

1/8" NPT

Crimp wires to sensor plug terminals

Insert into Existing Brown (C) GaugePilot connector

Insert into Existing Black (A) GaugePilot connector

GP-S05 consists of 150PSI AEM sensor, sensor plug & terminals, and 3 x 3m of labelled & colour-coded wire with pre-crimped Molex terminals.

IMPORTANT: The sensor plug wires must be threaded through the plug PRIOR to crimping as the terminals are loaded into the connector from the front.

See the Molex document in our resources area on www.gaugepilot.uk for how to insert terminals into the GaugePilot Black and Brown connectors.

GaugePilot Loom Connector/Pin	Pressure Sensor Signal
Brown (C) position 5	5V
Brown (C) position 4	Ground
Black (A) position 14	Signal
