

# Immune Support

## Dietary Supplement

Containing a combination of 25 different all natural vitamins and herbs, Immune Support by ChiroNutraceutical™ is a safe dietary supplement that provides the exact nutrients your body requires for a strong healthy immune system. It is the most complete immune strengthening formula available.

### **Beta-Glucan - 100mg**

There have been over 1,000 research papers on Beta 1,3-D Glucan since the 1960's. Research backed by prestigious institutions such as the U.S. Food and Drug Administration, Harvard, Tulane, Baylor, McGill, University of California, Duke, Washington, Armed Forces Radiology Research Institute, and other institutions all demonstrate the high immune activating properties of Beta Glucan.

### **ARA-6 (arabinogalactan) 20 mg**

Arabinogalactan is a fermentable fiber found in high concentrations in North American larch trees. It is also the active constituent of Echinacea. ARA-6 has demonstrated the ability to activate immune cells involved with the body's first line of defense and to promote cytokine production, the communication and signaling pathway of immune cells. Research conducted at the University of Minnesota revealed that ARA-6 stimulated immune cells with a higher capacity than Echinacea.

### **Pine Bark (95% extract) 100mg**

Extracts from the bark of the Maritime Pine (*Pinus Maritima*) contain Proanthocyanidins (also referred to as Procyanidins) one of the most beneficial groups of flavonoids, which are powerful antioxidants and immune boosters.

### **Quercetin - 50mg**

Quercetin is a natural occurring bioflavonoid found in high concentrations in red wine, onions and green tea. Quercetin possesses powerful antioxidant properties and like other bioflavonoids, has the ability to stabilize cell membranes. These qualities contribute to Quercetin's ability to support healthy histamine levels and balanced immune function.

### **Green Tea Extract - 200mg**

A new study, published online in the journal Proceedings of the National Academy of Sciences, reveals how substances found in tea may help prime the body's immune system to fight off infection. Another report shows how substances in green tea may be linked to cell rejuvenation and protection from several types of cancer.

### **Mushroom Complex - 60mg**

Shiitake, Maitake and Reishi mushrooms are regarded as potent immune system boosters and protectors against cancer. Scientific research has focused on the impressive immune-enhancing and anti-cancer effects of these mushrooms.

### **Lycopene - 2mg**

Lycopene is a powerful antioxidant that may lower the risk of certain cancers, especially prostate cancer. Researchers at the Mayo Clinic, Cornell University and the Harvard University School of Public health have linked lycopene to good health and improved immune response.

### **Korean Ginseng - 20mg**

Ginseng has been revered in the Orient for centuries as a traditional herb to promote wellness and vitality. Ginseng is most beneficial in reducing stress among individuals leading an active and demanding life style. As you know high levels of stress compromise your immune system.

### **Pomegranate (40% ellagic acid extract) - 50mg**

Several studies show that pomegranate seeds enhance immune function. Additionally pomegranate contains strong antioxidant properties that help to protect blood lipids from oxidation and prevent plaque buildup in your arteries.

### **Red Raspberry Extract - 200mg**

Research at the Hollins Cancer Institute has demonstrated ellagic acid derived from raspberry extract inhibits the growth of tumors. Ellagic acid is a proven anti-carcinogen, anti-mutagen, and anti-cancer initiator. Additionally, it is an overall potent immune system strengthener.

### **Vitamin C (ascorbic acid) - 30mg**

Vitamin C is one of the body's most important antioxidants. It is the first line of antioxidant protection in the body. As an antioxidant, Vitamin C is showing promise in the prevention of diseases associated with oxidative damage, such as Heart Disease, cancer, Alzheimer's disease, Parkinson's disease and other health problems.

### **Vitamin E (dl-Alpha toko.) - 30 IU**

Vitamin E is a powerful antioxidant and an essential nutrient crucial for good health. When taken as recommended, Vitamin E offers a variety of health benefits, including the ability to maintain cardiovascular health and immune function. It also provides powerful antioxidant support, and supports prostate health.

### **Cat's Claw (powder) - 20mg**

Recent Scientific research on Cat's Claw has focused on the effects of various pentacyclic alkaloids and other constituents on the immune system and immune system related conditions. It has been reported to have been used to help fight AIDS and HIV infection, asthma and hay fever, cancer, common cold and enhance low immunity.

### **Garlic (powder) - 20mg**

Garlic is a remarkable food source with an incredible spectrum of activity against bacteria, fungal infections, and viruses. According to chemist Peter Josling, Director of the Garlic Center in Sussex, England and author of the book, "Allicin: The Heart of Garlic. "Garlic supplements can be used to combat infections naturally"

### **Essiac™ Tea Complex (Consisting of Indian Rhubarb, Burdock Powder, Sheep Sorrel Powder and Slippery Elm Powder) 100mg**

Each of these herbs has been reported to help clean the immune system and assist in improved function.

### **Olive Leaf Extract - 50mg**

Olive Leaf Extract is an extraordinary 100% natural herbal antibacterial, antiviral extract. It is obtained from specific parts of the olive tree (*Olea europaea*). This new proprietary phytochemical extract is not only safe, but is also a nontoxic immune system builder. Olive Leaf Extract has been clinically tested where results demonstrated considerable therapeutic action against many common and chronic conditions.
