		Leaf Bail	17mm	Sterling Silver	1
Swarovski		5058	10mm	Emerald	1
		6228	14mm	Light Siam	1

Tools

Chain Nose Pliers

Round Nose Pliers

Side Cutters

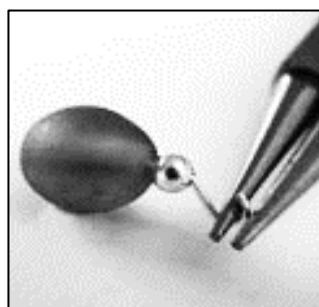

Step 1

Thread the Swarovski 5058 Baroque bead onto the headpin.

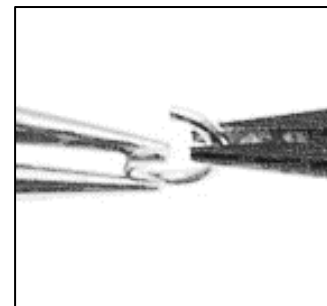

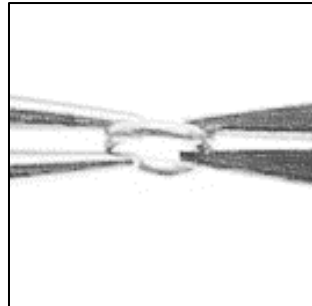

Step 2

Trim the headpin wire above the bead to about 1cm, then make a right-angle bend close up against the bead, using Chain Nose pliers. Grip the end of the headpin with Round Nose pliers and roll the wire over the pliers to form a loop, holding the beads in place with your thumb nail. Keeping a firm grip on the wire continue to turn the pliers until you have a nice loop which should be centred above the Pearl as shown in the example below.

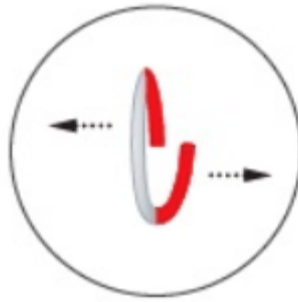

Step 3

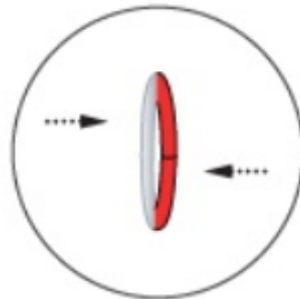

You now need to attach each of the Baroque bead to the necklace. Open one of the 3x4mm Oval Jump Rings by using the Round Nose and Chain Nose pliers:

and twisting the jump ring in opposite directions:

Using the open jump ring, thread through the loop previously made on the headpin, closing the jump ring using the two pliers to pull the ends of the jump ring together.

Step 4

Gently open the Leaf Pinch bail and secure around the thread hole of the Baroque Bead, then squeeze the Pinch Bail in order to secure and hold the pendant in place.

Step 5

Thread the completed pendant onto the Chain. Your pendant is now complete.
