Natural Spectrum® Flat Panel  
Book Light

**VB04**

Dear Customer,

Thank you for purchasing the Verilux PageLight™ Natural Spectrum® Flat Panel Book Light. You have received an innovative and quality manufactured product, backed by a one-year limited warranty. As a Verilux customer, your satisfaction means everything to us. We look forward to serving you now and in the future.

Many other healthy lighting products are available through our catalog and online. Visit us on the web at [www.Verilux.com](http://www.Verilux.com) to request a free catalog and learn more about all our quality Verilux products, or call our toll-free number 1-800-786-6850.

Have a bright day!

Nicholas Harmon, President, Verilux Inc.

## Warnings and Precautions

When using an electrical appliance, basic safety precautions should always be observed, including:

- Read all instructions before using your PageLight.
- Do not expose this unit to rain or moisture. Do not use near a water source, while bathing, washing hands or otherwise contacting water.
- Not to be used as a toy.
- Use only as described in this manual.
- As with any bright light source, do not stare directly into the light.
- This product contains no user serviceable parts.

### SAVE THESE INSTRUCTIONS

## Features

Put Natural Spectrum® daylight on the page, not in your eyes, with the PageLight™ Natural Spectrum Flat Panel Book Light. Three powerful LED bulbs light the entire specially constructed acrylic panel to illuminate your book or magazine page evenly without disturbing others or irritating your eyes with reflective glare.

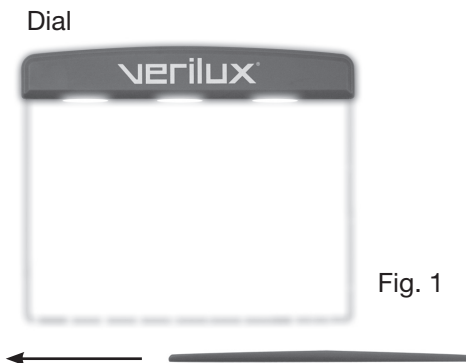

- 3 powerful LED bulbs with exclusive Natural Spectrum daylight illumination.
- Built-in dimmer allows you to adjust the light level to your preference.
- The PageLight serves as page marker when not in use.
- Lasts up to 50 hours on 3-AAA batteries (sold separately).
- 1-year limited warranty.

## SET UP & OPERATION

Prior to initial usage of the PageLight, the Light Blocking Strip needs to be placed on the bottom edge of the lens to ensure that the PageLight is illuminated evenly.

Take the Light Blocking Strip (Fig. 1) and gently guide the clear lens into the groove of the strip. Strip is correctly installed when centered on the bottom of the lens.

To turn the PageLight on, turn the dial on top of the unit until an audible 'click' is heard. Rotate the dial to change the brightness level. Maximum brightness is achieved when dial is rotated farthest from the initial on 'click'. To turn the unit off, reverse this procedure.

## BATTERY INSTALLATION

**Use only AAA batteries in your PageLight.**

1. Remove battery compartment panel at the back of the PageLight (Fig. 2). Take out any dead batteries and dispose of in a proper manner.
2. Following the indications on the inside of the battery compartment, insert 3 AAA batteries into place. Please make sure that the "+" and "-" are facing in the right direction, otherwise PageLight will fail to operate.
3. Once batteries are inserted, replace battery compartment panel.
