

RC 200 INSTRUCTIONS:

Your RC 200 will arrive as fully assembled kit ready to install.

Simply use the sticky tape to attach both magnet and switch to the surface desired (screws would be advisable for the switch (the switch is the component with wires attached) , mount the chime box where desired and plug in the power supply and you are ready to use.

The volume control is on the front of the chime box with the tone selector on the right side of the box

Should there be any questions please do not hesitate to call us @ 8006414111
