overweight dogs

**INCREASING
MUSCLE TONE**
and development
for health or
rehabilitation
purposes

Improving
**CARDIOVASCULAR
HEALTH**

Help relieve
**ANXIETY &
STRESS**

IMPORTANT

- The Weighted Vest should NOT be used on puppies.
- For large dogs under 2 years of age weight vests should not be fully loaded. Large dogs usually reach maturity between 18 - 24 months. Overloading/over working them may have adverse effects on their joints and structure during the development stage. Start with 2 weight ingots and increase slowly over time as per the dogs capacity.
- Weighted vest activity must always be supervised
- Weighted vest conditioning must be increased gradually. Increase by 2 ingots per period .
- Do NOT overload the weight vest
- Working your dog in excessive heat or extreme temperatures is not recommended and can be fatal.

THE FUTURE OF
CANINE
FITNESS

JACKET

Strong yet supple material jacket shell to hold weight ingots. Jacket has fully lined internal for comfort. Designed to contour and fit to your dog shape and size.

GET THE PERFECT FIT

Overlapping chest flaps for bracing and firm snug hold to reduce jacket movement.

FULLY ADJUSTABLE

Adjustable front strap with double pin buckle for secure fit. Velcro front flaps for lined comfort and extra snug fitting for high activity.

Velcro torso overlap flaps for **wide firm** hold across underbelly to prevent vest flapping.

NIGHT SAFETY

Reflective border for night visibility.

250 GRAM WEIGHT INGOT

Horizontal side sleeves to hold multiple ingots per row. Ingots held tight and snug to avoid weights flapping and hitting dogs ribs.

EXTRA HOLD

Double torso straps for extra snug hold during high activity.

Available in 4 sizes:

S · M · L · XL

BASIC INSTRUCTIONS FOR USE

- 1.** Dogs should be over 12 months prior to using a weight vest. For large breeds 15 months as a general rule and even so light loading of ingots only 2 or 4.
- 2.** Fit vest and ensure all straps are connected and the vest is fitted to your dogs contour. It should not slide or move around.
- 3.** If your dog is unfamiliar with wearing the vest its recommended you fit the vest with-out the weights and reward your dog. Remove the vest and repeat as often as possible to create a positive connection with the vest. If needed engage a dog trainer or behaviourist to assist.
- 4.** Load weight ingots into vest. Ingots must be loaded evenly per side.
- 5.** Commence with slow walks for one week and build up to more intensive activities after one week.
- 6.** Do not use on extremely hot days and always monitor your dog whilst wearing the vest
- 7.** Increase weight load by two ingots at a time. Your dog should move freely and comfortably with increased loading. Build up over time ensuring your dog can handle the weight without stress or burden.

AFTER CARE & MAINTENANCE

The Rogue Royalty Weight is a premium quality fitness aid that will provide years of use. To ensure your vest is kept in premium condition follow these useful care tips.

KEEP IN A COOL DRY PLACE

REMOVE INGOTS WASHING OR HANGING IN STORAGE
