

# Ultra-Vite

by ChiroNutraceutical

## UltraVite is:

- A Whole Food Based, High Potency, Multi-Vitamin & Chelated Mineral Complex
- Formulated so Individuals with MTHFR Can Benefit
- Easy To Swallow & Prolonged Release
- Sugar & Starch Free
- Truth In Labeling

## Why Take Ultra-Vite?

For the body to function properly, it is important that you provide it with the right amount of vitamins, minerals, and nutrients. It is well known that approximately thirteen vitamins are “essential” for the human body to function correctly. Without these essential nutrients, your body will likely suffer in one way or another. Vitamin and mineral deficiencies play a significant role in many health problems and diseases.

Additionally, scientific breakthroughs have discovered that certain conditions, such as MTHFR, prevent some people from breaking down and utilizing certain nutrients. Sadly, most nutritional supplements are not formulated to address these challenges. This means that even though you are taking them, they are not doing any good and may even become toxic in some cases.

Ultra-Vite has been formulated to address these challenges!

## Why Is The Quality Of Ultra-Vite So Important?

Designed by doctors, Ultra-Vite was explicitly designed to provide you with a high-potency and easy-to-swallow comprehensive multivitamin, chelated multimineral, and health-promoting nutrients formula. As an added benefit, it includes patented ingredients to enhance bioavailability for individuals with digestive challenges and MTHFR. This is accomplished by including 5-MTHF, TRAACS™ chelated minerals, inositol, bioflavonoids, rutin, hesperidin, Betaine HCL, and glutamic acid.

## With Supplements, You Get What You Pay For!

When it comes to nutrition, you really do get what you pay for! Most inferior quality supplements use ingredients with little to no bioavailability or worse yet, don't even include what is shown on the label. The result is that if you are purchasing cheaply produced supplements, you will likely not reap much if any health benefits and are wasting your money!

## The Ultra-Vite and ChiroNutraceutical Difference

Like all ChiroNutraceutical supplements, Ultra-Vite is “Pharma-Made.” This means you can have certainty that you are getting EXACTLY what you pay for and taking EXACTLY what is on the label. This is possible because the manufacturing processes applied to Ultra-Vite are on par with those used to manufacture pharmaceutical products. This ensures purity, potency, and content of ingredients and provides peace of mind for individuals consuming ChiroNutraceutical supplements.

These processes include, but are not limited to 1) raw ingredients are quarantined and tested for possible contamination (if contaminated they are disposed of and not used), 2) testing potency of the individual components, 3) manufactured following all FDA Current Good Manufacturing Practices (cGMP), 4) post-manufacturing quality control (QC) and quality analysis (QC) to ensure the quantity of ingredients, potency, and any potential contamination (once again, if contaminated, the entire manufacturing run is discarded).
