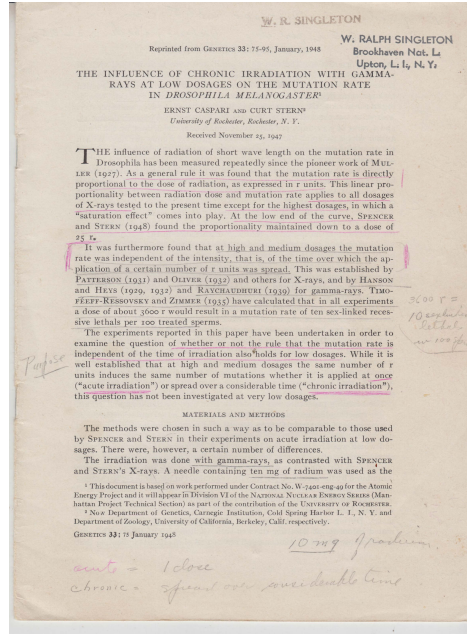

6) Minot, Charles Sedgewick 2 Scarce offprints: Genetic Interpretations in the Domains of Anatomy and The Segmental Flexures of the Notochord

First Separate editions. In Original printed wrappers. Offprints. Genetic Interpretations... reprinted from The American Journal of Anatomy, Vol. IV, No. 2, pp. 245-263 February 28, 1905.. The Segmental Flexures...reprinted from The Anatomical Record, No. 3, April 1, 1907. Some sunning to wraps, with nicks to edges, else very good. Institution stamp on each. \$75.00

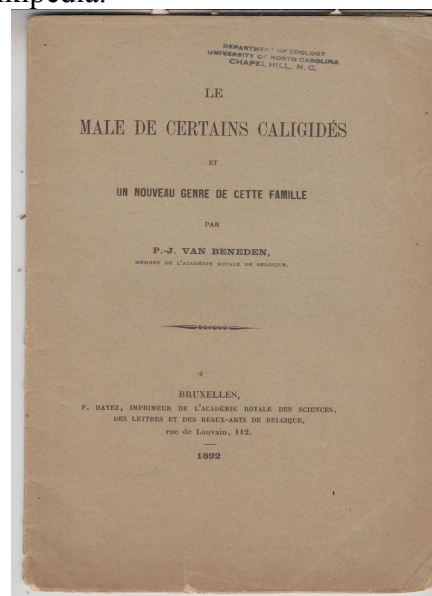

7) Caspari, Ernst and Curt Stern (W. Ralph Singleton) The Influence of Chronic Irradiation with Gamma-Rays at Low Dosages on the Mutation Rate in Drosophila Melanogaster

In original wraps. First Separate edition. Offprint. Very good, stamp of prior owner W. Ralph Singleton "a leading expert on Corn Genetics" NYTimes obit. Most pages underlining, and marginalia. \$100.00

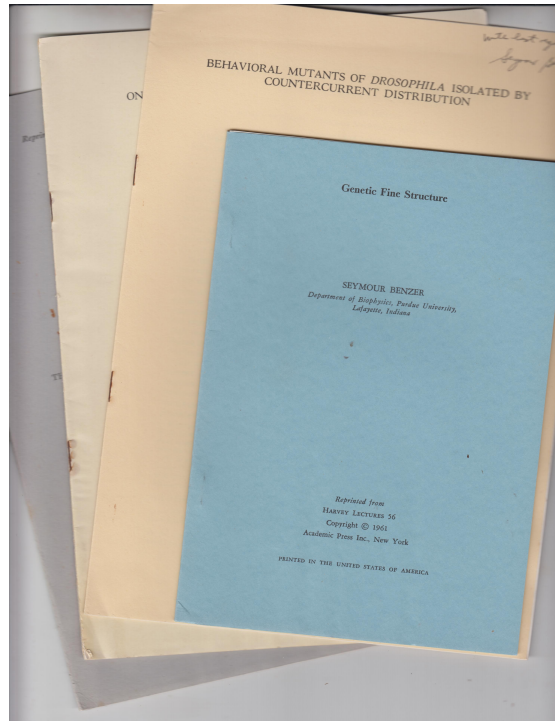

8) BENEDEN, Edouard van Le Male De Certains Caligides et Un Nouveau Genre De Cetter Famille Bull. Acad. Belgique. (3). 23. 1892. 220-235 . Offprint. First Separate edition. Original printed wrappers. Some nicks to edges, institution stamp front cover, pages uncut, else very good. Rare. Worldcat shows only one holding at Harvard in the Ernst Mayr Museum. 2 plates. \$150.00

