PRODUCT SPECS & FEATURES

MINIMALISTIC TACTICAL DESIGN & CONSTRUCTION

- Straps only is less body area coverage, better airflow and less overheating.
- Versatile and practical for all activities training, swimming, k9 sports or work duty.
- Allows free movement with no interference with dogs legs or motion.
- No plastic. Extra safety, extreme durability, non-chewable and no cracking.

D-RING

- Solid stainless steel.
- Located at rear so control is distributed throughout entire harness for improved control.
- D Ring positioned to control entire dog from center of balance (not just shoulders and chest where most pulling force is concentrated).

"O" RINGS

allows front straps to pivot widen or narrow to contour & fit any dog body type.

WEBBING

- Premium grade mil-spec webbing.
- Ultra durable and comfortable.
- Tolerates all conditions, heat and saltwater resistant.
- Double ply for extra strength - Easy to clean & maintain.

STAINLESS STEEL ROLLER BUCKLES

- Stainless steel - High strength, non rust.
- Tamper & fail proof in all conditions - Safe, strong, secure non chewable.
- No clicking mechanism.

STITCHING

- Industrial grade machine stitched.
- Heavy duty thread & reinforced stitched joins.

FULLY ADJUSTABLE

- Harness can be adjusted in width and length to suit any dog body form.
- All four straps are easily adjustable for a perfect fit and allowance for sizing up or down as required.
