

Nitric Boost

by ChiroNutraceutical

Nitric Boost by ChiroNutraceutical™ is a revolutionary dual-focused dietary supplement formulated specifically to support increased blood flow and healing. Unlike lesser-quality nitric oxide supplements that only provide exogenous nitrates, Nitric Boost by ChiroNutraceutical uses S7®, which has been clinically proven to increase the body's own production of nitric oxide.

Why It's Important: Nitric oxide acts as a vasodilator that signals the blood vessels to relax, resulting in increased blood flow. This increased blood flow allows for more oxygen and other key nutrients to be delivered to the body's various tissues. Unfortunately, as we age, the body's production of nitric oxide decreases. This results in reduced blood flow and low oxygenation, which can lead to slower healing. This means that elevating nitric oxide levels can be an important aspect of healing.

Key Ingredients:

S7® Nitric Oxide Booster: S7® is a low-dose blend of seven (7) plant-based ingredients that have been clinically shown to increase nitric oxide (NO) by 230%. It is NOT an ingested nitrate! Instead, it is a soluble, non-GMO, clinically researched plant-based ingredient that stimulates your body to produce its nitric oxide production... the best type!

Beta vulgaris (beet extract): Current data supports the health-promotional properties of Beta vulgaris as a vasodilator and as potential therapeutic treatments for various metabolic disorders, including hypertension, diabetes, insulin resistance, and kidney dysfunction. In human studies to date, beetroot supplementation has been reported to reduce systolic and diastolic blood pressure, inhibit platelet aggregation, improve vascular and endothelial function, reduce blood glucose and improve insulin homeostasis, and possess reno-protective properties. Beetroot contains a high concentration of phytochemicals and essential nutrients and is abundant in inorganic NO₃.

Science has shown that the ingredients in Nitric Boost by ChiroNutraceutical may be beneficial for:

- Healthy blood flow
- Healing
- Hypertension and high blood pressure
- Diabetes
- Insulin resistance
- Kidney dysfunction
