

## Long Way Down

Tremble with desire  
echoes in my head  
sea of black below  
it pulls me higher  
takes me to the edge  
where the Ghosts Grab ahold  
and I let go

Devil Take my hand  
It's a long way down  
It's a long way down  
Looking for a friend  
and you're the closest thing  
I've Found  
It's a long way down

Clawing through the shadows  
haunts me in my sleep  
It follows me  
every night the same dream  
when I open up my eyes  
I am still falling

Devil Take my hand  
It's a long way down  
It's a long way down  
Looking for a friend  
and you're the closest thing  
I've Found  
It's a long way down
