

2016 - 2017 REHAB PRODUCTS CATALOG

Rehab Catalog

NDC Supply Chain Partner

NDC's Physical Rehab division represents a leading group of independent physical rehabilitation equipment and supply dealers throughout the United States and Canada. We offer personal, on-site service and technical support to physical therapists, occupational therapists, chiropractors, athletic trainers and other rehabilitation professionals.

NDC, Inc., represents the largest network of independent healthcare distributors in North America, servicing over 1,000 distributors, 400 manufacturers and most GPOs. NDC empowers distributors to serve locally and compete nationally.

We represent the industry's most reputable manufacturers and offer the broadest choice of quality rehabilitative products at competitive prices. We are committed to bringing you the latest technology and keeping you informed of advancements in our industry. We appreciate each of our manufacturing partners and are proud to feature the following in this catalog:

ELECTRODES/SENSORS

Uni-Patch™ C Series (First Choice) Stimulating Electrodes

- Long lasting .040 inch thick hydrogel provides reliable adhesion that conforms well over body contours.
- Quick, moderately aggressive tack offers firm, yet gentle electrode to skin contact for multiple applications.
- Highly conductive carbon film delivers even current distribution.
- Spun lace top coat is flexible and conformable to a variety of application sites.

Uni-Patch™ Starburst Stimulating Electrodes

- Incorporates a highly conductive silver ink printed in a patented gradient starburst pattern on a conductive carbon film base.
- Evenly controls the flow of electrical current over the entire surface of the electrode.
- Features a thick hypoallergenic hydrogel formulated with pure aloe vera gel, known for its hydrating properties and natural moisturizing effects.
- Promotes superior adherence to the skin, even after multiple uses, assuring the patient will receive comfortable treatments throughout the life of the electrode.

IONTOPHORESIS ELECTRODES

Pro Advantage Gentle Stim® Ionto

- Iontophoresis Electrode Treatment Kit.
- Case includes 10 Ionto Treatment Kits and 1 Instruction Manual.
- Each kit includes: 1-Active Drug Delivery Electrode, 1-Buffered Return Electrode and 2-Alcohol Swabs.

	Description
031059	Small Square; 1.5cc Fill; Case of 10
031060	Medium Square; 2.5cc Fill; Case of 10
031061	Large Square; 4.0cc Fill; Case of 10
031062	Butterfly; 2.0cc Fill; Case of 10

logel™ Iontophoresis Electrodes

- logels™ Disposable Electrodes.
- Elliptical Shapes follow the line of the tendon.
- Clear Adhesive allows precise placement on target site.
- Silver- Silver Chloride conducts more efficiently than carbon.
- GelSponge® ensures complete contact between the electrodes and the skin surface.
- 12 treatments per box.

Description	
026509	Small; 1.5 cc Fill; 12/Box
026510	Medium; 2.5 cc Fill; 12/Box
026511	Large; 3.5 cc Fill; 12/Box

TransQ™ Flex Electrodes

- Unique cloverleaf shape offers the conformity, patient comfort, and optimal drug delivery required by therapists.
- Features GelSponge and Silver-Silver Chloride (SSC) Conductive Technology and "EZ Fill" Window.
- Each individually sealed package includes (1) electrode, (1) large dispersive pad and (1) alcohol wipe.

Description	
030083	(12) Electrode Packages/Box

TransQ™ Iontophoresis Electrodes

- No Chemical buffers necessary.
- Improve your drug delivery efficiency.
- Convenient peel-away window provides for easy-fill, no-stick handling.

Description	
026507	Small; 1.5 to 2.0 cc Fill; 12/Box
026508	Medium; 2.5 to 3.0 cc Fill; 12/Box

026509 026510 026511
Features GelSponge® and Silver-Silver Chloride(SSC™) Conductive Technology

030083
Unique cloverleaf shape offers the conformity, patient comfort and optimal drug delivery required by therapists.

026507 026508
Deliver effective results in as few as (3) treatments.

Iomed Optima™

- pH defined electrode adjusts to ideal target to optimize transport.
- pH buffering agent maintains ideal ph.
- Oval shape conforms to a wide variety of treatment sites.
- Adhesive foam stretches and adheres well when under stress.

Description	
030086	Small; 1.5 cc Fill; 12/Box
030087	Medium; 2.0 cc Fill; 12/Box
030088	Large; 3.0 cc Fill; 12/Box

Bio-Dermal™

- Apply pain relieving ingredients to hydrogel pad and place directly on the skin for fast, transdermal pain relief.
- Roll-on application allows the clinician to custom-modify the patient's treatment plan for the most effective pain relief utilizing transdermal hydrogel pads.

Description	
030074	Bio-Dermal™ Hydrogel Kit
030075	(10) 3" x 5" Hydrogel Pads
030076	2 oz Roll-On; 1% Hydrocortisone
030112	Tape Pads
030113	2 oz Roll-On; 4% Lidocaine
030114	2 oz Roll-On; 15% Methyl Salicylate
030313	8 oz Bottle; 1% Hydrocortisone

Lido-Gel™ 4% Topical Lidocaine Hydrogel

Description	
030111	2 oz squeeze top bottle
030311	4 oz squeeze top bottle

030086 030087 030088
Creates uniform current distribution for greater patient comfort while containing the drug from leaking.

030074
030074-030076, 030112-030114, 030313
Kit includes:
(3) 2 oz. roll-top applicator bottles,
(1) ea 1% Hydrocortisone, 4% Lidocaine and 15% Methyl Salicylate;
(10) 3" x 5" hydrogel pads,
(1) 4" x 6" adhesive hydrogel coverings and instructions.

030111
030111, 030311 A non-toxic, local anesthetic gel for use in relief of itching, pain, soreness and for its anti-inflammatory properties. May be used in conjunction with ultrasound (phonophoresis) or iontransfer (iontophoresis)

090359

030089

High tech design conforms well to treatment areas and fits comfortable beneath clothing.

WIRELESS IONTOPHORESIS

IontoPatch® 80

- Treats most areas, including elbows, knees, wrists, feet and shoulders.
- 14-hour average patient wear time.
- Lowest current to treat patients with sensitive or fair skin, including the elderly.

Description

026501 80mA-min - includes 6 Saline Vials

IontoPatch® SP

- Treats smaller areas, including fingers and Achilles tendon.
- 14-hour average patient wear time.
- Designed to adhere and contour to small anatomical areas like fingers and Achilles.

Description

026502 40mA-min - includes 6 saline vials

IontoPatch STAT®

- Treats most areas, including feet, elbows, knees, wrists, and shoulders.
- 4-hour average patient wear time.
- Treats patients who require or desire shorter wear time.

Description

026503 80mA-min - includes 6 saline vials

IontoPatch Extra Strength®

- Treats most areas, including elbows, knees, wrists, feet and shoulders.
- 8-hour average patient wear time.
- Stronger dose for more aggressive yet safe treatment.
- More therapy in fewer treatments.
- Patients with severe conditions improve faster allowing a full treatment regimen sooner.

Description

090359 120mA-min - includes 6 saline vials

Iomed Companion 80™

- Delivers an 80 mA-minute dose over 24 hours.
- Reserve battery capacity compensates for patients with higher skin resistance.
- Hypoallergenic adhesive.

Description

030089 1.0 cc Fill On Each Side; (6)/Box

FDA COMPLIANT LEAD WIRES

Combo Lead Wires

72" Lead Wire	Description
023248	Straight Black Phono Plug to Black Pins; for Dynatronics Units Only
023259	Straight Black Phono Plug to Black Pins; For Excel Units Only
023265	Black DIN Plug to Black Pins

Dual Channel 4-Pin Din to 4 Pins

– Compatible with Chattanooga™ 2 or 4 channel equipment, CPS and Legend Series.

120" Lead Wire	Description
023241	Red/Black; Channel 1 and 2
023242	Red/Black; Channel 3 and 4

Mettler Electronics Right Angle Din to Pins

– Compatible with current Mettler Equipment.

72" Lead Wire	Description
023236	Black DIN Plug to Red/Black Pins

120" Lead Wire	Description
023250	Black DIN Plug to Red/Black Pins

Right Angle DIN to Pins

– Compatible with equipment fitted with the Stereo/Mono to 3 pin DIN adaptor.

72" Lead Wire	Description
023268	Red DIN Plug to Red Pins
023269	Black DIN Plug to Black Pins

120" Lead Wire	Description
023270	Red DIN Plug to Red Pins
023271	Black DIN Plug to Black Pins

Right Angle Female TENS Lead Wire

– Compatible with most stimulator models Arista 2000™, Century 2100™, Century 240™, TENS 2500™, TENS 6000™, EMS 5000™, EMS 6500™, Micro 850™, TENS 3000™, ProTENS™, Procure™ and various others.

45" Lead Wire	Description
023368	(1) Pair; Black Socket to Red/Black Pins

Right Angle Phono Plug to Pins

– Compatible with current production Excel equipment as well as the stereo and mono solution adaptors.

72" Lead Wire	Description
023257	Red Phono Plug to Red Pins
023258	Black Phono Plug to Black Pins

023241

023241-023242 A straight 4-pin DIN plug connector to (4) .08" pins.

023268

Right Angle 3-pin DIN plug connector to dual .08" pins.

023368

Right angle female socket to dual pins.

023257

023360

A straight .04" (4) socket connector to dual .08" pins.

023263

023255

Nickel plated straight 1/4" stereo plug (non-conductive tip) to dual .08" pins.

023369

A lead wire adaptor that converts a .08" pin to a 4mm banana.

023243

Maintains the versatility and ruggedness of the old stereo phono plug wire.

Single Channel Sockets to Dual PINS

- A straight .04" (4) socket connector to dual .08" pins.
- Black cable for channels 1 and 3, gray cable for channels 2 and 4, black sockets with red and black pins.
- Compatible with current Chattanooga™ models Genesis, XT, and Transport.

72" Lead Wire	Description
023364	Black Wire for Channel 1
023365	Gray Wire for Channel 2
023366	Black Wire for Channel 3
023367	Gray Wire for Channel 4

120" Lead Wire	Description
023360	Black Wire for Channel 1
023361	Gray Wire for Channel 2
023362	Black Wire for Channel 3
023363	Gray Wire for Channel 4

The Stereo Solution Adaptor

- Unique adaptor easily converts an "old style" 1/4" stereo jack for use with a new FDA compliant 1/4" stereo plug (straight or right angle).
- Compatible with most older units that used a non-compliant 1/4" stereo plug.

Description
023243 Stereo Adaptor; Black

Straight DIN to Pins

- Compatible with equipment fitted with the Stereo/Mono to 3 pin DIN adaptor.

72" Lead Wire	Description
023261	Red DIN Plug to Red Pins
023262	Black DIN Plug to Black Pins

120" Lead Wires	Description
023263	Red DIN Plug to Red Pins
023264	Black DIN Plug to Black Pins

Straight Phono Plug to Pins

- Compatible with current production Dynatronics™ and Excel equipment as well as the stereo and mono solution adaptors.

72" Lead Wire	Description
023253	Red Phono Plug to Red Pins
023254	Black Phono Plug to Black Pins

120" Lead Wires	Description
023255	Red Phono Plug to Red Pins
023256	Black Phono Plug to Black Pins

PIN to Banana Converter

- For use on patient end of lead wire cable.

Description
023369 Pin to Banana Converter; Red
023370 Pin to Banana Converter; Black

ATHLETIC TAPING SUPPLIES

Coach® Athletic Tape

- Offers support and conformity to help protect against sprains and injury.
- High tensile strength.
- Adheres securely yet tears easily by hand.
- 100% cotton back cloth allows perspiration to escape.
- Smooth and consistent unwind.

	Description
005187	Athletic Porous Tape Rolls, 2" x 15 yd
026353	1.5" x 15 yd Roll; (32) Rolls/Case

Tensoplast® Tan Athletic Tape

- Helps control and reduce edema by providing excellent compression and support.
- It allows for flexibility of joints without loosening.
- Requires no clips or extra tape.
- Features a 100% cotton backing that gives the patient comfort while the highly twisted crepe yarn provides elasticity.

Tan	Description
020558	1" x 5 yd Roll; (32) Rolls/Box
020559	2" x 5 yd Roll; (24) Rolls/Box
020560	3" x 5 yd Roll; (16) Rolls/Box

Zonas® Porous Tape

- Ideal for conditions requiring immobilization and support.
- Highest tensile strength.
- Adheres securely yet tears easily by hand.
- 100% cotton back cloth allows for perspiration to escape.
- Smooth and consistent to unwind.

	Description
021230	1" x 10 yd Roll; (12) Rolls/Box
021231	1.5" x 15 yd Roll; (32) Rolls/Box
021232	2" x 10 yd Roll; (6) Rolls/Box

	Description
005103	1/2" x 10 yd, Speed Pack
005191	Speed Pack with Tray, 2" x 15 yd

026353

White, bleached, hospital grade tape features high tensile strength with excellent tackiness and conformability.

021230

021230-021231 For treating strains, sprains or conditions that require immobilization and support. Easy to unwind and tear without scissors.

026354

026354-026355

026361

026361-026363 For effortless tape removal, apply to the tips of scissors and tape cutters.

020558

020558-020560 Molds to body contours while stretching to permit movement without displacement.

026357

Helps to secure tape.

026358

023657-026358 4" plastic film on a roller makes wrapping a one-handed task.

026329

Fast, temporary cooling in a spray that evaporates from the athlete's skin, lowering the surface temperature.

PreWrap

- Helps to prevent skin irritation and blistering when applied prior to tape.
- Also useful for securing cold packs.

	Description
026354	2.75" x 30 yd Roll
026355	2.75" x 30 yd Roll; (48) Rolls/Case

Tuf-Skin® Taping Base

- Prevents skin irritation and blistering.

	Description
026357	10 oz

Flexi-Wrap™

- Provides compression while clear film allows inspection of injury.
- Each roll contains 650' of .80 mil film.

	Description
026358	4" Width; (6) Rolls/Box with Roller
026367	4" Width; (6) Rolls/Box

Skin-Lube®

- Higher melting point than petroleum jelly for long-lasting protection and prevention of blisters and chafing of friction prone areas.

	Description
026361	2.75 oz Tube
026362	1lb Jar
026363	5lb Jar

Cold Spray Coolant

- Non-Staining.

	Description
026329	10 oz

090353

Pro Advantage Bandage & Utility Scissors carry a lifetime guarantee

025552

025552-025560 A self-adhesive, non-woven bandage.

025555

025555, 025557 Use for patella femoral and shoulder taping.

021228

TheraBand® Pro Series SCP® Exercise Ball

- Increase range of motion, strength and endurance.
- The TheraBand® Pro Series SCP® exercise ball creates an exciting new category of premium balls that surpass the performance of previous standard and burst resistant balls.
- This specially designed professional exercise ball combines: (1) SECURITY: feel more secure with the slow deflate protection of PRO SERIES SCP Ball (2) COMFORT: feel better while you train because PRO SERIES SCP provides superior comfort at body contact points without excessive softness that impedes support (3) PERFORMANCE: train more effectively because PRO SERIES SCP's unique design provides a more responsive surface for consistent results with each exercise.
- Includes instructional poster with 24 exercises, plug pack, inflation measuring tape.
- Latex Free.

023182	Red; Medium
023183	Green; Heavy
023184	Blue; Extra Heavy
023185	Black; Special Heavy

ExerBand Unilateral Pak - 6' Loop	Description
023186	Yellow; Thin
023187	Red; Medium
023188	Green; Heavy
023189	Blue; Extra Heavy
023190	Black; Special Heavy

020725

TheraBand® Tubing with Handles are available in 6 resistance levels.

020647

020647 - 020651 Isolates targeted muscle groups and allows for a full range of motion, making it ideal for many types of exercises.

020440

020440 - 020446 Figure-eight shaped tubing with (2) foam handles for user comfort and for a firm grip.

023181

023180- 023185 Bilateral Paks are 6' tubes with 2 EzChange handles and one Rubber Saddle web anchor strap.

020453

020453 - 020459 Each handle is securely attached to tubing with webbing strap.

091413

091413-091417 Three-foot single strand tube with web anchor strap and handle.

023186

023186 - 023190 Unilateral Loop Paks are 6' loops with one in-line handle and one Rubber Saddle web anchor strap.

022900

022901

022902

022904

022905

026405

026405 - 026409 Effective single and double arm exercises for total upper body conditioning.

026416

026416 - 026420 Will shape your legs and improve overall lower body muscle tone. Includes rubber grips for added comfort.

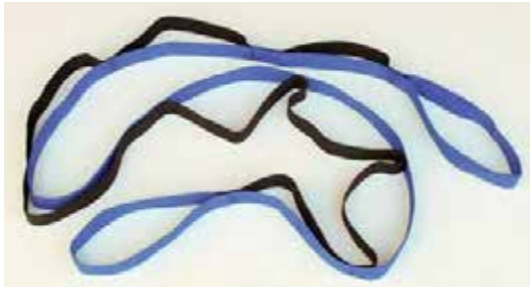

026427

The soft, padded ankle cuffs provide freedom of motion in all directions without unwanted product movement.

021188

Use the RangeMaster Shoulder Fit to begin restoring strength to the injured shoulder joint.

091157

Firm non-stretch (static) webbing on one side and elastic stretchable loops on the other.

SportCords

- SportCord uses a bungee-type resistance cord that is constructed from multiple strands of rubber and covered by a tightly woven, high strength nylon jacket.
- Nylon jacket makes tubing latex free.
- Available in four resistances: red x-light, green light, blue medium and black heavy.

022939

022939-022944 In-line handle w/Rubber Saddle Web Strap

047364

047364-047371 Modular Tubing consists of a single section of tubing, fittings and clips on each end for attachment to modular components. (3-Foot)

047374

Medicordz® Wall Mount is a unique, adjustable patent-pending mounting system that is made of high strength, heavy duty nylon with metal attachments which hold up to the rigorous demands of clinic as well as home use.

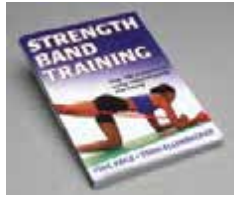

047385

Medicordz® Door Mount is a unique, adjustable patent-pending mounting system that is made of high strength, heavy duty nylon with metal attachments which hold up to the rigorous demands of clinic as well as home use.

026316

The book's 430 photographs show how to perform a variety of exercises using elastic resistance bands and tubing.

026719

027949

Adjustable velcro strap easily and comfortably anchors tubing to ankle or wrist for upper and lower extremity exercises.

023193

Easily anchors tubing/band products to both the Exercise Rail and to any standard door.

020039

The Handles feature comfortable soft foam grips.

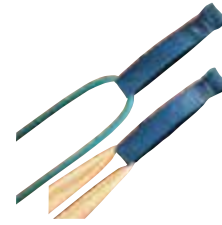

020120

The Door Anchor turns any door into an effective simple-to-use workout station.

020145

Extremity Strap can be worn on the wrists, ankles, arms or legs.

020146

020146-020147 Height adjustments are limitless and will not slip up or down. Increases patient compliance with exercise programs at home or during travel.

047251

The multiple-position grips deliver the benefits of stretching without a partner and combines isotonic, isometrics and prolonged stretch.

042406

A revolutionary replacement to static stretching devices.

Home Ranger® Knee Pulley

- A simple rope and pulley system combined with the Handshoe Foot Hammock™ gives the patient guided control for gentle distraction to reduce knee joint pressure and pain, as well as extension and flexion exercises.
- A tracking system at www.kneepulley.com helps patients record their knee pulley exercise sessions.
- Contains the Handshoe Foot Hammock™ which secures around your foot and hooks to a rope and pulley system. Handle allows patient to control the pulley action and choose the range of motion wanted for pain distraction or ROM exercises.
- Can be used anywhere there is a door. Also attaches to the Web-Slide Exercise systems.
- Includes exercise booklet.

Description	
091500	Home Ranger Knee Pulley™

RSI Rehab Strength Indicator

- Wireless strength, exercise monitoring sensor
- Attaches to stretch cords included in kit or with other cords with snaps
- 80 lb max. force capacity
- Compact design makes monitoring device portable to use anywhere
- Use with IOS app to track and monitor force and time of exercise reps with stretch cords
- Uses coin cell battery

Description	
091494	Resistance Exercise Monitoring Sensor

091500

Reduce knee pain and improve range of motion with the Home Ranger Knee Pulley™ This innovative exercise device allows knee replacement patients and those with osteoarthritis of the knee to easily self-administer the "distraction" phase of the physical therapy process, leading to reduced knee pain and much easier follow through on important flexion and extension exercises.

091494

Resistance cord wireless exercise monitoring sensor, use with IOS app on Ipad or Iphone

027915

027915, 027951 The Deluxe Assortments (027915 and 027951) require just 3' of wall space and contain everything needed to quickly and effectively train and monitor those in need of rehabilitation and fitness exercise programs.

027917

--------	----------------------

WEB-SLIDE[®] EXERCISE RAIL SYSTEM

“The cleanest, easiest system out there. We use it with nearly every patient.” —Stephen C. Smith, DC

Streamlines in-clinic training sessions to improve productivity. Send patients home empowered for greater compliance and success.

FIXTURES

- Maintenance free, no moving parts, nothing to break
- Modular flexibility
- Safe and easy to use. Just slide your selected device's web anchor-strap into any of the 15 slots to begin exercising
- Patented design for ease and enhanced safety

EXERCISE EQUIPMENT

- 14 exercise devices for flexibility, range of motion and strengthening
- Each device is also available packaged for patient home use

INSTRUCTION

- Posters and prescription pads for each exercise device
- Instruction materials work together for a streamlined clinic-to-home experience that advances patient compliance and performance.

“The system is a tremendous asset to our facility. I’m able to employ an extensive and diverse range of exercises in a very limited workspace. The fact that it is so easy to use and not intimidating makes it ideal for our elderly clients.”

—Kelley Hupp, Recreation Manager
Hale Koa Hotel
Honolulu, HI

“If you use tubing, bands, or pulleys for rehab, PrePak’s Exercise Rail System is a must have. I’m enthusiastically recommending it to colleagues.”

