

- 1 Slide in all four shims for 25.4/26.0mm diameter handlebars. Do not use any shims for 31.8mm diameter handlebars.
- 2 Optional stem bracket can be mounted between handlebar brackets to prevent rotation.

• Tighten to 4.0 Nm

- 12lb/5.4kg max load
- Do not ride with anything dangling from basket near front wheel. This could cause you to crash.