"Van Beneden elucidated, together with Walther Flemming and Eduard Strasburger, the essential facts of mitosis, where, in contrast to meiosis, there is a qualitative and quantitative equality of chromosome distribution to daughter cells." Wikipedia.

9) Benzer, Seymour 4 scarce offprints one inscribed and signed by Seymour Benzer.

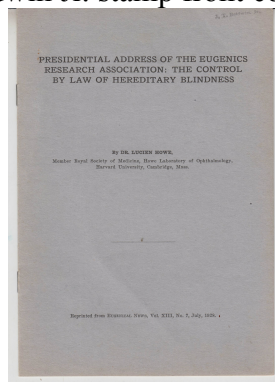

Original printed wrappers. First separate editions. Offprints. Included are: Behavioral Mutants of *Drosophila* Isolated by Countercurrent Distribution, National Academy of Sciences Vol. 58, No. 3, pp. 1112-1119. September 1967; Genetic Fine Structure, Harvey Lectures 56, 1961, Academic Press, NY; The Nature of the "Deletion" Mutants in the rII region of Phage T4 with Masayasu Nomura, Journal of Molecular Biology Volume III, No. 5, 1961; On the Topography of the Genetic Fine Structure, National Academy of Sciences, Vol. 47, No. 3, pp. 403-415, March. 1961. Some minor rippling, staples little rusted, else very good. Awarded the Crafoord Prize in 1993. \$200.00

10) Howe, Lucien Presidential Address of the Eugenics Research Association: The Control by Law of Hereditary Blindness \$175.00

First separate edition. Original printed wrappers. Offprint. Eugenical News, Vol. XIII, No. 7, July 1928.

A notorious Eugenics proposal to legislate that anyone applying for a marriage license to "state in writing that neither of the contracting parties has a father, mother, sister, brother or cousin who was born blind. But if neither of the contracting parties cannot or will not make such a statement, then they should each furnish a bond of at least one thousand dollars.....that none of the children born to them shall become a public charge." J.T. Baldwin Jr. stamp front cover, else very good.

11) G. H. Parker and H. H. Parshley. The Reactions of Earthworms to Dry and to Moist Surface. Journal of Experimental Zoology Vol XI 1911. First separate edition. Offprint. Original wrappers. Present by Dr. E N. Henney Stamp front cover. Contributions from the zoological laboratory of the Museum of Comparative Zoology at Harvard College E. L. Mark, Director. \$50

12) Neil E. Stevens. Observation on Hetrostylous Plants. The Botanical Gazette Vol. LIII 1912. First separate edition. Offprint. Original wrappers. \$50

13) H. K. Hayes, E. M. East, and E. G. Tobacco Breeding in Connecticut. The Connecticut Agricultural experiment station Bulletin 1913. Minor creasing, used book, still very good. Karl sax stamp on front cover. E. M. East stamp front cover. \$50

14) H. K. Hayes and P. J. Olson. First Generation Crosses between Minnesota Corn Varieties. University of Minnesota Agricultural Experiment Station Bulletin 1919. First separate edition. Offprint. Original wrappers. Karl Sax stamp on front cover. E. M. East stamp front cover. University Farm, St. Paul. \$80

15) Hans Winkler. Uber Ppropfbastarde. August Pries 1911. First separate edition. Offprint. Original wrappers. E. M. East Stamp front cover. E.M. East Jamaica stamp front cover. Karl Sax stamp front cover. Gesellschaft Deutscher Naturforscher und Arzte. \$80