—Mari Bosworth, PT
Rehabilitation Services of Cleveland, Inc
Cleveland, MS

“The Exercise Rails are very easy to use. The system provides patients an easy transition from office to home.”

—Aimee Pak, Office Manager
New Start Chiropractic
Dallas, TX

HOME RANGER SHOULDER PULLEY®

The original web anchor-strap shoulder pulley

The market-leading Home Ranger Shoulder Pulley® — Custom features and superior performance:

- A Sure Track Pulley® is quiet and always keeps the pulley rope engaged
- B Rubber tipped Web Anchor-Strap for enhanced non-slip safety
- C Ergonomic, non-latex handles for added comfort and effectiveness
- D Positive reinforcement marks on pulley rope to measure performance gains
- E Booklet with step-by-step instructions and 12 exercises

“The Home Ranger Shoulder pulley system is invaluable in the treatment of shoulder pathology. It is compact and user friendly. Many of my patients don’t require formal physical therapy; they simply utilize your pulley system and a self directed exercise program”

—Michael Pollack, MD, Hunterdon Orthopedic Associates

“The Home Ranger Shoulder Pulley provides our patient’s the important carry over from clinic to home. This cost effective and efficient shoulder pulley is one product we will continue to use.”

—Pair & Marotta Physical Therapy

020604	Blue; Heavy
020605	Black; X-Heavy
020606	Set of Six (1 ea. T,Y,R,G,B,Blk.)

022933

022932-022935 The Hand Xtrainer is the ultimate hand therapy tool available in four progressive densities.

020135

020135-020138 Oval-shaped exerciser for larger hands provides almost twice as much material as the original hand exerciser.

020494

020494, 020497-020498 For improving strength, balance, coordination, speed, and general blood flow, stimulates all peripheral nerves to the hand and allows for unattended therapy.

022932-022936

The Hand Xtrainer is the ultimate hand therapy tool available in four progressive densities.

020600

020600-020606 Can be used hot (microwavable) or cold.

024562

Develops isolated finger Strength, Flexibility and Coordination.

Doczac™ Handmaster Plus™

	Description
020494	Soft (Blue)

Why Use Single-Use?

Reduce Cost & Complexity

Say goodbye to linen carts, laundry cost and theft with disposables.

New and clean for each patient, every time.

Fast room turnover, easy storage, and reduces risk of cross-contamination.

Be More Sustainable

Our nonwoven single-use products are easy to recycle in a #5 bin.

We use recycled fibers and materials in the manufacturing of our poly products.

All of our paper-based products are biodegradable and decomposable.

For more information and to request FREE samples, visit us at GrahamMedical.com.

Herbal Select Massage Products, Body Therapy

- Satiny texture is non-greasy and penetrates quickly to moisturize and condition the skin while assuring an easy glide and consistent workability.
- Contains intensive hydrating Sea Kelp and Aloe Vera plus fragrant, soothing botanicals to melt away stress.

	Description
022136	One Gallon

090705
The Boss Underpad

026339

Requires less reapplications than typical lotions so you can keep a smooth flow to your session. Offers higher friction and less glide than oil, yet it won't absorb as fully or as fast as lotions. Perfect for longer massage sessions.

026332

026325

For deep-tissue, stimulating and neuromuscular massage techniques. Gives you complete control without the drag or tackiness that can limit workability.

026310

Combines the features of an oil and lotion in one, leaving skin soft and moisturized with no greasy feel.

022136

Formulated to calm, heal, help ease skin disorders and moisturize very dry skin

026301

Contains Vitamin E, a skin revitalizer proved to help improve skin texture, softness and firmness.

022135

Combines skin healthy, vitamin-rich ingredients to create a rich, luxurious crème that goes beyond basic moisturizing.

020028

020028-020029 Helps you give a soothing, effective massage.

020030

020030-020031 Formulated with aloe vera, an ideal lotion for massage or as an ultrasound coupling agent.

026351

A unique formulation of pure Cocoa Butter in a skin softening emollient base enriched with Vitamin E.

026340

026340, 026342 Achieves great glide, tissue perception and lubricity without slipperiness.

028770

028770-028772 A Natural formula with botanical ingredients that help facilitate a controllable glide for area-specific therapies. Not an all-body massage oil.

027472

030110

Ideal for trigger-point massage.

Herbal Select Massage Products, Foot Therapy

- Satiny texture is non-greasy and penetrates quickly to moisturize and condition the skin while assuring an easy glide and consistent workability.
- Botanicals of cooling Peppermint eases burning, Rosemary stimulates circulation, Bay Laurel helps inhibit bacteria and Lemon Peel adds healing comfort.

Description

022137 32 oz with Pump

Revitalizing Massage Oil

- Ideally suited to a wide range of massage techniques.
- Vegetable derived water dispersant helps minimize staining of linens.

Description

026301 One Gallon
 026302 1/2 Gallon

drag or tackiness, and lasting performance making
it an excellent medium for soft tissue techniques.”

— Jared Kowal, ATC, PTA Center for Physical Therapy & Exercise

Ideal for:

- hospitals
- multi-therapist offices
- home health care
- sports teams
- patient home use

Hands Down

Nobody Beats ZOLL
When it Comes to CPR

CPR quality is crucial. In systems that have focused on improving CPR quality, both in and out of the hospital, survival rates from sudden cardiac arrest have doubled, or even tripled.^{1,2}

When it comes to assisting rescuers in providing the best CPR possible, no one is more experienced or can offer you as much as ZOLL®.

Real CPR Help® — Guides rescuers to proper depth and rate of compressions with real-time audio and visual feedback

**For more information on the AED Plus,
go to www.zoll.com/AEDPLUS**

Deluxe Knee Wedge

- Use under the knees while reclining for comfort, pressure relief and better circulation.
- Relieves pain in the lower back by flexing the lumbar spine.
- High-quality polyester cover for increased comfort.
- Made in USA.

Description

050039	Knee Wedge
--------	------------

Core CPAP Pillow

- This unique pillow has quilted side panels to create a distinct edge, allowing mask to comfortably hang over the side of pillow. This prevents mask from being forced into side of the face.
- The CPAP Pillow design makes it durable enough to support the head and neck without losing its edge, yet soft enough to sleep on all night.
- The pillow is comfortable for both side and stomach sleepers. Patients required to sleep on their side for other reasons, such as oral or dental appliances, fibromyalgia or other chronic pain, and pregnancy may also benefit from the Core CPAP Pillow and its unique shape.
- To order specify the 3," 4" or 5" option.
- Fitted pillowcase included.

Description

080170

080169-080170 This pillow supports your neck, allowing you to fully relax.

090932

090931

090794

090794-090798 Because people sleep on their backs, sides, or both, this pillow was created to work for each sleeping position. The ergonomic design offers comfortable support and stability in all sleeping postures. The result is a more sound sleep and less tendency to wake with pain, stiffness and many of the symptoms resulting from lack of support.

091057

080186

Contoured design and hook-and-loop closure provide support and act as a gentle reminder to limit motion.

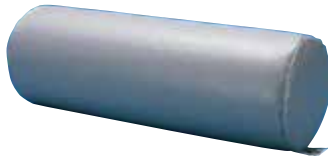

026650

Effective for maintaining proper lumbar lordosis while sitting.

Sacroiliac Pad™	Description
080316	Stabilization Pad™

080272

080272-080277 Supports the lower back and abdominal muscles, encourages proper lifting techniques and helps reduce the possibility of job related back injuries.

083722

Designed to compress and support sacroiliac joints and relieves stress and instability at sacroiliac joints.

080082

Buckle design allows for easy use.

080316

Stabilization Pad™ fits between sacral sulci and provides form, comfortable support and proprioceptive input to the sacral area. Semi-elastic construction allows a snugger fit and eliminates riding up with patient activity.

080280

080280-080282
Designed to properly fit obese patients, providing both lumbar and abdominal support. Its unique abdominal support pad contains and lifts the abdomen.

089200

089200-089205 Excellent stabilizing orthosis for the lumbar spine and lumbosacral transition with muscle-activating and relieving properties.

051561

051561-051566

Silicone insert with raised nodules provides intermittent compression to the soft tissue, leading to increased circulation, and allowing for unicompartamental movement.

051561

0515661-051566

Silicone Insert that is included with each LumboTrain

083174

083174-083178 SacroLoc® is low profile and provides support to the lower back at the iliosacral joints.

080031

080031-080032 Stabilizes and supports the rib cage with CorEdge® finish for comfort. Can be worn next to skin

080279

080278-080279 Permits universal sizing with maximum support to the sacrum with a durable, plush, 4" high hook-and-loop laminate closure.

Bariatric Support Plus

- The low temperature heat moldable insert (included) supports the spine and transfers the load to it evenly and comfortably.

	Size	Girth
080280	Size +1	45" to 55"
080281	Size +2	55" to 65"
080282	Size +3	65" to 75"

LordoLoc® Back Support by Bauerfeind®

- Four, 9.25" flexible, stainless steel stays integrated at the back can be adapted individually.
- Easy to put on and take off, features Velcro® fastenings with hand straps.
- Additional elastic tension straps permit individually adjustable compression and thus variable adjustment of the stabilizing effect.
- This elastic, breathable support adapts itself to the anatomy, and has a compact design for maximum comfort.

	Size	Pelvic Circumference

080898	Large	42" to 54"

KNEE SUPPORTS

Cho-Pat® Dual Action Knee Strap

- Helps reduce the pressure that causes decubitus ulcers. Features cotton/poly fabric filled with cool, Corefill® polyester fiber and hook-and-loop closures.
- Applies constant dynamic forces to the surrounding areas of the knee, reducing the likelihood of overuse syndromes. At the same time the strap allows for full mobility while providing maximum benefits.

	Size	Knee
080130	X-Small	Less than 10"
080131	Small	10" to 12.25"
080132	Medium	12.25" to 14.5"
080133	Large	14.5" to 16.5"
080134	X-Large	16.5" to 18"

Cho-Pat® Patellar Strap

- Elevates the kneecap slightly.
- Provides symptomatic relief of acute/chronic pain associated with patellar tendonitis, Chondromalacia Patella Syndrome, Osgood-Schlatter's Disease and Iliotibial Band Syndrome.
- NOTE: Not recommended for those with large varicose veins crossing the knee.

	Size	Knee
080370	Small	10" to 12.25"
080371	Medium	12.25" to 14.5"
080372	Large	14.5" to 16.5"
080373	X-Large	16.5" to 18"

Extended Plus Size Supports 2X - 4X

- Designed to provide optimum support.
- Plush latex-free neoprene in wrap-around style fits either knee.
- Extra padding around patella adds additional warmth and support.

	Description
080703	Knee Support

Gametime Brace

- Applies constant dynamic forces to the surrounding areas of the knee, reducing the likelihood of overuse syndromes. At the same time the strap allows for full mobility while providing maximum benefits.

J-Brace Patellar Stabilizer

- 13" sleeve is 1/8" thick and features 2 lateral and 2 medial spiral steel stays along with a tubular rubber buttress to align the patella.
- Laterally attached straps pull medially to displace force to the patella.
- Allows complete range of motion while providing stability.

Knee Wrap w/ Hinges

- Easy off and on wrap design.
- Opposing hook and loop straps.
- 2 moveable felt buttresses patellar stabilization.
- Open popliteal for comfort.

	Description
080871	X-Small/Small; 12" to 14"
080873	Medium/Large; 14" to 16"
080875	X-Large/XX-Large; 16" to 20"

080136

080415

Use for patellar instabilities, subluxation and dislocation, chondromalacia, and post-operative management.

080871

180 degree hinges set in enclosed pockets.

080872

2 medial and lateral spiral stays.

080374

080374-080379 Offers light support and a popliteal cut-out that is used for minor strains and sprains.

080435

080435-080440 Use for Osgood-Schlatter Syndrome

080346

Enables the muscles to relax and reduces stress on tendons and muscles. Straddles the patellar tendon and applies gentle selective pressure directly to the joint lining.

080348

Maximum support to patella and knee joint while maintaining a full range of motion.

080409

080409-080414

Knee Wrap w/ Stays

	Description
080872	X-Small/Small; 12" to 14"
080874	Medium/Large; 14" to 16"
080876	X-Large/XX-Large; 16" to 20"

KneedIT® and KneedIT XM®

- Assists in the relief of minor knee pain by placing gentle pressure along the medial and lateral soft tissues of the knee.
- Can be worn on the right or left knee and easily adjusts to fit the contour of the patella and patellar tendon.

One Size Fits Most	Description
080346	KneedIT®
080347	KneedIT XM®, With Therapeutic Magnet

Open Popliteal Sleeve

	Description

080440	XX-Large; 18" to 20"

Patellar Knee Support

- 13" sleeve is 1/8" thick with patellar cut-out, movable horseshoe buttress.
- Use for post-operative rehab, patellar tendonitis and dislocations, anterior/posterior cruciate instability and lateral/medial collateral ligament instability.
- Features 2 lateral and 2 medial spiral steel stays and opposing loop and lock straps above and below the patellar opening.

	Description
080409	X-Small; 12" to 13"
080410	Small; 13" to 14"
080411	Medium; 14" to 15"
080412	Large; 15" to 16"
080413	X-Large; 16" to 18"
080414	XX-Large; 18" to 20"

Palumbo Patella Tracker

- Use in Osgood-Schlatter.
- Lateral pad control insert is constructed of visco-elastic material to better conform and adjust to the floating action of the brace.
- The new laterally positioned elastic insert in the patella strap between the anchor and pad allows for the "floating" action which repositions the pad according to the full physiologic range of motion to the knee.

082764

Utilizes a patella bracing mechanism wherein the lateral bracing pad is allowed to float so as to maintain the most effective position with respect to the patella during flexion of the knee.

082781

Creates a dynamic, medially displacing force to the patella and allows functional activity while providing stability throughout the full range of knee motion.

080380

13" Long and 1/8" thick sleeve with anterior oval pad that is used for strains and sprains, post-operative rehab or arthritis of knee joint.

080386

13" sleeve with anterior oval pad that is used for strains and sprains, post-operative rehab, arthritis of knee joint or turf protection.

080392

080392-080397 Use for subluxation of the patella and chondromalacia.

080403

080403-080408 Use for subluxation of the patella or chondromalacia.

080360

080360-080365 Use for lateral/medial collateral ligament instability, or anterior/posterior cruciate instability.

Plain Sleeve

Universal Knee Wrap

- This universally sized knee support with movable felt horseshoe may be used for light support and minor injuries.

	Description
080433	Universal
080434	Oversize

GenuTrain® A3 Knee Support by Bauerfeind®

- Treats osteoarthritis, patellar subluxation, Chondromalacia, patellar dislocation, anterior knee pain, knee instability, Osgood-Schlatter's disease and jumper's knee.
- Integrated guide in silicone helps patella from shifting out of place.
- Centers the patella during movement and stimulates the skin receptors and nerve endings in the muscle-tendon transition around the knee to enhance proprioception and decrease pain and swelling.
- Lightweight, breathable knit optimizes temperature regulation for a cool, comfortable fit.
- Counteracts patellar malalignment and provides a friction massage on the receptor zones of the knee joint reducing pain and swelling.

090605

090605-090611, 090619-090625 GenuTrain S Pro is an active knee brace with hinged sidebars and adjustable flexion and extension stops for lateral stabilization

091075

GenuTrain® Knee Support by Bauerfeind®

- Breathable knit provides controlled compression to decrease pain and swelling.
- Graduated compression at the edges prevents constriction of circulation.
- Designed to be worn during activity, ideal for treating knee strains or sprains, pre- and post-operative inflammation, chondromalacia, arthritis, degenerative joint disease, adolescent knee pain, post-arthroscopy, recurrent knee pain and knee instability.
- Contoured silicone insert around the patella leaves the patella pressure-free and gently massages the soft tissue of the joint to improve circulation.

GenuTrain® S Pro Knee Support by Bauerfeind®

- GenuTrain S Pro has re-shapeable thermoplastic hinged medial/lateral sidebars, with flexion and extension stops.
- An integral, ring-shaped viscoelastic silicone massage pad surrounds the kneecap, while the interplay of the knit and the pad provides intermittent compression massage, thereby activating the musculature and stimulating the healing process.
- The combination of plastic joint bars and the four individually adjustable tension straps provide optimal knee stabilization and added passive support for the knee along with an anatomical fit.
- Hinged sidebar joints allow for adjustment at 30 degree, 60 degree and 90 degree flexion, as well as 0 degree and 20 degree extension.
- Lightweight, breathable knit will not retain heat for high wearing comfort and is machine washable.
- Made in Germany with the highest quality standards.
- It supports the knee joint for indications of mild and moderate instability, Osteoarthritis of the knee, Arthritis, Meniscus injuries, and complex knee pain

Ankle Lok® by Swede-O

- Full elastic back ensures complete unrestricted blood flow to the Achilles' tendon and virtually eliminates the chance for blistering.
- Exclusive Ankle Lok® offset panel traps the laces between the inner and outer flap to hold the laces tighter longer than any other brace.
- Exclusive close spaced eyelets concentrate the holding power where it's needed most creating the most effective heel lock.
- Arch fits the contour of the foot and is seamless so it virtually eliminates irritation to the bottom of the foot.
- Triple layer vinyl laminate and internal U-shaped spiral stay provides extra support.

083000

Combines the exclusive "ankle lok" lacing system with figure-eight straps for maximum support.

083054

083054-83058 Utilizes twin dual-purpose straps.

080781

080567

080567-080568 Fits comfortably into athletic shoes and excellent for prevention of recurrent injuries.

080706

Does not limit flexion or extension.

080705

Excellent support, flexibility, warmth, and comfort.

Proband Ankle BandIT®

- Helps relieve pain and swelling often associated with chronic ankle sprains, arthritis, bursitis, and tendonitis.
- It eases discomfort commonly experienced with degenerative joint disease of the ankle.
- Recommended for individuals suffering from synovitis and Plantar Fasciitis.

Description

080781 Proband Ankle BandIT®

Neoprene N2 Ankle Sleeve

	Size	Ankle Circumference

Description

080705 2X - 4X

AchilloTrain® Achilles Tendon Support by Bauerfeind®

- Anatomically contoured viscoelastic insert runs alongside the Achilles' tendon to provide effective pressure-relief. When active, it provides an intermittent massage to help reduce pain and swelling.
- Provides peak shock load reduction to joints and back with both heel cushions in place.
- Silicone heel-wedge is incorporated in the support to raise the heel for pain relief of the Achilles tendon, with additional pad for opposite foot.
- Non-binding, lightweight, breathable knit remains cool and moves with the body for maximum comfort.
- Ideal for Achilles' tendonitis, Achilles' tendon strains, bursitis of the Achilles' and post-Achilles' tendon rupture.

AchilloTrain® Pro Achilles Tendon Support by Bauerfeind®

- Unlike neoprene, non-binding, lightweight, breathable knit remains cool and moves with the body for maximum comfort.
- Viscoelastic insert runs alongside the Achilles' tendon leaving the tendon pressure-free and providing intermittent compression which reduces pain and swelling.
- Viscoelastic insert has soft, proprioceptive stimulating nodules and longitudinal grooves so upper tendon and muscle-tendon transition and nerve endings are stimulated.
- With movement, nodules provide massage, accelerating healing process.
- Stimulation of nerve endings in muscle transitions heightens proprioception and improves muscle control and increases ankle stabilization.
- Integrated stretch zone knitted in front makes it easy to put on and take off.
- Ideal for Achilles tendonitis, Achilles' tendon strains, bursitis of the Achilles' and post-Achilles' tendon rupture.
- Machine washable.

090581

Systematically counteracts irritation to the Achilles tendon through knitted support and compression. The support promotes muscular stabilization whilst a knobbed viscoelastic insert massages the muscle-tendon transition to reduce pain and swelling. Mobility is eased and assisted.

MalleoTrain® Ankle Support by Bauerfeind®

- Promotes proprioception, thus heightening sensory awareness in the ankle for increased joint stabilization.
- Ideal for chronic ankle swelling, ankle sprains, and ligament weakness.
- Silicone insert leaves malleoli pressure-free and provides intermittent compression to the soft tissue of the joint.

Knitted support with improved stretch, breathability, and moisture wicking for effective compression and comfort.

080369

Knitted support with improved stretch, breathability, and moisture wicking for effective compression and comfort.

MalleoTrain® Plus Ankle Support by Bauerfeind®

- MalleoTrain Plus helps relieve ankle pain and swelling during everyday activities and sports and is great for ankle stabilization.
- Comfortable 3-dimensional anatomical knit ankle support with Viscoelastic silicone inserts for intermittent compression massage and a figure of 8 strap system for stabilization.
- Stabilization of the ankle joint, which is continuously supported by the guidance of the 3-level strap system (elastic, inelastic, semi elastic) in the form of a figure 8.
- Viscoelastic silicone inserts leave ankle bones pressure-free and provide intermittent compression to the soft tissue of the joint, leading to increased circulation, thus aiding in the reduction of swelling and edema.
- Promotes proprioception, thus heightening sensory awareness in the ankle for increased joint stabilization.
- Anatomical knit has controlled compression graduated at the edges to prevent circulation constriction.
- Can be used to treat: Ankle swelling and soreness, Ankle sprains, Ligament weakness, Insufficiency, Slight tears, Supination prophyllaxis, particularly during sports, Degenerative joint disease, Osteoarthritis, Synovitis, Bursitis, Arthritis, Post-operative rehab, Post cast

080367

Knitted support with improved stretch, breathability, and moisture wicking for effective compression and comfort.

090599

Reinforcing figure-8 strap provides extra stabilization and a firm footing without restricting range of motion. Boosts self-confidence by increasing proprioception. Stretchy, breathable, moisture-wicking knit will not retain heat, allows skin to breathe and equalizes temperature. Viscoelastic silicone pad behind each ankle bone provides intermittent compression massage during movement to reduce pain and swelling.

