ORIGINAL KNOT TYER

Premium Knot Tying Tool for Small Fish

**EASILY & QUICKLY
TIE A VARIETY OF FISHING
KNOTS & SPLICES**

The TIE-FAST Knot Tier is the ultimate “nail” knot tool. Made of one piece stainless steel, this tool enables anglers to tie secure knots in a matter of seconds. It can be used to tie a number of different varieties of the “nail” knot. Unlike other knots that have only one turn holding their ends, the “nail” knot cannot become untied because the tag end of the line is secured by all turns of the knot.

magnum[mag-nuhm] = unusually great in power and size

A larger version of The Original, The TIE-FAST Magnum Splice tool is the perfect tool to join two different types of line material together.

The TIE-FAST line splice is easy, streamlined and stronger than most other splices. The Magnum Splice Tool accommodates heavy lines and even steel leaders. This is a true tackle box essential.

Jay Fair's Eagle Fly Fishing Company began over 65 years ago.

An avid sportsman, Jay developed a three dimensional dyeing process that became his signature, producing feathers that are not only the correct color, but appear natural. The master dyers at Boomerang Tool Company continue this long tradition with his original color formulas and processes.

Three Dimensional **DYED MARABOU**

Jay Fair's Premium Marabou is strictly the best grade of turkey marabou on the market today. Of all the different feathers used by fly tiers, the marabou feather is one of the most unique and useful. This marabou can be used in many ways, from gnarly-looking bodies to fluffy wings or impressive undulating tails.