16) W. E Castle. Bateson on Problems of Genetics, Weismann's Vortrage uber Deszendenztheorie and Bateson's Principles of Heredity. Science, N.s., Vol. XI 1914. First separate edition. Offprint. Original wrappers. E. N. Harvey Princeton Stamp front cover. E. N. Harvey University of North Carolina Stamp. \$80

17) W. E Castle. Color Varieties of the Rabbit and of other Rodents; Their Origin and Inheritance. Science, N.S., Vol. XXVI 1907. First separate edition. Offprint. Original wrappers. Department of Zoology stamp on front cover. \$200

18) R. W. Siegel. Hereditary Factors controlling Development in Paramecium. Brookhaven Symposia In Biology No. 18 1965. First separate edition. Offprint. Original wrappers. Reprinted from Genetic Control of Differentiation. \$80

19) Charles R. Stockard. An experimental analysis of the Origin and Relationship of Blood corpuscles and the Lining Cells of Vessels. The Proceedings of the National Academy of Sciences Vol 1. 1915. First separate edition. Offprint. Original wrappers. Dr. E. N. Harvey stamp on front cover. Department of Anatomy, Cornell University Medical school. \$50

- 20) C. R. Stockard. Differentiation of Wandering Mesenchymal Cells in the Living Yolk-sac. Science, N. S., Vol. XLII 1915. First separate edition. Offprint. Original wrappers. Dr. E. N. Harvey stamp on front cover. \$50
- 21) Charles R. Stockard. A study of Wandering Mesenchymal Cells on the Living Yolk-Sac and Their Developmental Products: Chromatophores, Vascular Endothelium and Blood Cells. The American Journal of Anatomy Vol. 18 1915. First separate edition. Offprint. Original wrappers. E. N. Harvey Princeton Stamp on front cover. Dr. E. N. Harvey University of North Carolina stamp on front cover. Department of Anatomy, Cornell University Medical College. \$80
- 22) George H. Mickey. Division Cycle in Grassopper Chromosomes. The Proceedings of the Louisiana Academy of Sciences, Vol 10 1947. First separate edition. Offprint. Original wrappers. Orland E. White stamp front cover. The Blandy Experimental Farm stamp on front cover. \$40
- 23) Jean Jacquet, Yves Plessis, and Robert Cassou. Hyaluronidase du sperme et fecondite des taureaux. Comptes rendus des seances de l'Academie des Sciences 1951. First separate edition. Offprint. Original wrappers. Presentee par M. Gaston Ramon. Robert H. Foote stamp on front cover. \$50
- 24) L. J. Stadler. Some observations on Gene Variability and Spontaneous Mutation. The Spragg Memorial Lectures on Planet Breeding (Third Series) 1942. First separate edition. Offprint. Original wrappers. The Spargg Memorial Lectures. \$50
- 25) L. J. Stadler. On the Genetic Nature of Induced Mutations in Plants. Proceedings of the Sixth International Congress of Genetics 1932. First separate edition. Offprint. Original wrappers. Missouri Agricultural Experiment station and United States Department of Agriculture, Columbia Missouri. \$50
- 26) L. J. Stadler. Genetic Effects of X-rays in Maize. Proceedings of the National Academy of Science Vol 14 1928. First separate edition. Offprint. Original wrappers. College of Agriculture, University of Missouri. \$50
- 27) L. J. Stadler and Fred M. Uber. Genetic Effects of Ultraviolet Radiation in Maize IV. Comparison of Monochromatic Radiation. Genetics 1942. First separate edition. Offprint. Original wrappers. Karl Sax stamp on front cover. U. S. Department of Agriculture and University of Missouri Columbia, Missouri. \$50
- 28) Ian McKenzie Duncan. Polycomblike: A Gene

that Appears to be Required for the Normal Expression of the Bithorax and Antennapedia Gene Complexes of *Drosophila Melanogaster*. Genetic Society of America 1982. First separate edition. Offprint. Original wrappers. Division of Biology, California Institute of Technology, Pasadena California. Inscribed by H. L. Carson on front cover in ink. \$50