MalleoLoc® Ankle Brace by Bauerfeind®

- Ideal for chronic ankle instability, prophylactically to prevent sprains, post operative rehabilitation and post-cast.
- Thermoplastic material may be heat-molded to provide custom fit.
- Figure-8 Velcro® strapping numbered for easy patient application.
- Lightweight and streamlined to fit in any shoe.
- Individually adjustable Velcro® straps for precise comfort and fit.
- Unique design leaves heel and front of the foot free for natural stabilization and allows for full plantar and dorsiflexion.
- Latex-free.

Left; Titanium (Gray)	Size
081573	1, Heel width is smaller than 2.25"

081572	2, Heel width is larger than 2.25"

CaligaLoc® Ankle Brace by Bauerfeind®

- Stabilizes the entire ankle giving both medial and lateral support.
- Provides excellent ankle stabilization by counteracting supination (the outward rolling of the ankle) and preventing abnormal loads in the upper ankle.
- Can be worn around the clock, in shoes and as a positioning splint without shoes at night.
- Provides support of the foot in dorsiflexion.
- Keeps ankle stable even with moderate foot drop and instability.
- Unlike stirrup supports, stabilizes the ankle even without wearing a shoe.
- Anatomically contoured, thin, lightweight design ensures maximum comfort.
- Slightly pronating raised heel section (toward the outside) takes the strain off the lateral malleolar ligaments (outer ankle ligaments).
- Four adjustable Velcro® straps provide easy application and proper fit.
- Latex-free construction eliminates skin irritation.
- Easy to clean with soap and warm water.
- Ideal for conservative treatment of torn ankle ligaments, Charcot-Marie-Tooth Disease (CMT), Ankle stabilization, Chronic ankle instability, Drop foot, Post-operative protection after ligament suturing / reconstruction, Night splint for Plantar Fasciitis.

090638	3	Men's 10.5 - 14 Women's 11.5 - 15.5

081571

Stabilizing ankle brace specifically contoured to increase stability without restricting mobility.

090636

CaligaLoc provides excellent ankle stabilization by counteracting and preventing abnormal loads in the upper ankle. Can be worn as a support splint in normal shoes and as a positioning splint without shoes at night. Keeps your ankle stable even if you have moderate foot drop and instability. Unlike stirrup supports, CaligaLoc stabilizes the ankle even when you are not wearing a shoe.

MalleoTrain® S Ankle Support by Bauerfeind®

- Effective alternative to taping.
- Stabilizes the ankle and reduces strain to maximize performance during sports and everyday activities.
- Stretchy knit material is breathable and moisture-wicking, which provides effective compression and excellent wearing comfort.
- Figure-8 strap provides ankle stabilization at the supination & pronation level, during rotation, and other activities.
- Strap system can be adjusted individually, but stays in place once fastened.
- Great for sports and fits comfortably into shoes.
- High quality support provides superior comfort and long lasting effectiveness.
- Anatomical knit carries controlled compression graduated at the edges to prevent constriction of circulation.
- Promotes proprioception, thus heightening sensory awareness in the ankle for increased joint stabilization.
- Compression increases circulation, energizes/activates muscles, ligaments for quicker response & enhances jumping force & thrust.
- Machine washable.
- Can be used to treat: Ligament instability, Post-operative rehabilitation, Mild ankle sprains, Ankle strains, Supination, prophylaxis, especially when playing sports, Ligament weakness and slight ligamentous tears, Ankle pain

081704

081704-081705 Comfortably and effectively relieves the painful symptoms of Plantar Fasciitis.

080488

Made of lightweight neoprene fabric and is simple to apply.

081727

081727-081728 Nighttime Anterior Positioner

081718

081718-081720 Designed to provide relief from pain and discomfort of plantar fasciitis and Achilles tendonitis.

PLANTAR FASCIITIS SPLINTS

Active Innovations - DNS® (Dorsal Night Splint™)

- Patented clamshell supports soft tissue and metatarsal while holding foot in a neutral position during sleep.
- Triple-stitched, stretch resistant strap for exceptional support.
- Thick, lightweight padding improves comfort along with anti-slip pad on bottom for safe nighttime ambulation.
- The Dorsal Night Splint™ can also be used for severe ankle sprains, Achilles tendonitis, foot drop/neurological deficits, muscular strains and many other conditions that require ankle stabilization in a neutral position.

	Description
081704	Small
081705	Large

AirHeel™

- Specifically designed to treat Plantar Fasciitis, Achilles tendonitis, and heel pain
- Using 2 interconnected aircells located under the foot arch and in back of the heel, the AirHeel applies pulsating compression with every step to help reduce swelling and discomfort and enhance circulation.

N.A.P. Splint

- Designed to help provide relief from pain and discomfort of Plantar Fasciitis and Achilles Tendonitis.
- Lightweight, low profile design provides comfort.
- Helps patient sleep more comfortably, therefore increasing compliance.
- Non-skid tread provides safety for minimal ambulation.
- Slips onto the foot and is easily adjusted with hook closure.
- Fits either left or right foot.

	Description
081727	Small-Medium (Male sizes 5-9; Female sizes 6-10)
081728	Large-XL (Male sizes 9.5-14; Female sizes 10.5-15)

P.F.S.™ Plantar Fasciitis Stretch Splint

- Allows the patient to apply consistent stretch to the plantar fascia by holding the foot in gentle dorsiflexion.
- Lightweight design for patient comfort while sleeping
- Slip resistant sole for greater patient safety.
- Fits either left or right foot
- Latex free.

	Description
081718	Small (Male sizes up to 7; Female sizes up to 7.5)
081719	Medium (Male sizes 7.5-10; Female sizes 8-10)

Plantar DR™ Ankle Support with MVT² by Swede-O

- Swede-O thermal supports have a micro ventilated breathable membrane that provides a free flow of air, allowing the skin to remain well ventilated and comfortable
- The soft thermal lining captures and retains your natural body heat for effective pain relief and therapy
- With unsurpassed quality this thermal support provides comfortable compression and warmth to help reduce swelling and associated pain to promote recovery
- Other sizes available upon request

	Description
091502	Ankle Support, Large, Gray

3pp® PF Lift™

- The 3pp PF Lift stretches and lifts the Plantar Fascia to reduce heel pain when walking, standing or running.
- This soft foam-lined strap is thin enough to wear in shoes and maintains stretch for long term relief of foot and heel pain
- Non-slip foam lined straps stay in place without sliding on the leg or foot.
- Hand or machine washable.
- Latex free.

	Circumference Above Ankle
083878	Sm / Med; 7" - 11"
083879	Med / Lg; 11" - 15"

3pp® Arch Lift™

- Soft, foam-lined strap will not slip or roll. Thin enough to be worn in shoes or at night to relieve morning pain in the plantar fascia.
- Sewn- in arch pad contours to the foot. Additional metatarsal pad can be added to relieve pain in the ball of the foot.
- Adjustable straps allow the wearer to control the amount of compression.
- Hand or machine wash. Air dry.
- Latex-free.

083878

083878-083879 Applies a controlled lift and stretch to reduce pain from Plantar Fasciitis.

083880

Designed to lift and support the plantar arch to relieve pain from Plantar Fasciitis, flat foot and heel spurs.

080624

080624-080627 A traditional heel pad providing concentrated shock absorption in a heel-size insert.

080620

080620-080623 Removable plug creates a cavity to disperse painful pressure.

080628

080628-080631 Cupped contouring utilizes the heel's natural cushioning properties.

047214

047214-047215 Softer, more resilient than the material used in other heel cups.

080685

080685-080687 Excellent durability, non-slip construction and very comfortable to wear.

080610

080610-080613 Provides shock dampening and cushioning for the entire length of the foot and additional protection provided in the heel area.

082037

082037, 082069-082070 A varus/valgus wedge with a slight incline that can be used for pronation or supination applications and other clinical problems, such as problems with the medial collateral ligament, located on the inner side of the knee.

080135

Features cotton/poly fabric filled with cool, Corefill® polyester fiber and hook-and-loop closures.

Cambion® Posted Heel Cushions

- Provides 4 degrees of posting to align heel strike horizontally to help correct pronation or supination.

ValguLoc® Bunion Splint by Bauerfeind®

- Big toe is brought into correct axial alignment by the application of small forces.
- Corrects Hallux Valgus or bunions according to the 3-point principle.
- Velcro® fastening allows for variable adjustment of the correction pressure.
- Great for nighttime use. Wear without shoe when the foot is not placed under load. Not suitable for walking.
- Latex-free construction.
- Provides comfortable compression to help reduce swelling and prevent migration of the splint on the foot.

Left	Size	Shoe Size

080702	3	9 and Above	8 and Above

083179

ValguLoc® provides excellent relief and alignment to the big toe.

080700

080700-080702 Provides cushioning and shock reduction to joints and back. Ideal for pronation, varus, bow legged, supination, valgus, knock knee, lateral ankle sprains and osteoarthritis.

090644

090644-090648 ViscoHeel, for the right and left foot, cushions the heel, fits perfectly in shoes, and reduces pressure discomfort with every step, also helping to protect the leg joints and spine. Anatomically contoured heel cushions gently guide the hindfoot and relieve calf muscles and tendons, helping Achilles tendon inflammation subside more quickly.

080688

080688-080694 Medical grade silicone with softer white silicone at the heel and ball of the foot to aid in the desired realignment of metatarsal regions and to provide additional cushioning. Sold in a pair.

ViscoHeel® Heel Cushions by Bauerfeind®

- ViscoHeel Heel Cushions are soft viscoelastic silicone and reduce shock loads on the ankles, knees, hips, and back. This relief reduces pain that is primarily caused above, not below, the heel, such as when the Achilles tendon is inflamed, a "pump bump," known as Haglund's deformity, or in cases of knee or hip osteoarthritis
- The cushions protect the joints and spine, as well as the tendons and ligaments, with every step
- Anatomical design supports the hindfoot and smoothly tapers toward the midfoot and facilitates a natural heel-to-toe movement
- Swelling and inflammations of the Achilles' tendon can heal more easily
- Soft cushioning reduces pressure discomfort under your heel and provides effective relief for your calf muscles and tendons
- Slightly wedge-shaped heel cushions are anatomically contoured and are therefore, Right and Left specific
- Your heel cushions have a flush fit in your shoe, allowing the shoe, heel cushion and foot, to form one stable unit
- Low profile heel rim so they won't slide in your shoe
- Indications: Arthritis or Osteoarthritis of the leg joints, hips, or knees (shock absorbing effect), Knee prosthesis relief, Achilles tendinitis, Achillodynia, - tendomyopathy, Haglund's deformity - partial relief (pump bump), Tarsal bone pain, Leg length differences up to approx. 1/3 inch (1 cm) by wearing one cushion, Helps protect the joints by cushioning the heel while standing and walking, Calcaneal (heel) pain
- Made in Germany with the highest quality standards
- Does not absorb odors and easy to clean with soap and warm water
- Latex free

Sold in Pairs	Size	Women	Men
090644	0	Child	Child
090645	1	Men's 2.5 - 4	Women's 3.5 - 5

ViscoPed® Insoles by Bauerfeind®

- Original multi-density full length insoles for targeted relief of Metatarsalgia, Morton's neuroma, Foot pain (plantar pain), shock load reduction to relieve foot, knee and back pain, hyperkeratosis, splayfoot, Pressure redistribution, and forefoot and toe deformities
- Medical grade silicone with softer white silicone at the heel and metatarsal region for maximum cushioning
- Raised metatarsal pad, made of silicone, aids in desired realignment of metatarsal heads
- Ventilation holes throughout let your feet "breathe" for cool comfort
- Easily trimmed for precise fit
- Removing the shoe's existing insole or wearing a half size larger shoe is sometimes recommended
- Comfortable and long-lasting
- Made in Germany with the highest quality standards
- Does not absorb odors and easy to clean with soap and warm water
- For insoles without the raised metatarsal pad see Bauerfeind ViscoPed S
- Latex free
- Sold in pairs

	Size	Women	Men

Description

082844	Shoulder Ease Abduction Support
--------	---------------------------------

OmoTrain® Shoulder Support by Bauerfeind®

- Knobbed silicone insert provides intermittent compression to the soft tissue of the joint, which increases circulation, decreases pain and swelling.
- Knitted shoulder support incorporates an adjustable, anatomically contoured silicone insert.
- Ideal for shoulder pain, post-operative, rotator cuff rehabilitation, shoulder subluxation, arthritis and nerve palsy.
- Anatomical knit with graduated compression at the edges prevents constriction of circulation.
- Lightweight, breathable knit will not retain heat and sweat.
- Machine washable.

Titanium (Gray)	Size	Biceps Circumference

082670	6	14.25" to 15.75"

ELBOW SUPPORTS

BandIT® and BandIT XM®

- Helps increase circulation and aids in the prevention and treatment of Repetitive Stress Injuries by reducing inflammation and muscle spasms, and by increasing blood flow and oxygen.
- Aids in the relief of pain associated with tennis, golf, bowling, weight lifting, racquetball, and other similar activities.
- Allows muscles to relax, reducing stress on tendons.
- Can be worn on the right or left arm.
- One size fits most.

	Description
080122	BandIT®
080123	BandIT XM®; With Therapeutic Magnet

Cho-Pat® Tennis Elbow Splint

- Contains a small air cell that focuses more compression on the involved muscle, and not around the arm, providing more support, less constriction.
- Works by absorbing and dispersing forces, relieving stress on forearm muscles and their attachments.
- Velcro® fasteners keep the splint intact.

	Size	Elbow
080125	Small	9" to 10.5"
080126	Medium	10.5" to 12"

EpiPoint® Elbow Strap by Bauerfeind®

- Pressure may be controlled by an adjustable elastic band for a comfortable, precise fit.
- A red warning section on the adjustable band indicates when the strap may be pulled too tightly providing exact compression everytime.
- The pivoting compression pad can be adjusted for the right or left arm, providing correct anatomical pressure and placement for each user.
- EpiPoint provides a high degree of stability while allowing the strap to respond dynamically to muscle movement.

	Description
089220	Elbow Strap, One Size Fits All

EpiTrain® Elbow Support by Bauerfeind®

- Comfortable, lightweight knit support ideal for epicondylitis, elbow strains or sprains, overuse syndromes, and pre and post-operative conditions and chronic edema.
- Does not retain heat.
- Promotes proprioception, thus heightening sensory awareness in the elbow for increased joint stabilization.

Cramer - MTS (Moldable Thumb Spica)

- Heat moldable thermoplastic stay for superior immobilization can be custom molded to accommodate for pressure points, swelling etc.
- Uniquely designed to be applied with one hand.
- Non-stretch hook and loop closure straps at the wrist and thumb ensure proper immobilization.
- Customizing of the thermoplastic splint can be done by immersing in hot water, the use of a hydrocollator or low heat with a heat gun.
- Allows use of the hand while limiting motion at metacarpophalangeal (MP) and carpometacarpal (CMC) joints.

Wristlet

- 4" plastic stay in a suede pocket, backed with Velcro® allows stay to be placed where needed.

One Size Fits All Description

080223	With Abducted Thumb and Movable Stay
080224	With Abducted Thumb
080225	With Thumb Cut-Out

3pp® Carpal Lift™ NP

- Soft, foam-lined splint lifts and supports the wrist to reduce pain on the ulnar (small finger) side of the wrist caused by weakened or torn TFCC ligaments.
- A soft foam pad and adjustable straps lift the ulnar carpal (wrist) bones to reduce the popping and pain felt when gripping, rotating the forearm or pushing up from a chair.
- Easy one-handed application, this splint is soft and breathable for all day comfort. Machine or hand washable. Latex free.
- Reduce pain from TFCC injuries, Ulnar-sided wrist pain and Guyon's Canal Compression.

Left Circumference at MP's

083871	6" - 7 1/4"

ManuTrain® Wrist Support by Bauerfeind®

- Three-dimensional contoured knit has greater breathability and provides better stretch control for a more comfortable, correct fit.
- Two silicone inserts leave radius and ulna pressure free and provide intermittent compression to the soft tissues of the joint, leading to increased circulation, thus aiding in the resorption of swelling and edema.
- Stabilizes the wrist through controlled compression and promotes proprioception, thus heightening sensory awareness in the wrist for increased joint stabilization.
- Removable thermoplastic stay provides therapeutic positioning when needed and may also be contoured to the individual.
- Velcro® strap may be applied for additional support or stabilization.
- Seamless knit between thumb and index finger - enables you to grip objects without irritation.
- Will not retain heat.
- Ideal for pain and instabilities of the wrist, carpal tunnel syndrome, pre-and post-operative inflammatory conditions, wrist sprain, wrist arthritis, and wrist tendinitis.
- Made in Germany with the highest quality standards.
- Machine washable.

HAND SPLINTS

Comforter™ Splint

- The Comforter Splint holds the wrist and MP joints (large knuckles) of the fingers straight to reduce stress on muscles and tendons, making it a great night splint for arthritis sufferers.
- Flexible padded stays protect the fingers to lessen the damaging effects of arthritis and certain neurological impairments.
- The small joints of the fingers and the thumb are free to allow the wearer to manage bedding and nighttime activities. The wrist and the metacarpal joints are supported in a neutral position.
- The neoprene straps include finger holes for independent application and removal of the splint even by those who have difficulties with fine motor skills.
- Quilted cover is removable and machine washable.
- Latex free.

083889

This splint improves alignment of strongly-deviated fingers.

081713

081713-081717 The world's first noninvasive solution for painful trigger finger.

080090

080090-080101 Loop design allows for easy use.

080752

080761

080763

080752-080760 Oval-8® Finger Splints stabilize and align the PIP and DIP joints. Can be used to treat tendon or ligament injuries, protect healing fractures, control unstable joints and more.

Oval-8® Finger Splint

- A fit for every finger - Available in splint sizes 2 through 15, each Oval-8® splint has size adjustability built into the angled band and can be adjusted with heat for a precise fit everytime.

080767

080768

Oval-8® Finger Splints stabilize and align the PIP and DIP joints. Can be used to treat tendon or ligament injuries, protect healing fractures, control unstable joints and more.

083904

Reduce IP deviation due to osteoarthritis.

083907

083907-083909 Adjusts from 0 degrees to near full flexion.

083901

083901-083903 Provides adjustable tension to restore full IP extension.

3pp® Side Step™ Splint

- Adjustable splint applies gentle tension to straighten the middle (PIP) or end (DIP) finger joint.
- Ideal to prevent the progression of deformity in osteoarthritis. May help reduce the formation of Heberden's or Bouchard's nodes on the finger joints.
- Soft foam-lined straps and pads are Latex free. Sizing and fitting by a health care provider is recommended.

	Description
083904	Small
083905	Medium
083906	Large

3pp® Step Down™ Splint

- Lightweight wire splint allows the wearer to control the force to gradually bend fingers stuck in a straight or extended position.
- The 3pp Step Down Splint will help reduce a mild to severe contracture caused by a fractured, jammed finger or tendon injury.
- Soft straps and pads are Latex free.

	Description
083907	Small
083908	Medium
083909	Large

3pp® Step Up™ Splint

- Lightweight wire splint uses adjustable tension to straighten fingers stuck in a flexed or bent position. The wearer controls the amount of force applied.
- Whether due to a jammed or fractured finger, or a tendon injury, the 3pp Step Up Splint will help reduce a mild to severe contracture.
- Soft foam-lined straps and pads are Latex free. Sizing and fitting by a health care provider is recommended.

090463, 090467

010341

010341, 090289 Features dual thermostatic controls (175 degrees F on high and 160 degrees F on low) that can be adjusted individually to conform to particular requirements.

013092

**See Splinting Supplies
& Equipment Checklist on page 294**

IONTOPHORESIS

Ionto Device

- 2 channels to treat 2 sites or deliver 2 medications simultaneously.
- Previous dosage can be set as default to maintain frequently used treatment parameters.
- Beeping alerts if electrode fault for open current or high impedance.
- Automatic 30 seconds current ramp up and down during power on/off keeps patient comfortable.
- Constant current provides precise, accurate delivery regardless of skin impedance.
- Current can be set in 0.1 mA increments between 0.5mA and 4mA.

Description

030783 Dual Channel Ionto Device

CLINICAL ELECTROTHERAPY

Intelect® Legend XT

- Allows addition of (2) Channels of Electrotherapy or a Battery Module.
- Dual frequency ultrasound at 1 or 3.3 MHz.
- Includes Patient Interrupt Switch, (5) Patient Data Cards, (1) 5 cm² Sound Head Applicator, Channel 1 and Channel 2 Electrotherapy Leadwires, (4) 2.75" Dura-Stick® II Electrodes, (2) 3" Black Rubber Carbon Electrodes, (2) 3" Red Rubber Carbon Electrodes, (2) Nylatex® Wraps and (1) 8.5 oz. Conductor™ Ultrasound Gel.
- Therapy Systems cart maximizes storage of clinical supplies and organizes cables.

PORTABLE ELECTROTHERAPY

Pro Advantage TENS

- Dual Channel, 3 Modes, Timer, & Safety Amplitude Cap.
- Microprocessor Technology for precision dial performance.
- Wave Form: Asymmetrical Bi-Phasic Square Pulse.

Analog	Description
030481	2-Channel Analog TENS Unit with Timer

Digital	Description
032041	2-Channel 3 Mode Digital TENS

Ultima Five

- Digital 5 mode TENS unit with 2 wave forms and a large LCD screen.

	Description
030181	5 Mode TENS Unit

Impulse® Tens D5

- Safe to wear, even at night.
- As a safety feature, the amplitude drops to "0" when the modes of operation are changed or when the lead wires or electrodes become detached from the patient.
- Sleek, digital, two-channel unit has a flip-top safety cover to prevent buttons from being accidentally pushed during wear.
- Lightweight unit features LCD screen and large push buttons.

	Description
030405	Impulse Tens D5

Impulse® EMS D7

- Designed for simplicity and clinical effectiveness.
- Easy-to-read LCD screen and digital keypad.
- Simple-to-understand instructions guide the user through all of the device's operations.
- Includes seven pre-programmed protocols to ensure ease of use.
- Unit features three types of stimulation patterns: continuous, cycled, or reciprocating and adjustable rate and pulse width.

