Planet Light®

Natural Spectrum® Floor Lamp

Model: PL04

READ THESE IMPORTANT SAFEGUARDS AND ALL INSTRUCTIONS BEFORE OPERATING THIS PRODUCT.

⚠ DANGER:

- To avoid electrocution, do not operate this lamp near water.

⚠ WARNING:

- Do not use with power supply voltage other than 120 VAC.
- Do not defeat the safety purpose of the polarized plug. A polarized plug has two blades with one wider than the other. The wider blade is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- To prevent risk of shock or personal injury when cleaning this lamp, make sure you have turned it off and unplugged. Allow sufficient time for the bulb to cool.
- Do not operate lamp in close proximity to flammable or combustible vapors, such as aerosol spray products, or where oxygen is being administered.
- Do not cut or shorten the power cord.
- **Choking Hazard:** This lamp contains small parts. Close supervision is recommended when this lamp is used by or near children.
- This bulb contains a trace amount of mercury. For more information on clean-up and disposal see www.epa.gov/cfl.
- This product contains a chemical known to the State of California to cause birth defects and other reproductive harm.
- Some people may experience light sensitivity to fluorescent lighting. Discontinue use if you experience any discomfort.
- Never cover the lamp or place anything on top of it when it is in operation.

Important Safeguards — continued

▲ CAUTION:

- For indoor use only.
- Always unplug the lamp and allow sufficient time for the bulb to cool before performing bulb replacement or installation.
- This lamp is not for use with light dimmers, timers, motion detectors, voltage transformers or extension cords.
- This product may cause interference with radios, cordless telephones or devices that use a wireless remote control, such as televisions. If interference occurs, move the product away from the device, plug the product or device into a different outlet or move the lamp out of the line of sight of the remote control receiver.
- If this lamp has been damaged in any way, for example, the power supply cord or plug has been damaged, liquid has been spilled or objects have fallen onto the lamp, the lamp has been exposed to rain or moisture, the lamp does not operate normally or has been dropped, it should not be operated.
- Do not dismantle. There are no user serviceable parts in this lamp.
- Unplug lamp during lightning storms or when unused for extended periods of time.
- Use only the type of bulb and maximum wattage indicated by Verilux.
- Protect the power cord from being walked on or pinched, particularly at the plugs, convenience receptacles and the point where the power cord exits the lamp.
- Avoid placing the lamp in areas that are dusty, humid/moist, lack ventilation or are subject to constant vibration.
- Avoid placing this lamp in areas that are exposed to direct sunlight or close to heat radiating products such as heaters.
- After cleaning the lamp, all moisture should be properly wiped away and dried before restoring power.
- Do NOT use lubricating agent in assembly; please see page four of this manual if you are having difficulty assembling your lamp.

SAVE THESE INSTRUCTIONS

Unpacking Your Lamp

1. Remove all pieces from box. Locate the two Phillips head screws.
2. Detach the red plastic protective pieces and store them in the event you need to return the lamp.
3. **Important:** To avoid scratching the shaft, do not use a sharp object to cut the plastic covering. The clear plastic covering on the shaft is specially designed to tear away easily.

IMPORTANT NOTE:

Remove red plastic protective pieces prior to assembly.

Set-up Instructions

To prevent damage during shipping, the Verilux® Planet Light is surrounded by protective padding. Carefully remove and dispose of the protective padding. Check to ensure that the bulb is fully seated and has not come loose from the socket during shipping. There should be no gap between the bulb and socket.

Assembly Instructions

Read Instructions Carefully Before Assembly:

1. Connect the two ends of the **Power Cord (between the Base and the Shaft)** using the lock connectors.
2. Carefully tuck excess **Power Cord** into the **Shaft**. **DO NOT CUT OR SHORTEN THE POWER CORD.**
3. Insert the **Gooseneck** and the **Shaft** into the **Base**.
4. Check direction of the lamp and the hole on the **Base**, then use a Phillips Head Screwdriver (not included) to tighten the screw into the hole.

Fig. 1

CAUTION: Be very careful not to pinch any part of the cord between any metal pieces.

Bulb Replacement Instructions

Installation

1. Unplug the lamp from power source.
2. Firmly hold the base (B) and push bulb (C) into the socket (A).
3. Be sure the bulb is firmly seated in the socket (see below) and snapped into the metal bulb clip (D).

Removal

1. Unplug the lamp from the power source.
2. Firmly hold the bulb base (B) and pull the bulb (C) from the socket (A) in an outward motion.

YES

Correctly seated bulb

NO

Incorrectly seated bulb

⚠ CAUTION:

Always unplug the lamp and allow sufficient time for the bulb to cool before performing bulb replacement or installation.

⚠ WARNING: This bulb contains a trace amount of mercury. For more information on clean-up and disposal see www.epa.gov/cfl.

