15 NE Hancock St Portland OR 97212

Pro Tip:

Store a CO2 cartridge upside-down in the Tap Handle.

To Check Tire Pressure:

1. Twist Tap Handle **CLOCKWISE** to close the CO2 valve.

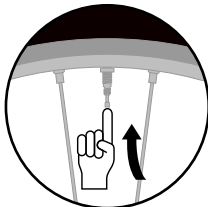

For **SCHRADER VALVES**  skip to Step 4

2. **FOR PRESTA VALVES**  **ONLY:**

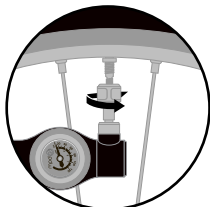

Turn nozzle **CLOCKWISE** until you are able to pull it out.

3. Open Presta valve and tap valve once to release a burst of air and unstick valve.

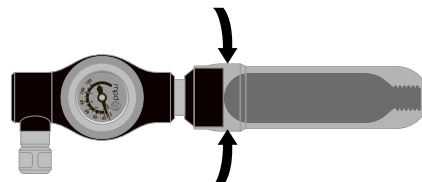

4. Thread nozzle onto valve.

5. Read the gauge to determine pressure.

To Use CO2 Inflater:

1. Squeeze the two plastic tabs to separate Tap Handle from the BARkeep™.

2. Thread 16g CO2 cartridge **CLOCKWISE** onto BARkeep™ until it's punctured.

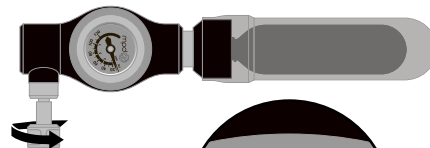

3. Re-attach the Tap Handle to the BARkeep™.

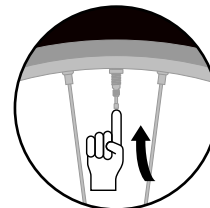

For **SCHRADER VALVES**  skip to Step 6

4. **FOR PRESTA VALVES**  **ONLY:**

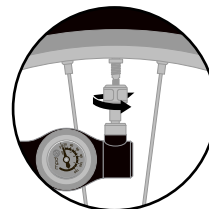

Turn nozzle **CLOCKWISE** until you are able to pull it out.

5. Open Presta valve and tap valve once to release a burst of air and unstick valve.

6. Thread nozzle onto valve.

7. Twist Tap Handle **COUNTERCLOCKWISE** to release CO2. Twist clockwise to stop.

8. When you are finished, twist Tap Handle **CLOCKWISE** to close the flow of CO2 and unthread nozzle from the tire valve.