	Description
031224	Digital Muscle Stimulator

EMS® 2000

- Dual channel, analog EMS device that increases range of motion, reduces muscle disuse atrophy, re-educates muscles, prevents venous thrombosis, and improves blood circulation.

Analog EMS	Description
030480	EMS® 2000

BioStim® INF

- The BioStim INF Interferential Stimulator utilizes a pulsed sine wave to stimulate tissue to reduce pain and decrease inflammation.
- Three pre-programmed sweeps for easy setup and patient instruction.

Digital Interferential	Description
030081	BioStim® INF

BioStim® NMS2

- Versatile, dual-channel unit functions as an NMS or TENS with maximum control for optimal results.
- The device has seven preprogrammed therapies based upon clinical studies and three types of stimulation: continuous, cycled or reciprocation.

Description
031623

BioStim® SD

- Compact, lightweight and functional, dual-channel, four-lead TENS.
- Multiple modes ensure patient success, and the patient will be less apt to acclimate to the therapy when the unit is worn for long periods of time.
- Four programmable functions include: continuous, cycled burst, strength duration (SD) 1, and strength duration (SD) 2.
- SD1 and SD2 provide stimulation to all (more than 100) nerve groups that cause pain, eliminating the guesswork of setting up the device.

Description
031622

DC/AC Point Stimulator

- Used in the evaluation and treatment of muscle dysfunction caused by peripheral and C.N.S. Disorders.
- Most commonly used for preventing or retarding disuse atrophy, relaxing muscle spasms and muscle re-education.
- Ideal for facial and smaller peripheral muscles.
- 2 year warranty on materials and workmanship.

Description
030038

GV 350®

- Two active outputs and one dispersive return.
- Twin peak monophasic waveform.
- 1 Hz - 100 Hz adjustable pulse rate.
- Offers continuous or alternating stimulation (alternates between channel one and channel two over five-second intervals).

Description
031624

Micro Plus® - Microcurrent Device

- Micro Plus® Microcurrent Electrical Nerve Stimulator is a Two Channel analog device with 3 polarity settings: Positive, Negative, and BiPolar.

Analog Microcurrent	Description
030479	Micro Plus®

QuadStar® II

- Fully loaded electrotherapy system.
- Portable four-channel device delivers NMS, INF, and TENS sequential stimulation. Great for sports medicine, physical therapy or anyone looking for the convenience and results of three units in one.

Description

030156
Easy to operate with digital monochromatic touch screen interface. Patient data cards record up to (14) treatment sessions. 270 degrees pivoting user interface.

030150
Fully Adjustable. Allows the TX Traction device to be used with most tables. Traction unit sold separately.

030775

TRACTION

Dynatron® 900+ Traction System

- Produces up to 200 pounds of traction tension force.
- Adjustable traction speed with timer.
- One Year Warranty.

Description	
031251	Dynatron® 900+

Dynatron® DX2 Traction System

- Delivers decompression therapy and features 3 channels of light therapy.
- Automatically calculates and digitally displays the rope angle allowing for targeted decompression.
- The interactive touch screen display facilitates patient education and makes treatment set-ups fast and easy.

Description	
031254	Dynatron® DX2 Traction System

TX® Traction Unit

- Store up to (10) user defined protocols.
- Intermittent, static and cyclic traction.
- Progressive and regressive steps.
- User-defined hold, rest and treatment times.
- Traction tension parameters: 0 to 200 lbs
- Built-in safety features with patient interrupt switch, cervical maximum poundage warning and audible signal at the end of treatment and if Patient Interrupt Switch is activated.

Description

BAL 2055 Agility Traction Head

- Modes of operation are Intermittent, Static and Harmonic.
- Minimum force of 5 lbs and maximum of 200 lbs
- Equipped with variable speed control, that enables the Therapist to have an almost infinite adjustment of speed in the Pull and Relax modes.
- Includes patient safety switch (manual release), warning alert, and automatic shut down if circuit malfunction is detected.
- Treatment time from 1-99 minutes.
- Power supply 100- 120V and 220-240V.

Description	
030775	BAL 2055 Agility Traction Head

TRACTION TABLES

Balance Traction Agility Model BAL 2050

- Gas struts, hand lever activated, providing smooth adjustment at moveable top sections.
- Cushion width of 28" (71 cm) x length of 89" (224 cm).
- Dual foot lever retractable heavy-duty hospital grade casters (4).
- FDA/UL/CSA/CE listed with hospital grade electrical cord and 3-prong plug.
- ADA Compliant.
- Frame designed for patient assisted lift accessibility, for ease of patient transfer.
- Cushions secured to the heavy-duty metal frame with an integral T-Nut Bolt assembly.
- Hands free, foot operated up/down elevation levers.
- Color choices: Burgundy, Pewter Gray, Jade Blue, Tan Bisque, Cream, Black, and Imperial Blue

Dynatron® Hi Lo Traction Table

- 500 lb lifting capacity.
- 30" x 78" table size.
- Height adjusts 18" to 36".
- Standard 4" two-way locking casters.

Description	
031252	4-section Traction Table

012514

012514-012515, 012517, 012519, 012523

Two of the four sections are designed to slide and can be locked in place with a friction free locking mechanism with a spring to control the proper tension required. The back and head section raise and lower. A flexion stool and traction head platform are provided and the platform is designed to mount traction devices.

031252

Comes in 13 Naugahyde color choices.

Dynatron® T4 Traction/Decompression Table

- Manual traction pull bar.
- Mobilization strap attachment bar.
- 4" dual locking casters.
- Dual full length foot switches.
- Swing away traction pedestal.
- Available in 13 Naugahyde colors.

Description	
031253	Dynatron® T4 Traction/Decompression Table

TTFT-200 Traction Table

- Two sections.
- Traction unit pedestal.
- 350 lb working load capacity.
- Traction unit sold separately.
- 1 year warranty.

DynaWrap® Traction Belts

- Disperses force over larger areas due to unique shape.
- Tapered design contours to the body while resisting slippage.
- Strong Velcro® closure securely holds against traction forces while being easy to apply and release.
- Package includes Thoracic belt, Lumbar belt, circumferential belt for Lumbar, and Y-strap for securing to the table.

	Description
031255	DynaWrap® Traction Belt Package

RB Traction Table Pillow

- Increases comfort and support during treatment.
- Protects traction tables from wear and tear.
- For use with mechanical cervical traction devices or during manual traction.
- Vinyl cover is easy to clean.
- Made in the USA.

	Description
031212	RB Traction Table Pillow

Traction Table Belt System

- Universal design fits all patient sizes and traction tables.
- Nylon straps slide easily for hassle free adjustments.
- Buckle locks belt instantly into place.
- Swivel clip attaches belt to traction device with minimal effort.
- Made in the USA.

	Description
031211	Traction Table Belt System

030897

Eliminates uncomfortable head halter and TMJ pressures. Unit pulls at base of occiput for more effective cervical traction.

030934

No need to re-thread the belts to vary patient position or traction technique.

027419

031255

Uniquely shaped traction belts are designed to be more comfortable.

031212

The pillow is constructed with high-quality, precision-cut foam to ensure years of comfort and use.

031211

Designed for the professional to fit the patient in one minute or less.

090802

The Traction Table Knee Bolster Set is a durable aid for clinical or home use. Featuring independent bolsters to support each leg, this set is a fully functional, easy to use accessory

031256

030906

Height adjusts from 13" to 20".

031233

Allows Clinicians to monitor two muscle sites simultaneously.

031232

MyoTrac Infniti clinical model also available with BioGraph Infniti software.

031234

Portable, reliable EMG unit is appropriate for the home, clinic or office.

Traction Table Knee Bolster Set

- The Traction Table Knee Bolster Set is a durable aid for clinical or home use.
- Featuring independent bolsters to support each leg, this set is a fully functional, easy to use accessory.
- Constructed from precision cut, high quality foam and encased in an easy to clean vinyl cover, it also features positioning straps on each bolster to provide easy repositioning.
- The Traction Table Knee Bolster Set provides positioning at height of 7" or 10.5" height to ensure patient comfort during supine traction.
- For traction or positioning in the prone position, the 7" height is ideal for supporting and elevating the ankles to reduce tension in the hamstrings.
- Made in the USA.
- Available in black.
- Set of 2 Knee Bolsters.

Description

BIOFEEDBACK

MyoTrac 3 Infniti

- A highly sensitive dual channel SEMG biofeedback device.
- The Clinical system includes BioGraph Infniti Software.
- Over 100 pre-programmed protocols, categorized by body parts, as well as open protocol.
- Vaginal and rectal sensors sold separately.

Description

031233 MyoTrac 3 Infniti

MyoTrac Infniti with Stim

- Offers 2 channels of surface electromyography (SEMG), 2 Channels of Stim and 2 channels of SEMG-Triggered Stim.
- Touch Screen.
- Over 100 pre-programmed protocols, categorized by body parts, as well as open protocols.
- Clinical Guide Includes treatment specific print out sheets to document patient progress.
- Patient Lock Feature.
- Vaginal and rectal sensors sold separately.

Description

031232 MyoTrac Infniti with Stim

MyoTrac Portable EMG

- Pre-amplification at the treatment site to ensure an extremely clean signal.
- Provides immediate feedback on muscle activity through a bright 13 segment LEDs and a proportional tone.
- Key features are alarm function, lock function, and ability to set the band pass for wide or narrow placement and above and below threshold for tonal feedback.

Description

031234 MyoTrac Portable EMG

U-Control EMG

- Built in 5 or 10 second work/rest protocol that corresponds directly to microvolts based on the threshold chosen.
- Features three settings for sound, an earphone for privacy, adjustable volume control and LEDs to provide instant feedback.
- Includes a 9-volt battery and carrying case.
- Vaginal and rectal sensors sold separately.

Description

031235 U-Control Single Channel EMG Device

Pathway™ MR Series Surface EMG Biofeedback System

- Continuous operation or work/rest prompts.
- Automatic data storage of (32) patient training sessions.
- Computer output.
- Pathway™ Utilities/Compliance software included for data download and real-time graphics.
- Functional electrical stimulator interface.
- Easy to operate.
- Goal types include: above/below tone, above/below stim and maximum display with marker. Also features matrixed audio tone and A/B ratio for dual channel systems.

Description

030040 MR-25
030041 MR-20
030042 MR-15
030043 MR-10

Pathway™ STM-10

- (4) duty cycles, (4) frequencies, (6) treatment times, tactile buttons for enhanced control and uses a 9V battery.
- Use Pathway vaginal or rectal EMG/Stimulator sensors.

Description

030101 Vaginal and Rectal Intracavity Stimulation Module

031235

Designed specifically for incontinence .

030040

With vivid tri-color LED displays.

030041

With Alpha/Numeric LCD displays.

030042

With Alpha/Numeric LCD displays.

030043

With vivid tri-color LED displays.

Pathway™ TR Series Patient Units

- LED visual display.
- Easy to operate.

Description

030044 TR-20 Dual Channel EMG Trainer
030045 TR-10 Single Channel EMG Trainer

Synergy™ 3-Dimensional Software

- Embedded, modified and linked application and patient protocols.
- Four channel displays.
- On-line statistics.
- 3-dimensional graphics, templates and animation.
- Insert patient demographics, intake questionnaire and bladder diaries.
- Review and print reports and compare sessions and diaries.
- EMG, stimulation and pressure combination.

Description

030055 Synergy™ 3-Dimensional Software

Stabilizer™

- Monitors the position of the low back or cervical spine during muscle testing to determine if the patient is able to selectively isolate their cervical or lumbopelvic core stabilization muscles.
- Provides a patient feedback as to when they have isolated and are maintaining a contraction.
- Includes a display gauge, pressure cell and instruction booklet.

Description

030099 Stabilizer™ Unit

030099

The measuring range is from 0 to 200 mmHg analog pressure with an accuracy of +/- 3 mHz pressure. Squeeze bulb to inflate and loosen screw valve to deflate. Simple enough to use during a home exercise program.

030101

Microprocessor controlled and auto step-through program

030044

Continuous operation or work/rest prompts.

030045

Continuous operation or work/rest prompts.

031241

022063

Anatomically correct rectangular shape electrodes enhance EMG signal pickups with high sensitivity silver/silver chloride snaps.

030062

030053

Use with Pregelled electrodes.

030051

To adapt the pelvic muscle EMG channel for the EMG clinical units and patient units to sensors or lead wires.

031237

For single patient, multiple use monitoring pelvic floor muscles.

ELECTRODES/SENSORS

UniGel Electrodes

- Pre-gelled single electrodes, 100/pkg.

Description

031240 UniGel Electrodes

Triode Electrodes

- Standard 2cm spacing of silver-silver chloride electrodes.
- Backed with Nickel snaps plated brass to prevent corrosion when connected to pre-amplifiers.

Description

031241 Triode Electrodes, 100/pk

Pathway™ EMG/Biofeedback Electrodes

- For the EMG Clinical Units, EMG Clinical Unit System Configurations Patient Units.
- Rectangular 3 snap in a row style

Description

022063 Pathway™ Electrodes 100/Pack

030062 Easytrode™ Pregelled Electrodes 150/Bag

Pathway™ Electrode Lead Wire Set

- 24" Electrode Lead Wire Set.
- External pelvic muscle EMG lead wires for the EMG Clinical Units, EMG Clinical Unit System Configurations and Patient Units.
- Use with pregelled electrodes.

Description

030053 24" Electrode Lead Wire Set

Pathway™ Adapter

- To adapt the pelvic muscle EMG channel for the EMG Clinical Units and Patient Units to the Pathway™ Vaginal/Rectal Sensors, or the Pathway™ EMG/Stimulation Sensors or the 24" Electrode Lead Wire Set.

Description

030051 Adapter for Incontinence.

Rectal Sensor No Stim

- The T-bar ensures repeatability of measurement with respect to orientation and depth placement between uses.
- The small overall size and bulb configuration enable comfortable and secure seating of the sensor in a number of client positions including walking, standing or prone.
- For use with MyoTrac 3 and U-Control

Description

031237 Rectal Sensor No Stim

Rectal Sensor with Stim

- The electrode used to sense the accessory muscles in a surface EMG electrode.
- A surface EMG electrode can also be used to sense pelvic floor muscles activity instead of the vaginal or rectal electrode.
- For MyoTrac Infinity units.

Description

031239 Rectal Sensor with Stim

Vaginal Sensor No Stim

- The T-bar ensures repeatability of measurement with respect to orientation and depth placement between uses.
- The small overall size and bulb configuration enable comfortable and secure seating of the sensor in a number of client positions including walking, standing or prone.
- For use with MyoTrac 3 and U-Control

Description	
031236	Vaginal Sensor No Stim

Vaginal Sensor with Stim

- The electrode used to sense the accessory muscles in a surface EMG electrode.
- A surface EMG electrode can also be used to sense pelvic floor muscles activity instead of the vaginal or rectal electrode.
- For MyoTrac Infinity units.

Description	
031238	Vaginal Sensor with Stim

Pathway™ EMG/Stimulation Sensors

- Intracavity sensor for the Pathway™ CTS 2000, EMG Clinical Units, EMG Clinical Unit System configurations, patient Units, Liberty™ PFS-200 Electrostimulation unit and other.

TheraBand® Roller Massager

- Unique ridged design supports both superficial and deep tissue mobilization.
- Portable version features patented retractable handles that's perfect for travel and on the go applications.
- Highly durable latex-free thermoplastic material for extended life and easy cleaning.
- Handles designed to support trigger point release.
- Detailed color instructions featuring general techniques and advanced exercises.

Description

030808 Standard Roller Massager

030809 Portable Roller Massager

Thera-Cane®

- Therapeutic Massager that applies pressure to treat muscle dysfunction.
- Ergonomic Design enhanced leverage for easy use.
- 6 Strategically placed balls for full-body massage.
- Recommended by pain management professionals, chiropractors, and physical therapists for home therapy.
- Two year limited warranty.

Description

050060 Thera-Cane

The Therapist's Thumb

- Developed to help massage therapists and chiropractors protect their hands and thumbs.
- Takes pressure off the thumb and transfers it throughout the entire hand.
- Deep tissue and trigger point massage can be performed with less stress on thumb or carpometacarpal joint.
- The hand-held design allows for skin to skin contact and acts as an extension of your hand.

Size

090792 Large

090793 Small/Medium

The Knead

- Multi adaptable soft tissue mobilization tool that provides myofascial release of tension.
- Can be used over clothing or directly on the skin with a massage lubricant.
- Cleans easily with soap and water.

Description

022891 The Knead

MyoTool

- Specifically designed to allow patients to self-perform many of the techniques they receive in a clinical setting.
- The two center knobs are spaced to be aligned with the spinal facet joints and paraspinal musculature.
- The design of the long axis without projections allows the tool to be used for pumping massage and spinal mobilization.
- The large endknob is for broader/softer pressure.
- The small endknob is for specific/deeper pressure.
- Bi-knobs and tri-knobs allow for a wider variety of treatment pressures and are very effective at treating the plantar fascia and the first rib.
- The C-shape allows for both hands to be used providing very specific and controlled pressure over the soft tissues and joints.
- The length of the MyoTool gives the user leverage so that little effort is needed to generate an effective pressure to the treatment area.

	Description
010580	MyoTool

Pro-Tec Roller Massager

- Raised Vynafom® sections that sink into soft tissue to roll out tightness.
- Rounded grip ends to provide precision trigger point release.
- Full color instruction manual with massage, trigger point exercises, and techniques for your entire body.
- Get deep tissue stimulation, maximum muscle performance and flexibility, and an expedited recovery.
- Great tool for Myofascial Release.

	Description
030777	Pro-Tec Roller Massager

RangeRoller

- Medium stiffness and convenient size make it perfect to take anywhere.

Sciatica

When dealing with back or spinal disorders and injury the Bambach Saddle Seat greatly increases the opportunity for overall improvement. A conventional flat seat cannot prevent postural collapse since these seats all require the pelvis to rock backwards.

To correct this problem the sitter must compensate with the spinal muscles in order to sit up straight causing the abdominal and spinal muscles to be unbalanced because the spine is out of its normal curvature.

Contact Hager Bambach today for a free demonstration or to learn more about how you can change your back for the better.

Support Team

Back pain can make life miserable. But what most people don't realize, is that partial or total relief from back pain is a simple matter of changing the way you sit.

The problem with conventional seating versus the Bambach Saddle Seat is that conventional seating forces your spine into an unnatural "C" shape instead of its natural "S" shape. This unnatural position causes a host of problems in the head, neck, shoulders and back areas, resulting in pain or worse - damage to the spine.

Contact Hager Bambach's Support Team today for a free demonstration or to learn more about how you can change your back for the better.

Bambach Ergonomic Saddle Seat

- Dramatically improves sitting/working position and vision
- Adjusts to user's proper working height
- Extends practitioner's work life by maintaining the spine's stress-free natural S-shape
- Practitioner's anatomic disorders are rehabilitated; therefore, advanced wellness is achieved
- Complete balance between the front and back pelvic muscles is maintained
- Natural posture eases pain in arms and hands
- Upper limb performance is enhanced by improved posture
- User feet are in full contact with the floor which helps support your trunk, putting less strain on your back muscles
- Relieves stress on neck muscles and vertebrae; thereby, reduces headaches

012810	36"	18"	32" - 44"

Accessory Box

- To use with the Weight Sled, simply remove the weight holders and insert the accessory box.
- Removable rubber mat.
- Natural finish.

	Length	Width	Height
012811	30"	15"	6"

Push-Pull Sled Station

- Ergonomic grip handles at each end of sled at (3) different height levels.
- (4) removable weight pins with locking collars for optional disc weights.
- Self-lubricating polyethylene sled runners.
- 10 Day Quickship.

	Depth	Width	Height
012808	40"	24"	46"

Adjustable Height Shelf

- Shelf height adjusts as low as 6" from the base of 48" high in 6" increments.
- Chrome Plated with Natural wood finish.
- Product dimensions: 36"L x 36"W x 48"H.

Description

012812 Adjustable Height Shelf

012813 Sorting Bin

Multi Purpose Bolt Module

- Bolt board can be used either horizontally, vertically, at a 45 degree angle or in the Lift Station.
- Includes (30) various bolts and nuts in (5) different types and sizes.
- Includes (2) screwdrivers, (2) wrenches, (1) Allen wrench.

	Depth	Width	Height
012809	17"	28"	18"

Small Electrical Assembly Center

- This table top center simulates multiple job tasks that involve assembly activities that range from simple to complex.
- Basic electrical assembly supplies included.
- Natural wood finish.

	Description	
012815	Electrical Assembly Center	

Wall Mounted Work Station

- The height adjustable feature allows the therapist to recreate a variety of working postures.
- Widely spread pattern of bolt holes, includes a variety of fasteners.
- Wall mounting hardware NOT included.
- Chrome plated with Natural wood finish.

	Length	Width	Height
012814	48"	10"	4" - 8"

Weight Box

- (2) hand grip slots each side.
- 3/4" plywood core covered with high pressure Oak laminate protective finish.
- Includes one removable metal weight pin with locking collar to accommodate optional disc weights.
- 3mm High Impact edging.
- 75 lbs Weight Capacity.
- 5 Day Quickship.

"Carry-All"	Depth	Width	Height
012801	14"	14"	14"

"Packing Carton"	Depth	Width	Height
012803	14"	14"	14"

012802	17"	17"	14"

"Tool Kit"	Depth	Width	Height
012804	14"	19"	14"

Lift & Place Rack Station

- 3mm PVC High-Impact edging for greater durability.
- Simulates lifting and loading tasks.
- (2) adjustable oak high pressure laminate shelves "lock" into side mounted rails.
- Shelves adjust from 28" to 59" high.
- Each adjustable shelf has 100 lb weight capacity.
- Rack station must be secured to wall.
- 10 Day Quickship.

