

# Organic Turmeric Curcumin with Black Pepper Fruit

by ChiroNutraceutical

**Organic Turmeric Curcumin With Black Pepper Fruit by ChiroNutraceutical™ is certified organic and has been specifically formulated to include key ingredients that have been shown to have beneficial anti-inflammatory and anti-oxidant properties, as well as, help boost and aid in the regeneration of brain and nerve cells.**

The active ingredients are called curcuminoids. The most important one is Curcumin.

## Key Ingredients:

**Certified Organic Turmeric Curcumin:** Curcumin has received worldwide attention for its multiple health benefits, which appear to act primarily through its anti-oxidant and anti-inflammatory mechanisms. These benefits are best achieved when curcumin is combined with agents such as piperine (found in black pepper fruit), which increases its bioavailability significantly. Research suggests that curcumin can help in the management of oxidative and inflammatory conditions, metabolic syndrome, arthritis, anxiety, and hyperlipidemia. It may also help in the management of exercise-induced inflammation and muscle soreness, thus enhancing recovery and subsequent performance in active people. In addition, a relatively low dose can provide health benefits for people that do not have diagnosed health conditions.

**Certified Organic Black Pepper Fruit (COBPF):** In order to experience the full effects of curcumin, its bioavailability (the rate at which your body absorbs a substance) needs to be improved. This is why we included COBPF. The key compound in COBPF (piperine) enhances the absorption of curcumin by 2,000% and helps ensure that you receive the maximum benefit of the supplement.

Science has shown that the ingredients in Certified Organic Turmeric Curcumin may be beneficial for:

- Neuropathy
- Arthritis
- Inflammation
- Metabolic syndrome
- Hyperlipidemia
- Anxiety