29) Bernard Breton, Claudine Weil, Bernard Jalaber, and Roland Billard. *Activite reciproque des facteurs hypothalamiques de Belier (ovis aries) et de poissons teleosteens sur la secretion in vitro des hormones gonadotopes c-HG et LH respectivement par des hypophyses de carpe et de Belier*. C. R. Acad. Sc. 1972. First separate edition. Offprint. Original wrappers. Robert H. Foote stamp on front cover. Written note in Foote's hand writing- title translated in english. Presented by Maurice Fontaine. \$50

30) E. H. Strickland. A Quiescent Stage in the Development of *Termes Flavipes* Kollar. Journal of the New York Entomological Society Vol. XIX 1911. First separate edition. Offprint. Original wrappers. Signature in ink by author. \$50

31) Albert F. Blakeslee. Extra Chromosomes a Source of Variations in the Jimson Weed. The Smithsonian Report 1930. First separate edition. Offprint. Original wrappers. Harold H. Smith Stamp on front cover. Harold Smith signature on front cover. \$40

32) W. E Castle. Can Selection cause Genetic Change? *American Naturalist* 1916. First separate edition. Offprint. Original wrappers. J. T. Baldwin Jr. stamp on front cover. \$80

33) Edith R. Saunders. On inheritance of a Mutation in the Common Foxglove (*Digitalis Purpurea*). The *Phytologist*, Vol. X, 1911. First separate edition. Offprint. Original wrappers. Complements of the author inscribed on front cover. \$200

34) Edith R. Saunders. On The Relation of *Linaria Alpina* Type to its Varieties *Concolor* and *Rosea*. The *New Phytologist* Vol. XI 1912. First separate edition. Offprint. Original wrappers. E.M. East Stamp front cover. Karl Sax stamp front cover. inscribed from the author on front cover. \$50

35) L. J. Cole and L. J. Bachhuber. The effect of lead on the germ cells of the Male Rabbit and Fowl as Indicated by their Progeny. *Proceedings of the Society for Experimental Biology and Medicine* 1914. First separate edition. Offprint. Original wrappers. Karl sax stamp front cover. E. M. East stamp front cover. \$50

36) G. H. Parker. The Origin and significance of the

Primitive Nervous System. The American Philosophical Society 1911. First separate edition. Offprint. Original wrappers. Presented by Dr. E. N. Harvey stamp on front cover. \$50

37) R. W. Siegel. Hereditary Factors controlling Development in Paramecium. Brookhaven Symposia In Biology No. 18 1965. First separate edition. Offprint. Original wrappers. Reprinted from Genetic Control of Differentiation. \$50

38) Edith R. Saunders. Further Contribution to the Study of Inheritance of Hoariness in Stocks (Mattholia). Royal Society, B, Vol. 85, 1912. First separate edition. Offprint. Original wrappers. Kaiser-Wilhelm-Institute for Biologie stamp front cover. \$50

39) Edith R. Saunders. Further Contribution to the Study of Inheritance of Hoariness in Stocks (Mattholia). Royal Society, B, Vol. 85, 1912. First separate edition. Offprint. Original wrappers. E.M. East Jamaica Plain Boston, Mass stamp front cover. From the Author stamp front cover. Karl Sax biological lab Cambridge, Mass Stamp front cover. \$50

40) Winterton C. Curtis. On the Reproductive System of Planaria simplissima, a new species. Gustav Fischer 1900. First separate edition. Offprint. Original wrappers. Depart of zoology university of North Carolina Chapel Hill stamp. With Compliments of the author, W. Curtis stamp. Originally published by Dr. J.W. Spengel in Gissen Signed by author. \$50

41) Dr. Uhlenhuth and Dr. Mulzer. Deutschen medizinischen Wochenschrift. Georg Thieme 1911. First separate edition. Offprint. Original wrappers. Edited by Dr. J. Schwalbe. \$80

42) J. H. Powers. The Forms of Volvox. Transactions of the American Microscopical Society Vol. XXVII 1907. First separate edition. Offprint. Original wrappers. Studies from the Zoological Laboratory. The University of Nebraska. Presented by Dr. C. Dale Beers stamp on front cover. Zoology dept library University of n. C. Chapel Hill stamp front cover. \$50

