

Flash Freeze Your Way to New Terrain

The *Anti-Griddle*™ is a traditional cook top with an amazing twist: instead of heating, the device quickly freezes sauces, purees, vinaigrettes, crèmes, foams, fruits or any type of food! Inspired by Chef Grant Achatz at Alinea Restaurant in Chicago, this unique innovation opens a new dimension for your creativity.

Develop solid or semi-frozen creations with stable, crunchy surfaces and cool, creamy centers. The tantalizing dual-textures create a surprising and unique experience in restaurants.

On buffets and at catering events, the *Anti-Griddle*™ always attracts diners when preparing a frozen appetizer or dessert right in front of their eyes. Let your culinary imagination run wild!

Brought to you by Breville | Commercial, bringing you great design and unparalleled precision to the culinary world.