	Depth	Width	Height
090991	18"	30"	78"

012815
This unit encourages upper extremities range of motion and working in confined spaces.

012814
A wall mount unit designed to improve manual dexterity.

012801
Fixed wooden tote handle.

012803
Hinged lid to conceal contents.

012802
Two hand grip slots on each side.

012804
Fixed wooden tote handle.

090991
Simulates tasks that involve moving and conveying equipment and materials.

CLINICAL EQUIPMENT

010221

010217

010217-010218 Electric height adjusts 27" to 37" for adults and 17" to 27" for children and width adjusts manually from 15" to 27"

010215

010215-010216 Handrails adjusts electrically for height from 27" to 37" and width from 13" to 25". Styrene-coated, tapered maple bases provide taut, long wearing, secure footing for easy usage.

010236

Placement Ladder consists of (11) variably placed ladder steps. Each ladder step has dowel pins, which fit into grommets holes of platform. The spacing and location of ladder steps can easily be adjusted for patient's gait training.

010225

Satin-finish hardwood platform with tapered hardwood ends for easy wheelchair access.

POWER PARALLEL BARS

Econo-Line™ Power Height Parallel Bars

- 10' long hardwood platform with tapered ends.
- Motorized height adjustment and manual width adjustment.
- Width between uprights is 26.5"
- Tapered ends with anti-slip tread for easy wheelchair access.
- Push button controls and digital bar height readout.
- 400 lb weight capacity.
- 10 Day Quickship.

	Length	Width	Height
010221	10'	15" - 28"	29" - 44"

Electric Height Adjustable Parallel Bars

- Brackets included to lower rails to child height.
- Includes manual override crank and removable abduction board.
- 010218 (not shown) is 15' long with (6) uprights.
- Hospital grade plug. 120 V, 60Hz, 5 Amps, UL Listed.
- Styrene-coated tapered wood base provides long wearing, secure footing for easy usage.
- 300 lb weight capacity.

	Length	Width	Height
010217	10'	15" - 27"	27" - 37"
010218	15'	15" - 27"	27" - 37"

Electric Height and Width Adjustable Parallel Bars

- Base wedges are tapered to accommodate wheelchairs.
- Handrails adjusts electrically for height from 27" to 37" and width from 13" to 25".
- Width between uprights is 25".
- Includes manual override crank and removable abduction board.
- 010216 (not shown) is 15' long with six uprights.
- Hospital grade plug. 120 V, 60Hz, 5 Amps, UL Listed.
- 300 lb weight capacity.

	Length	Width	Height
010215	10'	13" - 25"	27" - 37"
010216	15'	13" - 25"	27" - 37"

Mobility Platform (with Electric Height Bars)

- Motorized height adjustment from 29" to 44" high.
- (4) direct drive synchronized lifting columns.
- Control Panel located near entry end of bars.
- Push button controls and digital bar height readout.
- Width adjusts manually from 15" to 28" wide with easy to use control knobs.
- Width between uprights is 26 1/2".
- 10' Satin finish hardwood platform with recessed grommets holes on surface.
- Balance Beam is 6'5"L x 6"W x 3"H and is equipped with anti-slip surface and dowel pins.
- Tapered ends with anti-slip tread for easy wheelchair access.
- 110V, 60Hz, 2.5 Amps.
- 400 lb weight capacity.
- 10 Day Quickship.

	Length	Width	Height
010236	10'	15" - 28"	29" - 44"

PARALLEL BARS

Platform Mounted Parallel Bars

- (2) rubber "anti-slip" tread on each end.
- 1.5" diameter one-piece, stainless steel handrails.
- Each upright can telescope and lock into height position with fail-safe ball-tip locking pin
- Secure Lock System provides even more stability to our sturdy uprights.
- 400 lb weight capacity.
- 3mm top edge for greater durability.
- 5 Day Quickship.

	Length	Width	Height
010225	10'	26"	28" - 41"
050065	7'	15" - 28"	29" - 42"

Accessories Description

Accessories	Description
010231	Abduction Board
010232	Non-Slip Matting

Adjustable Height Single Operator Parallel Bars

- Every height adjustment necessary can be made from a single location.
- Durable, safe and very simple to use with the height and width permanently stamped on frame.

	Length	Width	Height
012407	12'	17.5" - 25.5"	31" - 41"
012610	10'	17.5" - 25.5"	31" - 41"

Bariatric Parallel Bars

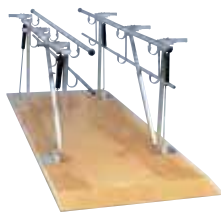

- 10' x 45" wide gray laminate platform with anti-slip surface treads and tapered ends for easy wheelchair use.
- 1 1/2" diameter one-piece stainless steel handrails.
- (6) heavy gauge steel uprights from 26" to 39" in height and locks securely in place with locking pins.
- Width adjusts from 22" to 35" with ergonomic control knobs to accommodate Bariatric or obese patients.
- 35" wide clearance between uprights allows use with wider wheelchairs.
- 600 lb weight capacity.
- Secure Lock System provides even more stability to our sturdy uprights.
- 10 Day Quickship.

	Length	Width	Height
090966	7'	22" - 35"	29" - 42"
010000	10'	22" - 35"	29" - 42"
010278	10'	20" - 34"	26" - 39"

Crank Height Adjustable Parallel Bars

- Hand crank height of each stainless steel handrail adjusts from 26" to 39".
- Hand controls allow easy adjustment of width from 16.5" to 24.5"
- Ruled height and width adjustments.
- Includes removable abduction board.
- 400 lb weight capacity.
- 10 Day Quickship.

	Length	Width	Height
010219	10'	16.5" - 24.5"	26" - 39"
090967	15'	16.5" - 24.5"	26" - 39"

012407

012407, 012610 One person can change these bars faster than any other manually adjusted bars.

010219

Wood platform covered with non-slip textured styrene in gray finish with tapered ends for easy access.

010223

010223-010224 Each upright can telescope to desired height and easily lock into height position with ball-tip locking pin

010000

Height & Width Adjustable

012411

012411-012415 Durable, safe and very simple to use with height and width permanently stamped on frame.

012615

012614-012615 Each upright telescopes up to 13" and locks into (9) height positions with fail-safe ball-tip locking pin

010278

3rd upright for extra support Extra width for bariatric patients.

Floor Mounted Parallel Bars

- Consists of (2) 1.5" diameter, one-piece, stainless steel handrails and (4) floor mounted uprights with mounting plates.
- Width adjusts from 15" to 28" wide with ergonomic hand control knobs.
- (6) uprights for bars 14' or longer.
- Secure Lock System provides even more stability to our sturdy uprights.
- 400 lb weight capacity.
- 3 Day Quickship.

	Length	Height

010222

Mounts against wall and folds with Velcro® straps.

012607

012607, 012612 (2) uprights extend into room and quick-mount to floor plates. Patient can circle around bars without stopping or turning around.

010240

Each upright telescopes up to 13" and locks into (9) height positions with fail-safe ball-tip locking pin Shown with Placement Ladder.

050071

050073

The VestiVibe

- Vestivibe is a combination of whole body vibration (wbv) and a multi-axis rotating chair that can help improve balance and coordination.
- The Multi-Axis Rotating VestiVibe can be positioned in flexion, extension, lateral flexion positions.
- The VestiVibe provides vertical micro hits of gravity that enhances the gravity that is already there in order to create the clinical and training compression that we need to stimulate our nerves, to mobilize joints and to strengthen our muscles to enhance our function.

	Description
050073	VestiVibe

Wall Folding Parallel Bars

- Stainless steel handrails.
- Requires only 14" of floor space.
- Folds up against wall when not in use.
- 400 lb load capacity.

	Length	Width	Height
010222	7'	28"	28" - 42"

Height & Width Adjustable Platform Mounted Parallel Bars

- Each upright can telescope and lock into height position with fail-safe ball tip locking pin
- Width adjusts from 15" to 28" with ergonomic control knobs on each upright
- Secure Lock System provides even more stability to our sturdy uprights.
- (2) rubber "anti-slip" tread on each end.
- 400 lb weight capacity.
- 3mm top edge for greater durability.
- 5 Day Quickship.

	Length	Width	Height
010277	7'	15" - 28"	29" - 42"
010227	10'	15" - 28"	29" - 42"
010228	12'	15" - 28"	29" - 42"

Hemiplegic Parallel Bars

- Floor mounted parallel bars designed for patients with strength or mobility on only one side.

	Length	Width	Height
012607	7'	20"	26" - 39"
012612	12'	20"	26" - 39"

Patented Ambulation and Mobility Platform

- (2) anti-slip treads on each end.
- 1.5" diameter one-piece, stainless steel handrails.
- Satin-finish hardwood platform with tapered hardwood ends for easy wheelchair access.
- Includes Placement Ladder, which consists of (11) variable placed ladder steps and the Balance Beam, 6'5"L x 6"W x 3"H, with non-slip treads. It has dowel pins that fit into pre-drilled holes on platform surface. Both of these can be used at the same time.
- 400 lb weight capacity.
- Secure Lock System provides even more stability to our sturdy uprights.
- 5 Day Quickship.

	Length	Width	Height
010240	10'	15" - 28"	29" - 42"

The Tunnel Walk

- The Tunnel Walk provides vertical micro hits of gravity that enhances the gravity that is already there in order to create the clinical and training compression that we need to stimulate our nerves, to mobilize joints and to strengthen our muscles to enhance our function.
- The Tunnel Walk, more functional than any other rehab equipment, provides an overhead track system, providing the freedom to move in the 3 planes of motion without the fear of falling.
- Users can crawl, kneel, walk sideways, backwards and frontwards.
- Allows you to do functional exercises using weighted balls, walkers, wheel chairs, and much more.

050072	16'

PULLEY WEIGHTS

Chest Pulley Weight

- Superb rehabilitation and exercise device for both wheelchair and ambulatory patients.
- Equipped with (2) weight carriers, one on each side.
- Each weight carrier accommodates up to (5) 2.5 lb disc weights (total 25 lb).
- 25 lb weight capacity.
- 1 Day Quickship.

	Depth	Width	Height
010265	8.5"	30"	63"

Duplex Chest Pulley Weights

- Superb rehabilitation and exercise device for both wheelchair and ambulatory patients.
- Equipped with (2) weight carriers, one on each side.
- Each weight carrier accommodates up to (5) 2.5 lb disc weights (total 25 lb).
- 25 lb weight capacity.
- 1 Day Quickship.

	Depth	Width	Height
010266	8.5"	30"	63"

Triplex Pulley Weights

- Superb rehabilitation and exercise device for both wheelchair and ambulatory patients.
- Equipped with (2) weight carriers, one on each side.
- Each weight carrier accommodates up to (5) 2.5 lb disc weights (total 25 lb).
- 25 lb weight capacity.
- 1 Day Quickship.

	Depth	Width	Height
010267	8.5"	30"	96" - 144"

Combo Duplex Pulley/Mirror Rack

- Durable black laminate finish on all surfaces.
- Base plate has bumper T-molding all around.
- (2) handles at chest level and (2) handles at floor level. Disc weights can be added in 2 lb increments up to a maximum of (5) 2 lb disc weights per each side (Total of ten 2 lb disc weights per unit).
- Includes dumbbell racks for (10) dumbbells each on both left side and right side of rack. Includes a total of (20) color-coded vinyl-coated dumbbells (two each, 1 lb to 10 lb).
- 300 lb weight capacity.

	Depth	Width	Height
011211	28"	24"	73"

STAND-IN TABLES

Adjustable Standing Box

- Offers independent adjustments for tray height, width and depth.
- Padded width, knee and depth panels.

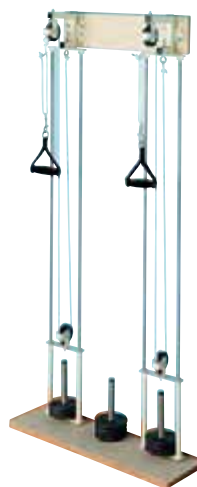

Adult	Length	Width	Height

Child	Length	Width	Height
012103	24"	24"	26" - 43"

Bariatric Electric Stand-In Table

- Motorized height adjustment of top from 42.5" to 52.5".
- Unit can Power Lift 500 lb Patient from sitting to standing position.
- Hand Control adjusts patient height and lifts patient into position.
- Padded knee, chest and back supports.
- Laminate extra-wide top is 40.5" W x 25.5" D with raised rim.
- Includes patient lift harness.
- Heavy gauge steel frame in cream powder coated finish.
- 115V, 60Hz, 3.5 Amps.
- 500 lb weight capacity.

	Width	Depth	Height
010034	43"	42"	42.5" - 52.5"

010265

Wall stringer has "smooth action" sets of

nylon pulleys with (1) pair of handles mounted at chest height.

010266

(1) Pair of handles mounted at chest height.

010267

DISC WEIGHTS CAN BE EASILY ADDED OR REMOVED FROM WEIGHT CARRIERS. Ceiling stringer has smooth nylon pulleys with (1) pair of overhead handles. Chest stringer has (1) pair of handles. Floor plate is equipped with (1) pair of handles for floor level use.

011211

Reverse side of rack has full view distortion-free glass mirror with ANSI "shatter-stop" safety backing. Back side features "smooth action" nylon pulleys for easy use, with rubber bumper "stops."

012104

012103

010034

Retractable, swiveling casters with convenient locking brake handle.

CLINICAL EQUIPMENT

010234

010234, 090983
Can power lift a 300 lb patient from sitting to standing position.

090983

Can power lift a 300 lb patient from sitting to standing position.

010127

Non-slip tread and bottom surface and positive lock adjustment handles.

010111

Ideal for range of motion. Folding legs for easy storage.

012101

Secure latching door holds patient in place

012102

010136

A proven therapeutic product with a lifetime guarantee.

091154

Reformer accessory used for plyometric training. Wide platform and firm padded surface allows for biomechanically sound foot placement.

Hi-Lo Stand-In Table with Electric Lift

- 33.5" x 25" laminate top with raised rim. Cut out size is 19" x 10".
- Padded knee, chest and back supports holds patient in standing position.
- Heavy gauge steel powder coated frame.
- Motorized height adjustment of top.
- Retractable swivel casters with locking brake handle on 010234.
- (4) locking 3" diameter heavy-duty casters for 090983 only
- Assembled with UL-Recognized components.
- 100V, 60Hz, 3.5 Amps.
- 300lb weight capacity.
- 5 Day Quickship.

Evolutionary device that offers dynamic and challenging ways to engage muscles while incorporating strength work, flexibility training, total body conditioning or physical and occupational treatments.

CLINICAL EQUIPMENT

100s of Balance Products for Clinic, Home & Office

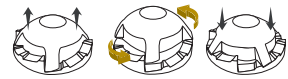

Fitterfirst Bongo Board®

is our most advanced functional trainer that is suited for higher level patients and athletes. Develops light and fast reflexes and quick weight transfer skills. Bongo can be used in a plank position for shoulder and core stabilization. New end bumpers reduce the risk of falling during the learning phase. A Spotter highly recommended.

Soft Board - Advanced

Soft Boards are our newest, most user friendly balance platform offered in 3 levels. Beginner for low level balance patients offers 4 legs. Rocker is a transition board with single plane movement. Advanced Board offers the sensation of floating on water with 3D movement

USA Patent No. 5,810,703

Pro Fitter 3D Cross Trainer

The original functional trainer introduced to the PT industry in 1985. With 6 resistances levels and an attachable platform patients can do over 20 functional exercise for legs, core and upper body. Suitable for beginner to advanced level users.

Professional Balance Boards

The standard in adjustable balance boards. New instantly adjustable design offers 3 different levels with a non slip base. The Pro Balance Board Kit offers 16" advanced Board, 20" intermediate and a 20" single plain Rocker Board with 5 board stand.

BALANCE TRAINERS

Balance Boards - TheraBand®

- Feature an anti-slip bottom and a textured top for additional proprioceptive input.

	Description
045167	Rocker Board
045168	Wobble Board

Chango® R4 Balance Board

- (2) boards in one: rocker and wobble board.
- Wobble board tilt angles 14 and 20 degrees on yellow shock absorbing center ball - or remove balls and use on inflatable balance disc.

	Description

- 20" square with rocker base.

	Description
047178	Beginner; 20" Square Board, Tri-Level

Bongo Board

- The sloped ends of the barrel also encourage using toe and heel pressure.

	Description
047205	Bongo Board

Chango® S2000 Board

- (2) boards in one: rocker and wobble board.
- Use for calf stretch, push ups, or sit on it and wobble.

	Description
047201	Advanced; 15"L x 7.5"W
047202	Beginner/Advanced; 15"L x 7.5"W

Chango® Balance Paws

- Use while walking to activate the muscles of gait.
- For push ups, standing or prone, attach to hand.

	Description
047203	Chango® Balance Paws; 2" High
047204	Chango® Balance Paws; 1.5" High

Soft Boards

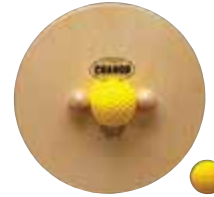

- Safely achieve better balance, coordination and overall agility.
- Closed cell foam allows for a smooth multi-plane balance environment.
- Non-slip, non-marking, and silent when in use.

	Description
040781	Soft Board-Beginner
040783	Soft Board-Advanced
040784	Soft Board Rocker-Intermediate

045167

045167-05168 Wobble Board on left, Rocker Board on right

047200

Improves balance, coordination and quickens reflex time.

047190

(5) interchangeable fulcrums give (3) degrees of difficulty as a single plane rocker: 6°, 9° and 12° degrees and (2) multi-directional fulcrums at 10° degrees.

047178

Rocker Boards are suitable for balance training, improving ROM and warm-up squats.

047205

A unique barrel shaped roller made out of (2) halves that can twist independently, making the deck unstable.

047201

047201-047202 Wobble on the large yellow center ball, or remove the yellow ball and rocker on (2) wooden balls attached to the bottom of the board.

047203

047203-047204 (2) hemispheres with neoprene and Velcro® straps, helps correct muscle imbalance.

040781

Large Deck Sets on 4 Corner Legs

040783

Large Deck With Center Leg

051296

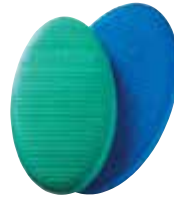

051297

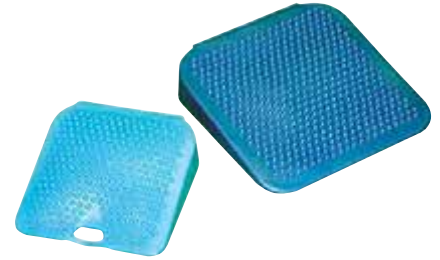

047257

Allows for a variety of exercises to be performed that mimic actual functional activities.

047255

047255-047256 Allows for a variety of exercises to be performed that mimic actual functional activities.

040333

040333-040334

051285

Sensory bumps on one side and smooth on the other.

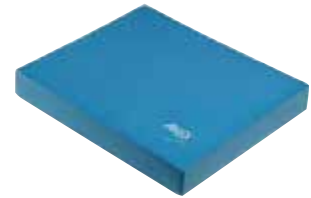

041684

Beginner-level balance tool for the Active Aging Market.

051286

Sensory bumps on one side and smooth on the other.

047191

Used for balance, coordination, mobility and stability training.

FitBALL Balance Disc

- Two sizes for increased flexibility.
- Both may have air added to or taken out to change the "feel".
- Smooth on one side, sensory points on the other.
- Used to improve balance, stability and helps to strengthen and tone core muscles.
- Air pump required for full inflation/adjustment.

Description

051296	FitBALL Balance Disc; 14"
051297	FitBALL Giant Balance Disc; 22"

TheraBand® Stability Trainer

- Green: more stable and suitable for beginners.
- Blue: less stable and more suitable for advanced users.
- Black (air filled): most challenging.

Air-Filled Description

047257	Black; Extra Soft
--------	-------------------

Foam Description

047255	Green; Firm; For Beginners
047256	Blue; Soft; For Advanced Users

FitBALL Wedge

- Used as a posture correcting seat cushion or lumbar support.
- Air pump required for full inflation/adjustment.

Description

051285	Junior; 10"
051286	Senior; 13"

CanDo® Vestibular Wedge

- Wedge combines dynamic seating and static positioning.
- Inflate or deflate to vary degree of difficulty.
- Wedge requires active participation from user to assume correct sitting.

Description

040333	15" x 15"; Large; Blue
040334	10" x 10"; Small; Blue

FitBALL® Balance Pad

- The FitBALL® Balance Pad is a beginner-level balance tool for the Active Aging market or any training environment when a low-level of instability is desired.
- The super-dense foam construction is more challenging than standing on a mat.
- The closed-cell structure foam material does not absorb water or dirt, making this an ideal product for multi-user commercial environments.
- The Pad has a non-skid textured surface and can be used in group exercise classes as an alternative to balance discs or boards.
- It can be used as a single unit or stacked in multiples to increase the balance challenge.

Description

041684	15" x 18.25" x 2", Blue
--------	-------------------------

Airex® Balance Pad

- This closed cell, super-soft specialty foam will not absorb water and is sanitized to inhibit growth of fungus and microbes.

Description

042143	Airex® Balance Pad Elite; slip-resistant raised waffle surface, Blue, 16" x 20" x 2.5"
047191	Airex® Balance Pad, 16" x 20" x 2.5"

Airex® Balance Beam

- The extended length provides a base for an individual to walk toe-to-toe, improving lower and upper body stabilization and coordination.

	Length	Width	Height
047125	63"	6"	2.5"

Balance Aids

- Self-standing balance aids used to assist first time users or individuals with limited balance.

	Description
047189	Balance Aids

FitBALL® Deluxe Board

- Extra-large 19.5" x 27" surface has plenty of room for wide-stance functional training with 6 slots around the edges for use with your tubing.
- Heavy-duty plastic construction is geared for high-use fitness or rehab facilities.
- Multi-directional fulcrum provides balance challenges for beginners or pros.
- Large athletes will love the additional space on the balance board.

	Description
041685	FitBALL® Deluxe Board , 19.5" x 27"

BAPS®

- Lightweight, durable, biomechanically designed platform that is reversible to accommodate right or left and includes permanent indices for proper foot placement.
- Weight rods may be strategically placed in one or more of the (5) sockets for passive ROM assistance or for strengthening specific muscle groups.
- Includes wall mount and instruction manual.