For more information, to order, or to find a retailer near you, visit us at www.verilux.com or call 1-800-786-6850.

Troubleshooting

Before requesting service on your Verilux® Planet Light lamp, please:

- Make sure all power connectors, cords and plugs are inserted fully and securely.
- Be sure the bulb is securely seated into the socket. (See page 5.)
- Confirm that there is power to the wall outlet, or try another one.

PROBLEM	CHECK	SOLUTION
Light Won't Come On	Has the plug come loose?	Insert plug securely into wall outlet.
	Is the bulb old?	Check bulb for blackening/darkening at bottom of spiral where it joins the base (an indicator of bulb life) and replace bulb.
	Is the bulb connected securely into socket?	Be sure the bulb is securely seated in the socket. Repeat the bulb installation process. ⚠ CAUTION: Always unplug lamp before performing bulb replacement or installation.
Blackening/Darkening at Ends of Bulb	Is the bulb new?	Sometimes when a new bulb is turned on for the first time the tubing will darken, but this will fade after a few minutes.
	Is the bulb old?	With older bulbs, darkening of the tubing indicates end of bulb life. (This doesn't affect operation except to reduce the amount of light available, since the phosphor in that area has become inactive.) Bulb replacement is recommended.
Light Flickers	Has the plug come loose?	Insert plug securely into wall outlet.
	Is the bulb connected securely to the socket?	Be sure the bulb is securely seated into the socket. Repeat the bulb installation process. ⚠ CAUTION: Always unplug lamp before performing bulb replacement or installation.
	Is the lamp connected to a dimmer switch?	Connect plug only to wall outlet without dimmer switch or timer.

Care and Cleaning

Your lamp is made from high-quality materials that will last for many years with minimum care. You may want to periodically clean the lamp using a mild non-abrasive cleaner and soft cloth. When cleaning, make sure you have turned off and unplugged the lamp and allowed sufficient time for it to cool.

⚠ CAUTION: Do not use solvents or cleaners containing abrasives, or ammonia-based cleaners.

⚠ CAUTION: After cleaning the lamp, properly wipe away and dry all moisture before restoring power.

One-Year Limited Warranty

ATTENTION! ONCE OPENED, PLEASE **DO NOT** RETURN THIS PRODUCT TO THE STORE WHERE IT WAS PURCHASED FOR REPAIR OR REPLACEMENT!

Many questions may be answered by visiting www.verilux.com, or you may call our Customer Service Department at 800-786-6850 during EST business hours.

This limited warranty is provided by: Verilux, Inc., 340 Mad River Park, Waitsfield, VT 05673

Verilux warrants this product to be free from defects in material and workmanship for a period of 1 year from the date of the original retail purchase from Verilux or an authorized Verilux distributor. **Proof of purchase is required for all warranty claims.** During the limited warranty period, Verilux Inc., will, at its option, repair or replace defective parts of this product, at no charge to the customer, subject to these limitations: This limited warranty does not include any postage, freight, handling, insurance or delivery fees. This warranty does not cover damage, defect or failure caused by or resulting from accident, external destruction, alteration, modification, abuse, misuse or misapplication of this product.

This warranty does not cover damage to the product resulting from return shipping or handling. Verilux recommends purchasing shipping insurance to protect your investment.

Return Authorization is required for all returns. To obtain a Return Authorization, please contact the Verilux Customer Service Department at 800-786-6850.

If, during the first year of ownership, this product fails to operate properly, it should be returned as specified at www.verilux.com/warrantyreplacement or as instructed by a Verilux customer service representative at 800-786-6850.

Note: *Verilux recommends using a quality surge suppressor on all electronics equipment. Voltage variations and spikes can damage electronic components in any system. A quality suppressor can eliminate the vast majority of failures attributed to surges and may be purchased at electronics stores.*

Due to ongoing improvements, actual product may have slight variations from the one described in this manual.

Natural Spectrum and Productivity

When it comes to maximizing work, study or task time, a Verilux Planet Light lamp is the perfect partner. It uses Natural Spectrum light that replicates key beneficial wavelengths of natural light to help you read faster with greater comprehension, work longer without eyestrain and improve productivity and focus.

Research using Verilux Natural Spectrum light and comparable lighting in school and work settings resulted in significantly greater visual acuity, enhancing student performance and worker productivity when compared to other light sources.

Natural Spectrum light is the result of more than 50 years of research to build lighting that meets the needs of the human eye. At home, college or office, your Verilux lamp is the perfect productivity partner.

Shedding Light on Natural Spectrum®

Verilux Natural Spectrum light illuminates in the broader scotopic range to better stimulate the cones and rods (photoreceptors) of the eye. This enhanced stimulation improves visual performance by reducing the size of the pupil to better focus light, relaxing the eye while increasing visual acuity and processing.
