

DON'T LET BIRDS DO THEIR BUSINESS ON YOUR
BUSINESS WITH

GUTTER & SOLAR PANEL BIRD SPIKES

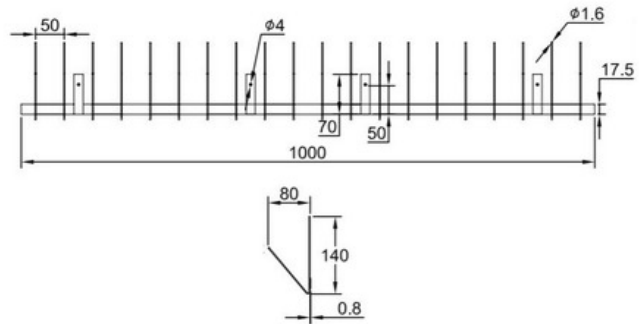

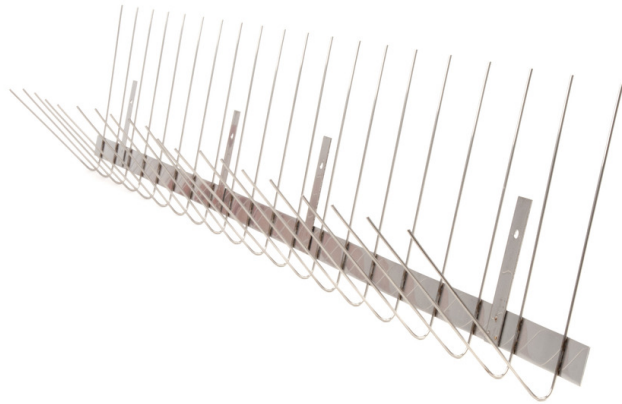

PRODUCT RANGE 2019/2020

ANTI BIRD SPIKES

STAINLESS STEEL GUTTER SPIKES

SBBS-G

SPECIFICATIONS

Material: 304 stainless steel spikes & base

Warranty: 15 years

Wire Diameter: 1.6mm

Height of spike: 140mm

Spike span (tip to tip): 80mm

Spike Quantity Per Strip: 40 spikes

Protection Width: Up to 120mm

Base Size: 1000mm(L) x 17.5mm(W) x 0.8mm(H)

Bird Species - Pigeons, starlings, mynas, sparrows

Infestation - From light to heavily infested areas.

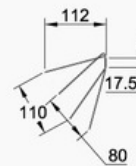

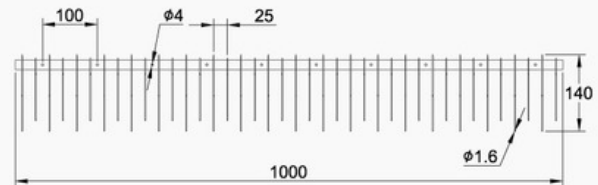

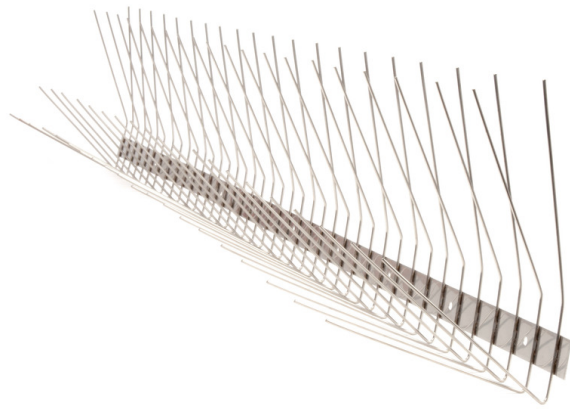

Situation - Ideal for gutters on houses and commercial buildings to prevent birds from perching on and accessing gutter.

Installation - Place the spikes inside the gutter with the universal clip against the lip. Fold clip over gutter lip with pliers.

Optional: Rivet or screw the clips against the gutter through the pre-stamped holes

STAINLESS STEEL SOLAR PANEL BIRD SPIKES

SBBS-SP

SPECIFICATIONS

Material: 304 stainless steel spikes & base

Warranty: 15 years

Wire Diameter: 1.6mm

Height of spike: 140mm

Spike span (tip to tip): 120mm

Spike Quantity Per Strip: 80 spikes

Protection Width: Up to 200mm

Base Size: 1000mm(L) x 17.5mm(W) x 0.8m(H)

Bird Species - Pigeons, starlings, mynas, sparrows

Situation - Ideal for solar panels on houses and commercial buildings to prevent perching on upper panel framework and nesting under panels.

Installation - Option 1: Place the spikes on top side of upper panel frame so the spikes point upwards. Use silicon adhesive to fix spikes. Option 2: Place spikes on side of panel framework so that spikes point downwards. Use silicon adhesive of solar panel clips to fix.