	Description
047116	Complete BAPS® System with Wall Rack
047117	Complete BAPS® System with Storage Tray

CanDo® Multi-Axis Platform System

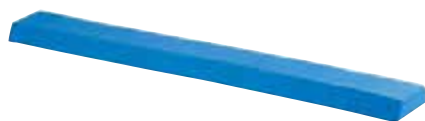

- MAPS offers adjustable ROM and weight training to maximize lower body rehabilitation.
- Set includes reversible board (1 side for left foot, 1 side for right foot), color-coded ball set.
- Accessories available separately.

	Description
040061	Board, 5 Balls, 2 Rods
040062	Board, 5 Balls, 2 Rods, Rack (4) 2.5lb Wts.
040063	Board, 5 Balls, 2 Rods, Tub (4) 2.5lb Wts.

Korebalance Premiere 22 or 19

- 22" medical grade touch screen computer (KB 22) or 19" touch screen computer (KB 19)
- Footprint: 44" x 58"
- Max Height: 80" (203cm)
- Platform has 360° horizontal & 20° vertical range of movement.
- Individually adjustable safety rails, catering to user's physical ability & height.
- Exercise band attachment points.
- Large, stable platform with low step-up height for safe mount/dismount.
- Power: 100-240 VAC; 50/60 Hz; 500 Watt
- Machine weight: 315 lbs (143 kg)
- Patient weight capacity: 500 lbs (227 kg)
- Includes color printer
- Available in 4 standard colors.
- Warranty:
 - Frame-15 years
 - Electronics-2 years
 - Electronics-1 year (KB Premiere 19)
 - Wear Items-1 year
- Made in the USA

Korebalance Kompact

- 17" touch screen computer
- Weight: 22 lbs (10kg)
- Adjustable Computer Stand 16" x 20" poly table (41cm x 51cm) Table height adjusts between 28"- 46" (71cm x 117cm)
- Weight: 12 lbs (5.4kg)
- Each leg extends 19" (48cm) from the center tube when fully opened.
- Platform has 360° horizontal & 20° vertical range of movement. (Analog pressure gauge)
- Compact and easy to transport
- Patient weight capacity: 500 lbs (227 kg)
- Includes color printer
- Optional oversized walker for added stability.
- Warranty: 1 year
- Made in the USA

Description

091341 Korebalance Kompact

Korebalance Mobile

- Footprint: 23" diameter (58 cm)
- Platform has 360° horizontal & 20° vertical range of movement
- Machine weight: 22 lbs (10 kg)
- Patient weight capacity: 500 lbs (227 kg)
- Supplied with laptop computer preloaded with Korebalance software
- Warranty: 1 year
- Made in the USA

Description

091342 Korebalance Mobile

Korebalance Basic

- Model footprint: 23" diameter (58.4cm)
- Platform has 360° horizontal & 20° vertical range of movement
- Machine weight: 22 lbs (10 kg)
- Patient weight capacity: 500 lbs (227kg)
- Warranty: 1 year
- Made in the USA

Description

091343 Korebalance Basic

Shuttle Balance Standard

- Simulates a slip through motion in all horizontal planes.
- Perturbates in both standing and seated positions for therapeutic and sport-specific treatments (fall prevention, whiplash, contact sports).
- Challenges all ability levels by adjusting platform height, stability, and degree of tilt.
- Platform weight capacity: 400 lbs
- Balance board: 24" x 30".
- Height adjustment chains and rail grips.

Description

090281 Overall footprint 43" x 50"

Shuttle Balance Professional

- Simulates a slip through motion in all horizontal planes.
- Perturbates in both standing and seated positions for therapeutic and sport-specific treatments (fall prevention, whiplash, contact sports).
- Challenges all ability levels by adjusting platform height, stability, and degree of tilt.
- Platform weight capacity: 400 lbs
- Balance board: 24" x 30".
- Height adjustment chains, rail grips, elastic dampeners, control cords, rubber stability feet, balance steps.

EXERCISE EQUIPMENT

030177

This platform is made of industrial steel and designed to withstand the abuse of professional athletes.

091037

This platform is made of industrial steel and designed to withstand the abuse of professional athletes.

033604

The Power Plate HP allows more room for therapy sessions with the increase in surface area.

091036

This platform is made of industrial steel and designed to withstand the abuse of professional athletes.

033602

The Pro5™ model has a larger number of settings for greater variation in therapy regimens.

031202

Whole Body Vibration therapy is rapidly becoming a popular treatment for anyone from athletes, to patients in physical therapy to casual exercisers. Vibe Plate Hand Rail can be ordered separately.

WHOLE BODY VIBRATION

ProVibe

- Surface area of 32" x 40".
- Frequency range of 10-60 hz and a high & low amplitude setting.
- Designed to allow Olympic style lifting and plyometrics on the platform, and just as effective for core exercises and extremity massage.

	Description
030177	Pro Vibe
091036	The Pro, with a load limit of 1200 lbs. and a frequency of 10-60 hertz, adds a myriad of benefits to your patient's care. The large platform makes it suitable for therapeutic and athletic activities.
091037	Optional Handlebars for ProVibe

PRO5™

- Professional model: 2 year parts and labor.
- 33% larger than MY5™ plate surface.
- High/Low settings for vertical displacement.
- Vibration: Horizontally, 25-50 times/second; pre-settings include: 30, 35, 40 and 50hz.
- Time: 30, 45, or 60 seconds.
- Additional features above the my-series: multiple settings for more variation in exercise regimes, capacity for approximately double the weight load of MY5™, larger plate surface for greater exposure to vibrations.

	Description
033602	PRO5™

PRO5 AIRdaptive™ High Performance

- Professional model: 2 year parts and labor.
- 33% larger than MY5™ plate surface.
- High/Low settings for vertical displacement.
- Vibration: Horizontally, 25-50 times/second; pre-settings include 30, 35, 40 and 50hz.
- Time: 30, 45, or 60 seconds.
- Additional features above the my-series: multiple settings for more variation in exercise regimes, capacity for approximately double the weight load of MY5™, larger plate surface for greater exposure to vibrations.

V2 Max™ Reformer Bundle

- Most appropriate in a dedicated space and facilitates hundreds of effective full-body exercises.
- This sturdy reformer features an innovative retractable rope system.
- Reformer dimensions: 30" Wide, 97" Length and 145 lbs

Carriage Dimensions	Width	Length	Height
042105	24"	38.5"	16"

Rehab V2 Max™ Reformer Bundle

- Ideal for physical therapy clinics/ rehab centers/hospitals with its higher height from the floor
- Offers a full range of resistance for clients in various stages of rehabilitation
- Instruct and perform core stability, peripheral mobility and plyometric exercises with exceptional results
- Reformer dimensions: 30" W x 97" L, 185 lbs

Carriage Dimensions	Width	Length	Height
042107	24"	38.5"	22.5"

Rehab V2 Max Plus™ Reformer Bundle

- Facilitating limitless exercise possibilities, including V2 Max Plus programming.
- 6 1/2" higher than the V2 Max™ Reformer Bundle for mobility challenged clients and those seeking exercise for sport injury.
- Multi-tasks as a raised Mat platform with the inclusion of a Mat Converter, a standard reformer, and a multi-planar and biomechanics training tool.
- This unit's innovative vertical frame, pulley system and exclusive retractable rope system replicates the free, multi-dimensional movements of daily life.
- Reformer Dimensions: 30" Wide, 97" Length, and 185 lbs
- Vertical Frame Dimensions: 30.5" Wide, 77.25" Height, and 41.5 lbs

Carriage Dimensions	Width	Length	Height
042108	24"	38.5"	22.5"

042123

Add more than 200 exercises to your Pilates repertoire and challenge the body in different planes of motion.

042124

Designed for serious core conditioning and to increase flexibility and mobility.

042125

Expand Programming options. Ideal for those who need to stay in seated or upright position.

042105

V2 Max™ Reformer Bundle includes V2 Max Reformer, Maple roll-up pole, Reformer Box, Padded Platform Extender, Essential Reformer DVD.

042107

Rehab V2 Max™ Reformer Bundle includes Rehab V2 Max™ Reformer, Maple Roll-up Pole, Reformer Box, Padded Platform Extender, Essential Reformer DVD.

042108

Height: 22.5"

EXERCISE EQUIPMENT

047130

047130-047131 Touch, durable plastic cones are perfect for speed, quickness, jumping and agility drills.

047220

047220-047221 Perfect for agility training.

047150

Minimize hand, wrist and elbow stress while performing close grip and wide grip push-ups, as well as reverse dips.

047196

Non-slip, shock absorbing ribbed mat for safety and non-skid rubber floor pads for traction and stability.

047184

Stabilization, rotational and functional training.

047183

A 3D cross trainer that offers over (20) effective exercises to achieve better balance, coordination and overall agility.

047120

Heavy duty frame and springs. Use for jogging and balance routines.

047194

An extremely slick "fresh ice" top surface with an underlay that has non-slip reinforced rubber that holds firm on floor or carpet. End ramps adjust in 1" increments.

044210

Solid, textured 1/8" rubber tread top. Nestable design for compact storage

EXERCISE EQUIPMENT

047341

047341-047354 Modular bungee cordz are made from premium quality durable rubber surrounded by braided nylon.

040595

Features a wide trainer's handle, connected to a 10-foot heavy nylon strap. The opposite end of strap connects to either a padded harness. Chest harness fits up to a 52 inch chest.

040596

Features two looped belts that are connected with a 10-foot heavy nylon strap allowing athletes and/or trainer to resist movement. Non-adjustable belts fit up to a 52 inch waist.

040589

4.5" Waist belt with steel 2" D-Rings and neoprene padding for comfort. Fits up to 52" waist; cinch closure.

040590

4.5" wide ankle strap with neoprene padding for comfort. One size, cinch closure.

040591

4.5" wide thigh strap with neoprene padding for comfort. One size, cinch closure.

040592

Neoprene padded shoulder harness; adjusts to fit up to 50" chest.

040593

Large handle for two hand grip action.

040594

Super Bungie Kit includes Super Bungie Belt, three super bungee cordz, one each of 75, 150 and 200 lbs of pull in 8-foot length and a super bungee handle.

040582

Bungies with carabiners at either end.

Modular Bungee Cordz

- Consists of a single section of bungee cord with a combination mount on one end and a clip on the opposite end for attachment to modular component.
- Bungee stretches 1 to 2 times original length.

4 Foot Length Description

047341	Silver; 1 lb to 7 lbs. of Pull
047342	Yellow; 3 lbs. to 9 lbs. of Pull
047343	Green; 5 lbs to 12 lbs. of Pull

AQUATIC PRODUCTS

Aquafins™ Aquatic Exercise Kit

- Can be worn on wrists or ankles.
- Kit includes two cuffs, four predator fins, mesh carrying bag and a quick start workout guide.

Description

040047 Aquafins™ Aquatic Exercise Kit

Closed Chain Disk

- With straps -used to exercise all the major leg and hip muscles, improve balance and increase lower extremity range of motion.
- Without straps - used to strengthen the upper body and improve trunk stability.

Description

040011 Closed Chain Disk

Hand Bars

- Contains (2) round foam floats connected by a padded handle that look like free weights.
- The foam floats provide buoyancy as the hand bars are moved under the water, enhancing upper body strength and range of motion.
- Also used to increase flexibility and strengthen the lower back and abdominal muscles.

Description

040050 Light; One Pair

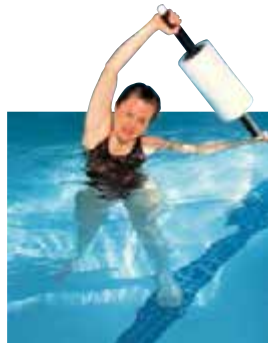

040051 Medium; One Pair

040052 Heavy; One Pair

040047

Leaves hands and feet free to feel the water on every stroke and kick.

040091

An excellent device for stretching and strengthening the trunk and lower back.

040140

040140-040142 The buoyancy of the foam provides assistance during swim training and recreational use.

040011

Circular-shaped foam disk containing an adjustable foot attachment.

040050

040050-040052 Designed for use during independent aquatic exercise programs or in group programs.

040090

Provides buoyancy while held during swim training.

Kickroller

- Contains a cylindrical center foam piece and outer, padded hand grips.
- Provides buoyancy and resistance for upper body strengthening.

Description

040091 Kickroller

Swim Bar

- Contains a cylindrical center foam piece and outer, padded hand grips.
- Used to help in trunk stabilization and strengthening, improving flexibility and balance, as well as increasing upper extremity range of motion and strength.

Description

040090 Swim Bar

Swim Belts

- Square or rectangular shaped foam in one, two or three pieces connected by a latch type strap, worn around the waist.

Description

040140 Tadpole Swim Belt

040141 Youth Swim Belt

040142 Young Adult Swim Belt

AquaJogger® Basic Belt

- Quick-release buckle for safety.
- 24-page workout guide with no-impact exercises included.

Description

040192 AquaJogger® Basic Belt

040192

Supports the lower back during water exercise with a comfortable yet snug fit.

041485

Prepare patients for full weight bearing activities. Progress from light resistance movement to aggressive high resistance plyometrics.

	Description
040152	S715 Stair Climber

MS300 Semi-Recumbent Total Body Stepper

- The MS300 facilitates full body exercise in coordinated, linear, natural 1:1 leg and arm motion.
- Self-adjustable stroke length accommodates patients' specific range of motion capabilities, providing low impact movement for knees, ankles, and hips in a safe semi-recumbent position.
- MS300's unique quadrilateral exercise pattern allows users to selectively distribute different extent of exercise efforts across their four limbs.
- Limbs that input more force can efficiently lead less involved limbs to functional movements and maintain elevated heart rate.
- A low inertia starting at 5 watts translates to smoothness; the work rate can increase up to 750 watts.
- A pivoting calf and knee support accessory allows for stabilized lower extremity positioning.
- Also available, a hand support accessory allows users with limited or no hand strength to enjoy the benefits of the MS300.

	Description
091141	MS300 Stepper

SCIFIT StepOne™ Recumbent Stepper

- User defined stride length with Intelli-Stride™ feedback for safe progressions.
- The 1:1 arm to leg ratio produces natural, functional movement and provides patterning similar to walking or climbing stairs.
- Direct wheelchair access along with step-through seating and grab bar allow for easy entry and exit.
- Arm length and hand grip rotation adjustments provide user comfort and custom fit.
- Easy-to-use full color touch screen displays exercise readouts beneficial for users and clinicians (ex. stride length, ascent, watts, METs).
- Standard seat adjusts forward and back only with 500 lb user capacity.

MULTI STATION GYMS

Nautilus Multi Station System - NS4000

- Four separate, fully enclosed 200 lb weight stacks allowing four users to exercise simultaneously.
- Each movement designed using Optimal Strength Curve Technology ensuring proper muscle loading through the entire movement.
- Every adjustment is color coded, and exercise stations feature easy to follow instructional placards.
- Stations: Incline press, chest press, shoulder press, leg extension, prone leg curl, pec fly/rear delt/low row, leg press/abdominal/calf raise.

	Length	Width	Height
041536	124"	88"	84"

Tri-Core™

- Includes Sit-to-Stand exerciser, functional pulley, and upper body cycle with stand.
- Fits a 5' x 7' area - space saving!
- Excellent cardio, upper body, and core exercise.

	Description
042405	3 in 1 Tri-Core Multi-Station

BENCHES

Free Weight Bench Series by SportsArt

- Welded Steel Frame
- Heavy-Duty Vinyl Cushions.

	Description
049060	Flat Bench
049061	Free Standing FID Bench
049062	Back/Hyperextension
049063	Olympic Flat Bench

049065	Olympic Incline Bench

Full Commercial Weight Benches by TuffStuff

- Premium Full Commercial Rated Flat Utility Bench.
- Includes Wheel Kit with Handle for easy transport.
- "Non Skid" Rubber Base Protectors.
- Upholstered Wear Cover included standard, extends pad life & easier for cleaning or replacement.
- 16 Pad Color Options & 6 Frame Color Options available.
- Beefy 2"x4" 11 Gauge Oval Steel Frame .120 wall thickness.
- 58" L x 25" W x 18" H (147cm x 64cm x 46cm).
- Assembled Weight 65 Lbs/29 Kg
- Ships Assembled

	Description
049066	Flat Bench Full Commercial Bench
049067	Flat/Incline/Upright Full Commercial Bench

Light Commercial Weight Benches by TuffStuff

- TuffStuff Evolution Series Light Commercial Compact Adjustable Bench.
- Seven back support angles - from flat to full upright position.
- Independent seat pad adjustment.
- Built-in handle and wheels for easy roll-away.
- Includes Base Frame Protectors.
- Silver Frame/Black Pads Standard.
- Economy priced.
- 54" L x 27" W x 49" H (137cm x 69cm x 124cm).
- Weight 66 lbs/30Kg.
- Ships Boxed.

049071	Flat/Incline/Upright Light Commercial Ladder Bench
049072	Flat Light Commercial Utility Ladder Bench

Saunders Total Back™

- Unique pelvic stabilization allows isolation of lumbar extension in any range of motion.
- Promotes stretch, flexibility and coordination through controlled functional exercises.
- Product weight: 100 lbs
- Comes in black, imperial blue, gray, burgundy, taupe and forest green.

Description

040246 Saunders Total Back™

NAUTILUS EVO EQUIPMENT

Lat Pulldown

- Patent pending 240 lb weight stack in 5 lb increments with belt drive for a smoother feel.
- Rotating "Ergo Grip"™ handles allow a variety of hand-grip positions.
- Designed for easy entry/exit, proper stabilization, and uses the highly recommended front pull for no shoulder impingement.

Description

042327 S9LAT - Lat Pulldown

Leg Extension

- Patent pending 240 lb weight stack in 5 lb increments with belt drive for a smoother feel.
- Full seat back with reclined angle prevents hamstrings from interfering with full quadriceps contraction while providing maximum support and stabilization.
- Roller arm is heavily padded for user comfort, and movement arm is counterbalanced to reduce starting resistance.

Description

042324 S9LE - Leg Extension

Leg Press

- The four-bar linkage foot platform articulates as you go through desired range of motion to reduce shear forces at the knee.
- Oversized, non-slip foot platform allows a wide choice of foot placement and a handle to assist entry/exit.
- Thick, extended back pad is contoured for lumbar support and comfort.
- 480 lb weight stack in 10 lb increments with belt drive.

Description

042325 S9LP - Leg Press

Overhead Press

- Patent pending 240 lb weight stack in 5 lb increments with belt drive for a smoother feel.
- Standard dual handgrips (neutral and pronated) for a greater choice of exercise protocols.
- Four-linkage provides the proper resistance throughout the active range of motion.

Description

042326 S9OP - Overhead Press

040246

Allows optimum exercise intensity, regardless of the patients' level of conditioning or severity.

042327

Features "Smart Arm"™ linkage allowing multiple movement paths providing for a wide choice of exercise options.

042324

Provides proper muscle involvement with minimum knee and back stress.

042325

With 5 seat back angles and 15 starting points, a combination of 75 hip/knee angle choices are available to accommodate to user size, a particular pathology or exercise protocol.

042326

Converging movement arms create a proper path of movement, and natural feel.

042322

Designed to build stronger hamstrings from a seated position with minimal knee strain

042183

Combines two of the most important "core" strengthening exercises in one compact unit.

042182

Combines two of the most important leg exercises in one compact machine.

042323

Converging press arms create a natural path of movement for maximum pec contraction and natural feel.

042184

Unique design where each movement pattern has its own strength cam profile for proper muscle loading.

042185

Simple and non-threatening functional total leg strengthening system.

Seated Leg Curl

- Patent pending 200 lb weight stack in 5 lb increments with belt drive for a smoother feel.
- Unique coupled movement arm technology reduces knee strain and maintains axis of alignment.
- Seat back adjusts for proper alignment of axis, and contoured seat and back pads with side handles provide complete stabilization and comfort during exercise.

Description

042323 S9LC - Seated Leg Curl

Vertical Chest Press

- Patent pending 240 lb weight stack in 5 lb increments with belt drive for a smoother feel.
- Neutral and pronated hand grips for greater variety of exercise protocols.
- Back pad adjusts to a variety of starting positions, and is contoured for greater stability and comfort.

Description

042322 S9VC - Vertical Chest Press

NAUTILUS NOVA EQUIPMENT

Combination Abdominal/Low Back

- Optimal Strength Curve Technology™ uniquely provides individual resistance profiles for each movement pattern for proper muscle loading.
- Adjustable and indexed starting points for each movement.
- A combination of the elbow and back pads with hand grips provides the necessary upper body stabilization, while the adjustable foot-bar positions the knees above the hips to prevent pelvic thrust.
- Incorporates a 200 lb weight stack in 5 lb increments. Belt drive for smoother feel.

Description

042183 S8AB-LB - Combination Abdominal/Low Back

Dual Function Hip Abduction/Adduction

- Unique individual strength profiles for each movement provides more functional muscle loading and isolation.
- Movement arm easily adjusts for different starting positions from the exercise position.
- Weight stack location provides user privacy and easy accessibility.
- Full seat back design supports the entire spine for added safety during exercise.
- 65" L x 29" W x 57" H (165cm x 74cm x 145cm).

Description

042184 S8AA - Hip Abduction/Adduction

Combination Leg Extension/Leg Curl

- Uniquely provides individual strength curve profiles for each movement for optimal muscle loading.
- Reclined seat back angle prevents quadriceps from interfering with full range hamstring contraction.
- Adjustable and indexed starting points for each exercise motion.
- Incorporates a 200 lb weight stack in 5 lb increments. Belt drive for smoother feel.

Description

042182 S8LE-LC - Combination Leg Extension/Leg Curl

Combination Leg Press/Calf Flex

- Patented four-bar linkage technology controls position and angle of the articulating foot platform to reduce knee stress while allowing additional hip rotation.
- Oversized, non-slip foot platform allows a wide choice of foot placement, and a handle to assist entry/exit.
- Incorporates a 480 lb weight stack in 10 lb increments. Belt drive for smoother feel.