43) R. G. Eccles. The Scope of Disease. William Wood & Company 1913. First separate edition. Offprint. Original wrappers. Compliments of the author stamp front cover. Orland E. White Stamp front cover. The Blandy Experimental Farm stamp front cover. Reprinted form the Medical record 1913. \$50

44) R. G. Eccles. Disease and Genetics. William Wood & Company 1913. First separate edition. Offprint. Original wrappers. Compliments of the author stamp front cover. The Blandy Experimental Farm stamp front

cover. Reprinted from the Medical Record 1913. \$50

45) R. G. Eccles. Disease and Genetics. William Wood & Company 1913. First separate edition. Offprint. Original wrappers. Orland E. White Stamp front cover. The Blandy Experimental Farm stamp front cover. Reprinted from the Medical Record 1913. \$50

46) J. De Meyer. Observations et Experiences relatives a l'action exercee par des extraits d'ceuts et d'autres substances sur les spermatozides. Vander stricht et A. Brachet. Tome XXVI 1911. First separate edition. Offprint. Original wrappers. Edm. B. Wilson stamp front cover. Liege imprimerie H. Vaillant-carmanne. Societe anonyme. \$80

47) Charles B. Davenport. Notes on Physical Anthropology of Australian Aborigines and Black-White Hybrids. Carnegie Institution of Washington 1925. First separate edition. Offprint. Original wrappers. Reprint from American Journal of Physical Anthropology 1925. \$80

48) Harry H. Love. Are Fluctuations Inherited? Paper No. 6, Department of Plant-Breeding Cornell University 1910. First separate edition. Offprint. Original wrappers. Jamaica Plain Boston, Mass stamp front cover. Karl Sax Biological lab stamp front cover. Reprinted from the American Naturalist Vol. 44 1910. \$45

49) William Seifriz. Viscosity Values of Protoplasm as Determined by Microdissection. The Botanical Gazette Vol. LXX 1920, No. 5. First separate edition. Offprint. Original wrappers.

50) W. E Castle. On Sex-Chromosomes in Hermaphroditism. American Naturalist Vol. XLV 1911. First separate edition. Offprint. Original wrappers. J. T. Baldwin Stamp Front cover. \$100

51) Charles W. Metz. Chromosome studies in the Diptera: A Preliminary Survey of Five Different Types of Chromosome Groups in the Genus Drosophila. The Journal of Experimental Zoology Vol, 17, No. 1 1914. First separate edition. Offprint. Original wrappers. O. A. Johannsen Stamp front cover. \$40

52) E. W. Seyster. Eye Facet Number as Influenced by Temperature in the Bar-Eyed mutant of Drosophila Melanogaster (Ampelophila). Biological Bulletin Vol. XXXVII. No. 3, 1919. First separate edition. Offprint. Original wrappers. Department of zoology University of North Carolina Chapel Hill stamp front cover. \$45

