

F-machine^{pro}

The F-Machine Pro is our flagship machine. It has been designed and engineered in the UK by our trio of experienced engineers who have been perfecting this product over the past 4 years. So whether it's for a good girl or naughty boy, single, married, gay, bi, straight or someone just curious, the F-Machine can cater for everyone!

The F-Machine has many exciting and unique features which set it way above any other sex machine on the market. Out of the box it's compatible with Doc Johnson Vac-U-Loc products, which means there is already a huge variety of available attachments to suit any need.

Key Features

- Made from the finest aircraft grade aluminium alloy.
- Powerful industrial spec 60 Watt high torque motor with state-of-the-art power electronics.
- Soft-start technology for safe motor speed control.
- Hand held speed controller from 0-240 rpm.
- Quick change (1-6") thrust depth and adjustable thrust rod length
- Virtually silent industrial spec slider mechanism with protective Perspex slider guard.
- Fully adjustable leg heights to accommodate a large range of thrust angles.
- Switchable power supply for choice of 110V or 240V mains supply.
- Finely detailed laser etched logos.