Description

042185 S8LP-CF - Combination Leg Press/Calf Flex

JUMP ROPES

PoweRope Jump Rope

- Weighted jump rope.
- Weight is evenly distributed throughout solid rubber rope.
- Padded PVC handles with ball-and-socket swivel.
- Black handles.
- Rope color coded by weight; colors may vary.

	Description
041275	1 lb, 8 ft (Red)
041276	2 lb, 9 ft (Blue)
041277	3 lb, 10 ft (Green)

Pro's Choice Speed Rope

- The Pro's Choice Speed Rope is our most popular, professional-grade skipping rope.
- This fitness equipment features a 9', non-kink PVC rope with foam-padded handles that contain ball bearings for maximum rotational speed and smoothness.
- The Pro's Choice Skipping Rope is the perfect addition to personal training, sports conditioning and boot camp cardio workouts.

Agility	Description
090749	9' Rope

Speed Rope

- 9 ft Green Speed Ropes are an industry standard fitness equipment for sports conditioning, personal training and boot camp cardio workouts.
- Helps increase cardio while promoting speed, agility and coordination.
- Extremely cost efficient and have enough durability to last through any personal training, sports conditioning or boot camp workout!

LAFAYETTE PROFESSIONAL HAND DYNAMOMETER

- Offers 1% accuracy when many hydraulic gauges on the market provide no better than 3% accuracy
- Leak-proof aluminum collars protect the bellows from damage
- Industrial grade gauge that assures repeatable accuracy
- Easy-to-read gauge layout that provides pound (lb) and kilogram (kg) specific increments
- Improved design of peak and real time needles prevents needle displacement
- Zero-adjustment screw for easily accommodating differences in temperature and barometric pressure
- Quick-locking handle adjustment

HAND EVALUATION

B&L Engineering Mechanical Pinch Gauge

- The original mechanical pinch gauge designed and manufactured by B&L Engineering since 1967.
- Black Pointer indicates applied force, red pointer remains at subject's maximum reading until reset.
- Dual scale in pounds and kilograms.
- Key, Tip, and Palmar Pinch strength testing.
- Comes with official certificate of calibration.
- Two-year warranty.
- Fitted foam storage box.

Description	
090000	0-10 lbs. (4.5kg) in .25 lb increments for weak/injured hand
060784	0-30 lbs. (13.6kg) in 1.0 lb increments for normal hand
060785	0-60 lbs. (27.2kg) in 2.0 lb increments for athletic hand

Baseline® Mechanical Pinch Gauge

- Indicator remains at the maximum reading until reset.
- Readings in lbs and kgs.
- 2 year warranty.

Description	
060217	2 lb with Case; Gold
060218	10 lb with Case; Silver
060215	30 lb with Case; Blue
060216	60 lb with Case; Red

Baseline® Digital Hydraulic Pinch Gauge

- 2.5" LCD head.
- Readings in lbs and kgs.
- Blue, 2 year warranty.

Description	
060139	100 lb

Baseline® Hydraulic Pinch Gauge

- Accurate for all pinch tests-tip, key and palmer.
- Gauge has dual scale that shows pounds and kilograms.
- CE certified.

B&L Engineering Hand Dynamometer

- Worldwide clinical and research quality replacement for Jamar®.
- Hydraulic Hand Dynamometer.
- Five handle positions.
- Dual scale displays isometric grip force from zero to 200 lbs
- Official certificate of calibration verifying correlation coefficient of 0.9994 or higher.
- Black pointer indicates applied force. Red pointer remains at subject's maximum reading until reset.
- Legally CE Marked with Notified Body Number.
- Instruction manual includes normative tables for children and adults.
- Fitted foam double-walled carrying case.
- Two-year warranty.

Baseline® Pneumatic Squeeze Dynamometer

- Unit is calibrated in PSI.
- Indicator remains at maximum until reset.

Description

060291 30 PSI, with Reset
060293 15 PSI, with Reset

Baseline® Smedley Digital Spring Dynamometer

- 5 preset grip sizes.
- Assesses results according to age and gender.
- Saves results for up to 19 users.

Description

060049 Adult; 200 lb/90kg

090998

060291

Measures hand and finger strength.

060049

Baseline® Smedley Spring Dynamometer

- Made of light weight aluminum.
- The adjustable handle comfortably accommodates any hand size.
- Unit is calibrated in pounds and kilograms.

Description

060281 Smedley Spring Dynamometer

Baseline® Hydraulic Wrist Dynamometer

- Measures strength of wrist muscles during flexing, extension, abduction, and adduction, or the forearm muscles during supination and pronation.
- Use with single or dual handle grip.
- Maximum reading remains until reset.
- Strength can be viewed as pounds or kilograms.
- Includes unit, doorknob, and bracket.

Description

060194 500 lb/225 kg Analog
060195 500 lb/225 kg Digital

Accessories Description

060180 Single Grip Handle
060181 Dual Grip Handle
060182 Door Knob Grip
060183 Shovel Handle
060184 Lever Handle
060185 Rod/Pipe Grip

060281

060180

Measures muscle strength and the amount of force needed to open jars, doorknobs and other ADL activities.

DIAGNOSTIC/
EVALUATION

060400

060400, 060403, 060962-060968 Measures strength of back, leg and chest in pounds and kilograms.

060940

060940-060948 Comes complete with (3) push pads, (1) pull hook and a padded carrying case.

060302

Comes with carrying case and accessories.

060304

Comes with carrying case and accessories.

060949

060949-060958 Ideal for a wide range of individual muscle groups using both the push (compression) and pull (tension) modes.

STRENGTH MEASUREMENT

Baseline® Back/Leg/Chest Dynamometer

- Chain length is adjusted to accommodate for height differences and base provides sure footing.
- Pointer remains at maximum until reset.

060383

060383, 060485 ErgoFET's unique ergonomic design fits comfortably in your hand for direct compression testing. Excellent for small to medium push pull force measurements for muscle testing, general strength evaluations; ergonomic assessments and job analysis.

060036

Hand held dynamometer fits comfortably in the palm of your hand for accurate measure of muscle strength testing.

060484

Durable digital force gauge includes a complete assortment of attachments for measuring muscle strength, functional capacity evaluations, job site analysis and ergonomics.

060910

Chatillon® DFX Series

- Economical digital force gauge ideal for applications where users are interested in basic peak force measurement.
- Comes with rechargeable battery pack.
- Large easy-to-read, high resolution dot matrix LCD display.
- Supports a variety of standard gauge functions including normal and peak readings.
- Comes with carrying case, universal battery charger, flat and hook adapters.
- Accessory kits sold separately.

- Use standalone or wireless with available software.
- Rechargeable battery.

Description	
060045	Dual Spinal Inclinometer
060388	Clinical Software with Bluetooth Dongle

microFET handGRIP

- Digital handgrip with electronic LCD display
- Durable, lightweight molded body construction
- 200 lb max. force capacity
- Use as a standalone device or use with available software
- Bluetooth wireless allows for cords free testing when used with software
- Uses rechargeable lithium ion battery

Description	
091495	Handgrip Strength Tester

060089

Only digital device available that offers combination muscle testing and range of motion in one device. Muscle testing range: low threshold: 0.8 lbs to 200 lbs in 0.1 lbs increments and high threshold: 3 lbs to 200 lbs in 0.1 lbs increments; inclinometer measures 0-360°.

060045

Designed for optimal instrument placement and spinal clearance. Accurate with 1 degree for ROM testing

060080

Accurately measures flexion and extension, rotation, lateral flexion and pelvic tilt by combining inclinometers and magnets in an easy-to-use instrument.

091495

Digital handgrip with electronic LCD display, max 200 lb force capacity

060001

Permits observation of joint axis and motion. Linear readings in inches and centimeters.

060081

Comfortable, lightweight frame positions easily and securely with Velcro® straps.

060115

060115-060116

060117

converts your 12" plastic goniometer to an Absolute+ Axis™ Goniometer

060118

RANGE OF MOTION

BROM II

- Allows rotation movements in upright position and automatically tracks and compensates for unwanted movements.
- Includes manual, typical values, instructional video and zippered protective case.

Description	
060080	BROM II

CROM Basic

- Same features as the BROM II
- Includes manual, normal values, magnetic yoke and convenient storage case.

Description	
060081	CROM Basic

Transparent Plastic Goniometers

Description	
060001	6"; 180 degree
060002	6"; 360 degree
060003	8"; 360 degree
060004	12"; 360 degree

Baseline® Absolute+Axis® Goniometers

060117	Absolute+Axis® Attachment Only
060118	Digital Goniometer

DIAGNOSTIC/
EVALUATION

060924

Smooth precision glide and adjustable arms give accuracy not possible with other pocket-sized models.

060062

060062-060064 Black aluminum with easy-to-read white radiopaque markings documents angles on x-ray negatives.

060056

060056-060057 Measure with only one hand by using your finger, moving the measurement head through 110 degree flexion and 40 degree hyper-extension in 5 degree increments and arm has 4" scale.

060065

Includes: * 6", 180° "Robinson" Pocket Goniometer * 14", 180° and 360° Stainless Steel Goniometer * 5.5" Stainless Steel Finger Goniometer * 8", 180° X-Ray Goniometer * 8", 180° Stainless Steel Goniometer * Padded Carrying Case

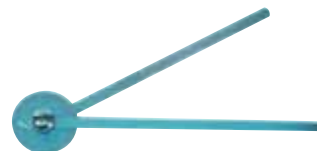

060249

White background assures high contrast for added readability and resolution.

060007

Linear inch and centimeter markings measures 0 to 150 degrees in 5 degree increments.

060050

Features (2) 180 degree scales that read in opposite directions, clearly marked degree increments and easy-to-read inch and centimeter linear measurements.

060082

Measures thoracic and lumbar ROM and lateral and forward flexion and extension of the spine.

Telescoping Goniometers

- Includes 4x magnifying lens to read the dual-180 degree high resolution scale and (2) stainless steel arms that extend 9.5" to 26".

Description

060924	Telescoping Goniometer
--------	------------------------

180° X-Ray Goniometers

- 180 degree head has (2) opposing scales in 2.5 degree increments.

Description

060062	6"
060063	8"
060064	14"

Baseline® 180° Digit Goniometers

- Requires only one hand to measure your patient.

Description

060056	Plastic
060057	Stainless Steel

Baseline® Goniometer Set

Description

060065	Six Piece Goniometer Set
--------	--------------------------

Baseline® Hi-Res™ 360 Degree Plastic Goniometers

Description

060251	6", 360 degree
060249	8", 360 degree
060250	12", 360 degree

Baseline® Stainless-Steel Finger Goniometers

- For easy ROM measurements of metacarpal, phalangeal and interphalangeal joints.

Description

060007	Standard, 6" Finger
060008	Small, 3.5" Finger

Baseline® Stainless-Steel Goniometers

- The 360 degree goniometer features (1) 360 and (2) 180 degree scales that read in opposite directions.
- Locking arm.
- Knurled knob adjusts goniometer arm tension.

180 degree Goniometer Description

060050	6"
060051	8"
060052	14"
060053	14"

Wall-Mount Goniometer

- Height adjustable to align with the client's L4 and L5 axis points for measurements.

Description

060082	Wall-Mount Goniometer
--------	-----------------------

Large Joint Stainless-Steel Goniometers

Description	
060058	18", 180 degree Large Joint

Extendable Goniometer

- Total collapsed length: 8"
- Total extendable length: 28"
- Housing diameter: 2.5 inches.
- Thickness: 0.8"
- Weight: 0.2 lbs
- Lightweight ABS plastic construction will ensure continued and long lasting use.
- Features a dual scale 1° increments, extendable and retractable arms, magnified reading window.
- Compact, lightweight and portable design.

Description	
091001	Extendable Goniometer

Universal Inclinometer

Description	
060402	Universal Inclinometer

Baseline® Digital Inclinometer

- ROM can be read directly after the joint has been taken through its range. Case included.

Description	
060019	Digital Inclinometer

Acumar Digital Inclinometer

- Satisfies AMA Guidelines; simultaneously captures both angles.

Description	
060136	Acumar Dual Inclinometer for Joint Measurement

Baseline® AcuAngle Inclinometer

Description	
060188	AcuAngle Inclinometer

Baseline® Wrist Inclinometer

Description	
060130	Wrist Inclinometer

Baseline® Bubble™ Inclinometer

Description	
060020	Bubble Inclinometer

Baseline® Arthroial Protractor

- Measure ROM for all major articulations, cervical rotation, cervical lateral flexion, and cervical flexion/extension.

Description	
060076	Arthroial Protractor

Baseline® Skanograph

- Provides posture evaluations that are more precise than the symmetrigraph.

Description	
060083	Skanograph

060058

Measures large joints such as shoulders, hips and knees.

091001

060402

Replaces the goniometer for quick and easy upper and lower extremity range of motion measurements.

060019

060136

Dual Inclinometer for Joint Measurement

060188

Adjustable feet adapt to body contours.

060130

Easily evaluates movement of the wrist.

060020

The unique fluid-based design makes it accurate and easy to use.

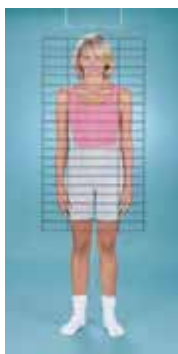

060076

Bubble level assures measurement on horizontal plane. With (2) 180 degree opposing scales in 5 degree increments.

060083

Use the angle pointer to find and measure alignment.

060084

The plastic posture grid, 25" x 48", can be suspended from the ceiling or wall bracket to evaluate posture.

061056

Spring attachment for constant tension and precision.

090375

Features beeper function at peak temperature, memory recall and auto shut-off.

060170

060170-060171 Subject blows into disposable mouth piece. Ideal for screening large scale populations.

090116

060060

Powered by two AAA batteries. Aluminum contact strip assures good contact for brighter light. Has a unique V-clip. One year shelf life.

090938

090127

Baseline® Symmetrigraph

- Includes a suspension cord and a plumb bob.
- 25" W x 48" L.

Description

060084 Symmetrigraph

MEASUREMENT

Baseline® Gulick Anthropometric Tape

- Provides precise circumferential measurement for progressive anthropometric exams, regardless of examiner's measurement techniques.
- 60" long, measures in inches and centimeters.

Description

061056 Gulick Anthropometric Tape

Pro Advantage Digital Thermometer

- (60) second readout.
- Includes storage cover and (5) probe covers.

Description

090375 Dual Scale (Fahrenheit/Celsius)

Illuminator

- Economical viewer for wall hanging purposes.
- 2 bulb illumination.
- 14" x 17" viewing area.
- No auto switch.
- Magic grip film retainer.

Description

090116 Standard Illuminator
090117 2 in 1 Horizontal Illuminator

Pro Advantage Penlight

- Penlights are ideal for motor evaluations.
- High-intensity diagnostic light.

Disposable Description

060060 (6) Penlights/Box with Pupil Gauge

Baseline® Buhl Spirometer

- Indicator registers forced vital lung capacity up to 7 liters and needle stays at maximum until reset.

Description

060170 Buhl Spirometer w/ 50 plastic mouthpieces

Replacements Description

060171 250 disposable mouthpieces

Spine Analyzer

- Helps doctor visualize and measure spinal and skeletal distortion.
- Helps analyze the efficiency of treatment techniques.
- Precision calibration.
- Pivoting foot piece allows doctors to analyze patient from posterior, lateral, and inferior views.
- Weight of 30 lbs

	Height	Width	Depth
090938	75.5"	22.88"	21.5"

Professional Digital Floor Scale

- Floor scale.
- 397 lb/180 kg Capacity.
- Platform: 12¼" x 12¼".
- 3V Lithium Battery.

Description

090127 Digital Scale

Health o meter[®] LEADING THE WEIGH . . .

Professional

The #1 Medical Scale Brand in the USA*

Benefits of Health o meter[®] Professional Scales

Fall Prevention: Low profile platforms and “Live” handrails help prevent falls and offer patients a more stable weighing experience

Supply Chain Savings: Durable, accurate, and affordable scales backed by an industry leading warranty

  **Workflow Efficiency:** Speed the weighing process with digital height rods, automatic BMI, and multiple EMR connectivity options including WIFI and Bluetooth[®] solutions

Free Trials Available – Try Before You Buy!

1-800-815-6615

Visit www.homscales.com to learn more about the complete line of Health o meter[®] Professional scales.

* As reported by Global Industry Analysts, Inc., Patient Scales market survey and Global Healthcare Exchange LLC, (GHX) sales data

090119

390 lb / 180 kg Capacity,
10½" x 14" Platform

090125

Advanced technology
compensates for
patient movement.

090835

Wheels at the rear of
the base make it easy to
move the scale

090834

Indicator is easy to mount on
a wall or set on a table

091216

Remote display can be
mounted on wall or placed on a table

090126

Operating functions include BMI, Tare, Zero
Out, Hold, Display Adjustment and Live
Weight. 2-year limited warranty.

090827

USA-made 7550 wall-mount wheelchair
scale features a unique fold-up storage
design that saves space when not in use.

090828

The 6550's vertical fold-up feature and
heavy-duty wheels contribute to its ease
of mobility in four directions and minimal
storage space needed.

090829

Accommodating up to 40-inch wide
bariatric-size wheelchairs, the USA-made
BRW1000 provides everything required for
weighing bariatric patients.

090836

Integrated ramps make it easy to move
wheelchairs off and on the scale

090837

Indicator is easy to mount on a wall

Physicians Scale with Height Rod

- Includes wheels.
- Exclusive 10 Year Limited Warranty.
- Built-in Height Rod.
- 390 lb / 180 kg Capacity.

Description

090119 Portable, with wheels

Handrail Scale

- "Live" handrails and low 2 1/2" platform height offers patient a more comfortable and stable weighing experience.
- Capacity: 1000 lb
- Platform size: 15 3/4 x 22";
- 3/4" LCD display with 180° swivel.
- Powered by 6 AA batteries (not included) or 120V adapter (included).
- Functions include EMR capability, connectivity via USB, LB / KG Conversion, LB / KG lockout, Body Mass Index (BMI), Zero Out / Tare, Hold / Release, Reweigh, Auto Zero, Auto Off.
- 2-year limited warranty.

with BMI Description

090125 Handrail Scale

090835 800 lb Capacity Remote Medical Scale

Remote Digital Scale

- 500 x 0.2 lb (225 x 0.1 kg).
- Platform Size: 15" W x 12" L x 1.5" H.
- EMR Ready.
- Large, low profile base
- Heavy gauge steel construction.
- Large easy to read display.

Remote Digital Scale Description

090834 500 lb Capacity Remote Medical Scale

091216 Remote Display Digital Scale

Wheelchair Scale

- Capacity: 1000 lbs
- Platform Dimension 31½" x 31½".
- Ramp Size 10"W x 31¼"D.
- 2 Wheels.
- 120V Adapter (included) or (6) AA Batteries (not included).
- ¾" LCD Display

Description

090126 Digital Wheelchair Dual Ramp Scale

090827 Stationary wheelchair scale, digital, wall mount, fold down
platform, 1000 lb x .2 lb / 450 kg x .1 kg

090828 Portable fold up portable wheelchair scale 800 lb x .2 lb/
360 kg x .1 kg 28" x 32" platform

090829 Portable bariatric wheelchair scale 1000 lb x .5 lb/450 kg
x .2 kg

090836 Wheelchair Scale with Foldable Mast

090837 Wheelchair Scale with Remote Indicator

Digital Bariatric Scale

- 18 x 14 inch platform.
- RS232 serial port standard.
- Stainless steel handrails with padded handgrips.
- Integral wheels for transport.
- Body Mass Index, 600 lb / 270 kg capacity.
- USA-made quality since 1900.

	Description
090830	Portable high capacity digital scale 1000 lb x .2 lb/ 360 kg x.1 kg platform 24"x24"x1.75" wrap around tubular handrails
090831	Portable high capacity digital scale 1000 lb x .2 lb/ 360 kg x.1 kg platform 24"x24"x1.75" wrap around tubular handrails and digital height rod

Physician Scale

- 450 lb x 4 oz (200 kg x 100 g).
- Platform Size: 10.5" W x 22" L x 4" H.
- Displays weight in lb or kg.
- Wheels at rear of base make it easy to move this scale.

	Description
090832	Mechanical Physician Scale, with Height Rod, 450 lb capacity
090833	Digital Physician Scale with BMI
091217	Digital Scale with Waist High Display
091218	Digital Scale with Eye Level Display and Built-in Height Rod

Baseline® Skinfold Caliper

- Arm tips under constant pressure.
- 70mm scale is large, easy to read and lightweight.
- Protective carrying case.

	Description
060026	Skinfold Caliper
060027	Economy Skinfold Caliper

Skydrex Skinfold Caliper

- Measure the appropriate sites, press the enter button, body fat percentage will appear in the display.
- Jackson-Pollock is standard.

	Description
060028	Skydrex Skinfold Caliper

Lafayette Skinfold Caliper II

- Floating, pivoting tips adjust automatically for parallel measurement.
- Measures up to 0-100mm.
- Light weight, durable and never needs calibration.
- A tension spring, meeting the pressure requirements of 10g/mm2.

	Description
042537	Lafayette Skinfold Caliper II

Bone Caliper

- Sliding anthropometric calipers used to measure a straight-line distance between two landmarks.
- The Large Bone Caliper has a range of 0 to 60 cm in 0.1 cm increments.
- The Small Bone Caliper has a range of 0 to 30 cm in 0.1 cm increments.

	Description
090999	Large Bone Caliper
091000	Small Bone Caliper

090830

USA-made model 6855 digital bariatric scale is engineered specifically for weighing obese and unsteady patients and features a low-profile 18 x 14 inch sturdy steel platform.

090831

Exclusive 1LOOK display shows height, weight and BMI onscreen simultaneously by raising the digital height rod while a patient is being weighed.

090832

Physician scale with integrated height rod

090833

Physician scale with BMI display and height rod

091217

Accurate and reliable scale ideal for any facility

091218

Market's Best Selling Digital Scale

060026

Assures accurate, reproducible results with measurement.