- 53) L. H. MacDaniels. The Histology of the Phloem in Certain Woody Angiosperms. American Journal of Botany, 1918. First separate edition. Offprint. Original wrappers. With complements of the Author front cover. Signed by author in ink. \$45
- 54) J. Arthur Harris. On differential Mortality with Respect to Seed Weight Occurring in Field Cultures of Phaseolus Vulgaris. American Naturalist 1912. First separate edition. Offprint. Original wrappers. Karl Sax stamp front cover. E. M. East Bussey Institution stamp front cover. Inscribed with regards from the author front cover. \$50
- 55) Ralph S. Lillie. The Nature of Organizing Action. American Journal of Botany, Vol. LXXII 1938. First separate edition. Offprint. Original wrappers. With regards from author inscribed on front cover. John Hopkins stamp on front cover. H. S. Jennings Stamp front cover. \$50
- 56) J. Arthur Harris. On the Correlation Between Somatic characters and Fertility. II. American Journal of Botany, 1914. First separate edition. Offprint. Original wrappers. J. T. Baldwin Stamp front cover. \$40
- 57) J. Arthur Harris. Current Progress in the Study of Natural Selection. Popular Science Monthly 1914. First separate edition. Offprint. Original wrappers. \$80
- 58) J. Arthur Harris and Ross Aiken Gortner. Researches on the Physico-Chemical Properties of Vegetable Saps. Biochemical Bulletin Vol. III, No. 10, 1914. First separate edition. Offprint. Original wrappers. \$80
- 59) J. Arthur Harris. A simple Demonstration of the action of Natural Selection. Science, N.S., vol. XXXVI, No. 934 1912. First separate edition. Offprint. Original wrappers. J. T. Baldwin stamp on cover. \$45
- 60) J. Arthur Harris. On the Relationship Between the Number of Ovules Formed and the Number of Seeds Developing in Cercis. Bulletin of the Torrey Botanical Club 1914. First separate edition. Offprint. Original wrappers. \$35
- 61) H. K. Hayes and E. M. East. Improvement in Corn. Agricultural Experiment station Bulletin 168, 1911. First separate edition. Offprint. Original wrappers. Karl sax stamp on front cover. E. M East stamp on front cover. Edgar Anderson inscribed on front cover.
- 62) Ernst Lehmann. Variabilitat and Blütenmorphologie. Georg Thieme 1918. First separate

edition. Offprint. Original wrappers. \$40

63) Ernst Lehmann. Art, reine Linie, isogene Einheit. Georg Thieme 1914. First separate edition. Offprint. Original wrappers. \$40

64) Ernst Lehmann. Experimentelle Untersuchungen Uber Artbastardierungen. Gustav Fischer 1912. First separate edition. Offprint. Original wrappers. inscribed with regards from the author. \$50

65) Ernst Lehmann. Mendel'sche Spaltung und chemisches Gleichgewicht. Georg Thieme 1920. First separate edition. Offprint. Original wrappers. \$50

66) G. H. Parker. Human Inheritance From a Biological Standpoint. Harvard Alumni Bulletin 1923. First separate edition. Offprint. Original wrappers. \$80

67) D.H. Scott. The Present Position of Paleozoic Botany. Washington Government Printing Office 1908. First separate edition. Offprint. Original wrappers. Reprinted from the Smithsonian Report for 1907. Orland E. White stamp on front cover. The Blandy experiment farm stamp front cover. \$80

68) G. H. Parker. The Mesenteries and Siphonoglyphs in Metridium Marginatum Milne-Edwards. Musseum of Comparative Zoology Col. XXX, No. 5 1897. First separate edition. Offprint. Original wrappers. Department of Zoology University of North Carolina Chapel Hill NC stamp front cover. \$50

69) (1) A. H. Sturtevant. (2) Warren P. Spencer. (3) J. T. Patterson and Marshall R. Wheeler. (1) The Classification of the Genus Drosophila with Description of Nine New Species. (2) New Species in the Quinaria Group of the Subgenus Drosophila. (3) Description of New Species of the Subgenera Hirtodrosophila and Drosophila. University of Texas Publication 1942. Minor creasing, used book, still very good. Sevall Wright's signature in ink on front cover. \$175

70) J. T. Patterson. Studies In the Genetics of Drosophila. (II) Gene Variation and evolution. University of Texas Publication 1942. Minor creasing, used book, still very good. Engraved with Property of J. H Quisenberry on front cover. \$100

71) J. T. Patterson. Studies in the genetics of Drosophila. (V) Isolating Mechanisms. University of Texas Publication 1947. Minor creasing, used book, still very good. \$100

72) J. T. Patterson. Studies in the genetics of Drosophila. (VI) Articles on Genetics, Cytology and

Taxonomy. University of Texas Publication 1949. Minor creasing, used book, still very good. Dr. E. N. Harvey stamp on front cover. \$100

73) J. T. Patterson. Studies in the genetics of Drosophila. University of Texas Publication 1940. Minor creasing, used book, still very good. Department of Zoology stamp on front cover. \$100