060027

Spring loaded arm assures reproducible pinch. Ideal for screening large populations.

060028

Body fat percentages without using tables.

042537

Lightweight, durable and never needs calibration.

090999-091000

DIAGNOSTIC/
EVALUATION

090939

090940

060113

Subject assessments are conducted using a connection between the analyzer and the wrist and ankle of the subject through standard ECG sensor pad electrodes. Results are printed using the analyzer's built-in thermal printer.

060131

060132

060110

Analyzer measures body fat percentage through bioelectrical impedance analysis (Also measures BIAO and body mass index). Both are displayed on a large digital panel.

060930

Determines body fat with digital accuracy by measuring (3) areas.

060038

Handle tip can be used as a gross aethisometer.

060024

Features a percussion head with (2) different sized rubber ends.

5x Dioptr Magnifying Lamp

- Easy to roll stand.
- Adjustable arms.
- Keeps subject illuminated.

Description

090939 5x Dioptr Magnifying Lamp

Woods Lamp

- Woods lamp.
- For proper skin inspection.

Description

090940 Woods Lamp

BODY FAT ANALYZERS

Baseline® Body Fat Analyzers

Description

060131 Hand-Held Body Fat Monitor
060132 Portable Body Fat Analyzer, Palm Size

Biodynamics® BIA 310

- Using regression analysis, the analyzer computes Resistance, Reactance, Fat-Free Mass (or Lean Body Weight), Fat Mass (or Fat Body Weight), Body Mass Index (BMI), Basal Metabolic Rate (BMR), Total Body Water (TBW), TBW/Body Weight and TBW/Fat-Free Mass.

Description

060113 Biodynamics® BIA 310

Omron® Body Fat Analyzer

- Fast, accurate measurements in just 7 seconds and retains (9) personal profiles in memory.
- Clinically accurate measurements in (2) modes: standard for any adult or child over age 10 at least 40" tall and athlete or adults involved in intense aerobic exercise.
- Includes (4) AAA batteries, instruction manual and book.

Description

060110 Omron® Body Fat Analyzer

Fat Track Digital Skin Fold Caliper

- Body fat percentage is automatically calculated using the famous Jackson-Pollock body Density Equation.
- Includes "Improve Your Measuring Skill" guide.

Description

060930 Fat Track Digital Skin Fold Caliper

SENSORY EVALUATION

Babinski Hammer

- Circular head can be adjusted into a perpendicular or parallel position to the handle.

Description

060038 Babinski Hammer

Buck Neurological Hammer

- The hollow shaft contains a point and brush used for cutaneous sensation evaluations.
 - 8" long
 - Contains latex in rubber tips.

Description

060024 Buck Neurological Hammer

Rabiner Percussion Hammer

- Chrome plated head with black rubber ring.

Description	
060023	Rabiner Percussion Hammer

Taylor Percussion Hammer

- Hammer has a 7.5" solid chrome steel handle for sure grip and triangular-shaped solid rubber head for reflex testing.
- Contains latex in rubber head.

Description	
060021	Taylor Percussion Hammer

Baseline® Tuning Forks

- Contains (6) tuning forks: 128, 256, 512, 1024, 2048, and 4095 cps.

Description	
060090	Baseline® Tuning Forks Set
060121	Sensory Evaluation Set (30 & 256 cps)

Unweighted Tuning Forks	Description
060093	512 cps
060124	1024 cps
060125	2048 cps
060126	4096 cps

Weighted Tuning Forks	Description
060091	128 cps
060092	256 cps
060122	64 cps
060123	30 cps

060023
Handle tip can be used as a gross aethesimeter.

060021
Triangular-shaped solid rubber head for reflex testing.

060090
Evaluate hearing and vibratory sensation.

060121
060121-060126

060091
Evaluate hearing and vibratory sensation.

Wartenburg Pinwheel

- For evaluation of gross cutaneous sensory and pain perception responses.

Description	
060025	Wartenburg Pinwheel

Westi™ Sensory Evaluators

- Color coded: green-normal, blue-diminished light touch, pink-diminished protective sensation, red-loss of protective sensation, orange-untestable.

Description	
060127	Westi™ Foot Monofilaments
060128	Westi™ D Monofilaments
060204	Westi™ Hand Monofilaments

Baseline® Discriminators

Description	
060119	Discrim-a-gon Two Point
060160	Two-Point Discriminator
060161	Three-Point Discriminator

060025

Made of stainless steel which can be sterilized to ensure safe use on each client.

060127

060127-060128 Uses (5) monofilaments to measure hand skin sensitivity and determine peripheral nerve involvement.

060204

Uses (5) monofilaments to measure hand skin sensitivity and determine peripheral nerve involvement.

060119

Each octagon measures a different range of 8 labeled fixed 2 point intervals ranging from 1mm to 25mm for accurate and consistent measurements.

060160

Evaluates cutaneous sensitivity and touch threshold.

060161

Evaluates cutaneous sensitivity and touch threshold.

DIAGNOSTIC/
EVALUATION

060010

Features two-tube latex bladder with deluxe nylon cuff.

HEART RATE MONITORS

Polar Heart Rate Monitor-FT7

- The EnergyPointer tells you if the main effect of your training is fitness improvement or fat burning.
- Displays calories burned.
- Comes with comfortable textile transmitter and coded heart rate transmission to avoid cross-talk.

Description	
060144	Polar Heart Rate Monitor-FT7

Ekho® Wrist Watch Heart Rate Monitors

- Standard basic watch and HR functions.

Description	
090897	Ekho® E-10
090898	Ekho® FiT-8
090899	Ekho® FiT-9
090900	Ekho® FiT-18
090901	Ekho® FiT-19

Heart Rate Monitor

- Experience the accuracy of this Heart Rate Monitor during your workouts for extremely efficient workouts.
- Why use a heart rate monitor?
- Tells you how hard to push your heart and for how long.
- Eliminates over and under training.
- Instant knowledge, information and interpretations of heart rate data that will allow you to train and workout in the optimal zone for your health and fitness!

Description	
090748	Heart Rate Monitor

VITAL SIGN INSTRUMENTS

Pro Advantage Sprague Stethoscope

- Features double-tube configuration for improved stereo separation and a patented chestpiece valve stem which delivers outstanding acoustics.
- 22" tubing length.
- Five year warranty.
- Latex free.

Description	
090372	Black
090373	Navy Blue

Dual Head Stethoscope

- Combination diaphragm/bell chestpiece.
- 22" Y tubing.
- Non-chill rim.
- Lightweight adjustable binaural with choice of eartips.
- Latex Free.

Description	
060040	Black

Welch Allyn® Halogen Otoscope/Ophthalmoscope

Description	
060332	MacroView™ Otoscope
060333	Halogen Ophthalmoscope

Options	Description
060330	Wall Transformer
060331	Halogen Instrument Handle

Handheld Pulse Oximeter

- Digital handheld pulse oximeter.
- Delivers quick and reliable spot check results.
- 50% larger LED than comparable devices.
- 3 year limited warranty.

Description	
061050	Pulse Oximeter

Baseline® Pulse Oximeter

- Measures Pulse.
- Measures SpO2.
- Compact and lightweight.

EVALUATION

060203

Test involves turning, placing or moving (60) discs in a prescribed manner.

061107

Adjustable Sit & Reach Box is durable, yet lightweight and conveniently disassembles for easy transportation and storage.

060202

For timed evaluation of rapid manipulation of small parts and coordination training.

060201

Involves sequential insertion of pegs and assembly of pegs, collars and washers.

060205

Requires precision, steadiness and a high degree of eye-hand coordination.

090997

060416

Wall-Mounted Vertical Jump Tester

DEXTERITY AND FLEXIBILITY TESTS

Minnesota Dexterity Test

- Measures manual dexterity of the arm and hand for manipulative work, utilizing a broad range of shoulder motion.
- Requires unilateral and bilateral movements.
- Comes with two-folding pegboards, 60 wooden blocks, carrying case and instruction manual.

Description

060203 Minnesota Dexterity Test

Purdue Pegboard Test

- Measures unilateral and bilateral dexterity for two types of activity: gross movements of hands, fingers and arms, and "fingertip" dexterity in an assembly task.
- Includes examiner's manual.
- Stopwatch, needed for administration of test, is not included.

Description

060201 Purdue Pegboard Test

Grooved Pegboard

- This manipulative dexterity test contains twenty-five holes with randomly positioned slots and pegs which have a key along one side.
- Pegs must be rotated to match the hole before they can be inserted.

Description

090997 Grooved Pegboard

Standard Sit & Reach Tester

- Accurately measures flexibility and reach in both inches and centimeters.

Description

061107 Standard Sit & Reach Tester

Wall-Mounted Vertical Jump Tester

- Quickly measure vertical jump and reach from 1" to 48" in 1/2" increments.
- Board features screened measurements for years of use and magnets for marking reach and jump height.
- Includes solid steel board, 48" retrieval rod, and 2 magnets.
- White with black markings.
- 50" H x 6" W.

Description

060416 Wall-Mounted Vertical Jump Tester

O'Connor Finger Dexterity Test

- Self-contained 11" x 5.5" board has shallow well for 1" pins and 100 holes that holds (3) pins each.
- Includes 300 pins and examiners manual.

Description

060202 O'Connor Finger Dexterity Test

O'Connor Tweezer Dexterity Test

- Using tweezers, a 1" long x 1/16" diameter pin is inserted into each hole.
- Includes 100 pins, tweezers and a detailed examiners manual with norms for adults.

Description

060205 O'Connor Tweezer Dexterity Test

BASELINE VOLUMETRIC EDEMA GAUGES

Baseline® Partial Leg Volumetric Set

- Graduated 1,000 ml cylinder is marked in 10 ml increments.

	Length	Width	Height
060154	13"	5"	24"

Baseline® Arm Volumetric Set

- With hand extended, arm is immersed until fingertips approach bottom and finger webbing straddles rod (lowers and raises for varying arm lengths).
- Excessive overflow can be weighed on a metric scale (not included).
- More accurate than a tape measure.

	Length	Width	Height
060151	7"	7"	30"

Baseline® Foot Volumetric Set

- Graduated 1,000 ml cylinder is marked in 10 ml increments.

	Length	Width	Height
060153	13"	5"	9"

Baseline® Forearm Volumetric Set

- For hand-to-elbow measurements.
- Adjustable spacer accommodates different forearm lengths.
- Graduated 1,000 ml cylinder is marked in 10 ml increments.

	Length	Width	Height
060152	6"	6"	24"

Baseline® Hand Volumetric Set

- For hand and distal forearm.
- 500 ml overflow cylinder is marked in 5 ml increments for precise readings from -5 to 10 ml.

	Length	Width	Height
060150	5"	3"	9"

BASELINE EVALUATION INSTRUMENTS

Baseline® Fingertip Pulse Oximeter

- 6 display modes with adjustable brightness.
- 2-color screen displays SpO2, PR, waveform and pulse bar.

	Description
090859	Deluxe Pulse Oximeter

Baseline® Body Fat Scale

- Measures weight, body fat %, water %, muscle %, bone density.
- 330 lb weight capacity.

	Length	Width	Height
090856	12.5"	12.25"	2"

Baseline® Gulick measurement tape

- Push-button retractor; reads in cm and inches.

	Description
090857	72"
090858	120"

Baseline® Sit 'n Reach® Trunk Flexibility Box

- Built-in foot plate & a maximum stretch indicator that remains until reset.
- Scales printed in cm and inches.

	Description
090860	Standard Model

Baseline® Sit 'n Reach Flexibility Test

- Printed in both inches and centimeters.
- Sturdy construction with built in foot plate.
- Stretch indicator remains until reset.

	Description
060129	Deluxe Trunk Flexibility Instrument

060154

060153

By taking measurements over time, edema can be measured and quantified. Sets include volumeter, overflow cup, and measurement vessel.

060150

Designed to measure volume on the body part by using the fluid displacement method. The body part is placed in a water-filled tank. The resultant overflow is collected and measured.

060129

081950

A convenient, effective and affordable solution which aids in restoring proper cervical curve.

053111

Kit contains everything needed for patient-administered flexion or extension cervical traction.

053015

Provides traction in a natural relaxed position at a 15 degree angle. Self-contained home cervical traction device that directly replicates clinician cervical traction. Hand-held pump incorporates easy-to-use device for delivering traction.

053025

Split table design replicates cervical traction and promotes consistency of treatment. Friction-free surface ensures smooth motion.

050317

Allows the clinician a choice of intermittent or static distraction.

HOME TYPE TRACTION DEVICES

Cervical Traction System™

- System contains a coal cervical roll, adjustable head harness and new weight bag that holds water for patient adjustability.
- Helps restore proper cervical curve.
- Effective, affordable & convenient.

Description

081950 Cervical System

Economy Overdoor Cervical Traction Kit

Description

053111 Overdoor Cervical Traction Kit

Saunders® Cervical Home Traction®

- Features moveable and adjustable neck pieces, adjustable traction angles of 15, 20 or 25 degrees, calibrated gauge promoting consistency in treatment and a pressure relief valve limiting force to 50 lbs

Description

053015 Saunders® Cervical Home Traction®

Saunders® Lumbar Home Traction®

- Patented pneumatic pump provides up to 200 lbs of force.
- Includes belts and user's guide. No assembly required.

Description

053025 Saunders® Lumbar Home Traction®

Supine C-Trax™

- Designed for optimal supine positioning and comfortable intermittent traction force.
- Using any door frame, it is quickly and easily set up; positioning into cervical flexion or extension is also as effortless.
- To securely hold the cervical halter, the uniquely designed spreader bar eliminates the common problem of slippage.

Description

050317 Overdoor Cervical Traction Kit

Supine C-Trax TMJ™

Description

050318 Supine C-Trax TMJ™

050318

Allows the clinician a choice of intermittent or static distraction.

PATIENT EDUCATION

Foam Roller Techniques

- This essential guide demonstrates techniques for self-massage, stretching and improved flexibility.

HOME RANGER KNEE PULLEY™

Introducing a new era of knee rehab: Patient controlled pain relief.

The Home Ranger Knee Pulley™ is a revolutionary range of motion exercise device. Knee replacement and osteoarthritic patients can now perform distraction in the comfort of their own home to help relieve joint pressure and reduce pain – whenever the need arises. It makes compliance and performance of required at home flexion and extension exercises easier for all post-surgery patients.

HOME RANGER KNEE PULLEY™

- Includes patent pending Handshoe Foot Hammock™ and proven Home Ranger® pulley technology
- Boxed with patient friendly, step-by-step instructions for distraction and range of motion exercises

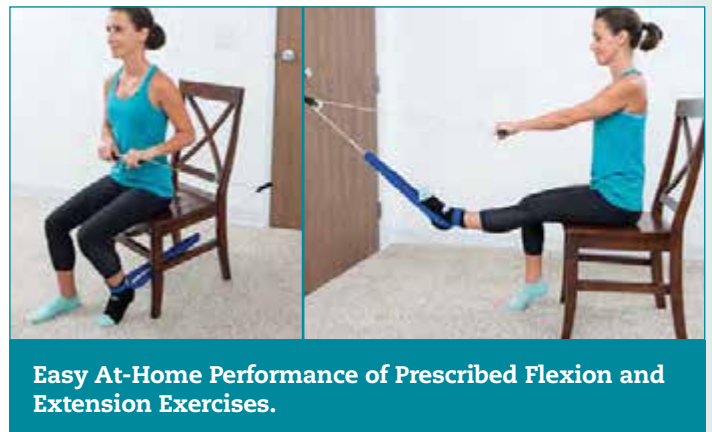

PATIENT CONTROLLED PAIN RELIEF

Patient Administered Distraction to Improve Compliance with Home Exercise Prescriptions.

RANGE OF MOTION EXERCISE

Easy At-Home Performance of Prescribed Flexion and Extension Exercises.

Home Ranger Knee Pulley™ and Handshoe Foot Hammock™ are trademarks of PrePak Products, Inc. Handshoe Foot Hammock™ Is Patent Pending. ©2015 PrePak Products, Inc.

050405

PneuWalker™ offers freedom from the fear of falling for both the patient and the therapist. On the PneuWalker™ the patient can experience natural movement while working vertically on proper gait patterns.

090269

050781

050781-050782 Ideal for providing support, stability and confidence during everyday activities.

051090

051090-051091 Clear polycarbonate features an internal "V" groove that attaches to the rim of the plate.

051107

Rocker Knife allows food to be cut with a "rocking motion" for those with the use of only one hand.

051108

Meat Cutter Knife has a curved blade that allows for a rocking motion to facilitate cutting.

051089

Stainless steel features (3) spring action clips to secure the guard to the plate.

051020

051020-051022 Utensil Holder has a utensil pocket. Adjusts by a velcro hook and loop closure with D-Ring thumb loop.

GAIT TRAINING

PneuWalker™

- Mobility Trainer
- User-friendly, digital control allows for precise unweighting.
- Max lift weight 300 lbs
- Width adjustable to go through doorways or over treadmills.
- Unweights unilaterally to address hemiplegic conditions.
- Onboard pneumatic compressor with rechargeable battery that runs up to 12 hours on a single charge.
- Adjustable handlebars swing out of the way for easy access and patient transfer.
- Allows a solo clinician to lift and transfer patients.
- Patented 3-in-1 Abilities Vest with adjustability for posture and gait.

	Inside Width	Outside Width	Height
050405	22" - 38.5"	26.5" - 42.5"	59.5" - 73.5"

PneuGait™ Foot Strap

- Highly cost effective.
- Relief of hip, knee and foot pain
- Change dynamic firing patterns.
- Alter loading pattern on knee and prevents hyperextension.
- Enhance neuro-proprioceptive awareness.
- Reduce risk of ankle sprain
- Accelerate ankle rehabilitation.
- Effect lasting correction in a short period of time.
- Simple to use for patient and clinician.

Extra long webbing is provided to attach to the bed legs at the foot of the bed. Heavy duty cotton webbing with (4) rungs of a ladder to assist those with limited hand strength, to pull themselves upright in bed.

027470

Feature nickel-plated buckles that reduce friction on the webbing for durability and maximum strength.

050930

Basic hip kit offers the most recommended ADL items for patients recovering from hip surgery.

050907

Reinforced webbing with metal rod will extend the user's reach to assist in lifting one leg at a time.

051800

Light upward touch on patented spring loaded locking handle allows table to elevate freely and a light downward touch on table top locks table in position. Unique "U" base design permits use with chairs.

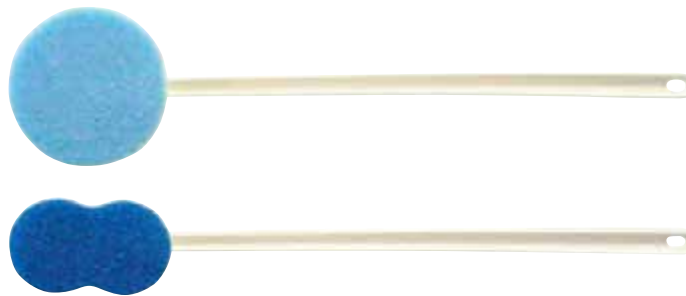

051125

Ergonomically shaped, reversible backrest accommodates right or left transfers and snaps in and out easily without tools.

051110

Armrest for added comfort, angled legs for stability, non-skid rubber tips for safety and an anti-rattle collar that reduces noise. Use as a toilet safety frame, a raised toilet seat or outside the bathroom as a stationary commode.

051769

051769-051770 Long handle provides extra reach.

BATHROOM SAFETY

Transfer Bench

- Features textured, non-slip seat with drain holes, non-rusting, anodized frame, built-in soap dish and hand-held shower holders.
- Has (9) height adjustments in 1/2" increments.
- 400lb weight capacity.

	Width	Depth	Height
051125	33.25"	18"	18" - 22.5"

Aqua 2000M

- 8.5kW.
- Over temperature cut-out.
- Separate flow and temperature controls.
- Half power (eco) setting.
- Complete with wall brackets and fittings.
- 1 shower spray mode.
- 8 water connections.
- Position of water connection: top left, bottom right, bottom side left, back left side, bottom side right.
- 6 electrical entry points.
- Position of electrical entry: top left, top right, bottom left, bottom right, back bottom left, back bottom right.
- Adjustable riser rail included.
- Hose length 1.25m.
- Easy clean - rubber nozzles on the handset help prevent the build-up of limescale.
- Limescale resistant showerhead.
- BEAB approved.

TERMS & CONDITIONS OF SALE

TERMS OF PAYMENT

- We accept most major credit cards and checks.
- Net 30 day terms with approved credit.
- Past due invoices may be subject to interest.

SHIPPING

- Shipping charges will be added to all orders unless otherwise noted.
- Orders will be shipped promptly.
- Expedited shipping is available upon request for an additional charge.

PRICING

- All prices are subject to change without notice.

RETURNS

- All products to be returned must have a Return Authorization Code.
- Products should be in original containers and in saleable condition.
- Returns will be credited or exchanged (excluding shipping charges).

DAMAGED GOODS

- We take great care in filling, checking and packaging your order.
- Damaged or short shipments should be reported immediately.
- Damage to a shipping container must be noted with carrier at time of delivery.
- Please save all packaging materials as they are needed for insurance purposes.

If a shipment arrives damaged...

- Note damage on the delivery bill and have the driver sign it acknowledging the damage.

If an item is missing from your shipment...

- Call Customer Service immediately.
- Once 30 days have passed, no credit will be issued for missing product.

PRODUCT WARRANTY

- We reserve the right to repair or replace warranted products at our discretion.

PRODUCT INFORMATION

- Equipment described and illustrated is subject to modification consistent with the latest trends, designs or other factors.

SATISFACTION GUARANTEED

- We are committed to providing the highest quality at the lowest possible prices with exemplary service.
- If your purchase is anything less than anticipated, please call us and let us know so that we may promptly correct it.

Introducing A New Cleaning Products Line

QUALITY PRODUCTS FOR A HEALTHY ENVIRONMENT

*Quality Products for
Healthcare Professionals*
