

Providing the most affordable PEMF Therapy solution in North America

Pulsed Electro-Magnetic Field (PEMF) research has been conducted worldwide for over 4 decades with positive health promoting results

Making PEMF Therapy accessible for everyone!

The **OMI PEMF Therapy Mat** has quickly become the therapy of choice for medical professionals and their patients.

PEMF Therapy offers beneficial bio effects including:

- Promotes cellular health to improve wellness
- Pain and inflammation relief for improved quality of life, well-being and health
- Enhances the body's self-healing abilities
- Supports and improves bone, tissue and nerve healing
- Boosts energy and athletic performance
- Improves circulation, oxygenation and immunity
- Improves detoxification and elimination
- Improves sleep, stress reduction and cognitive function
- Modulates inflammatory response, reduces oxidative stress, promotes cellular rejuvenation
- Non-toxic, no known side effects

Improve the quality of your life

Testimonials

More energy, better sleep and better moods... I'm thrilled that your product offers the same or better results than much more expensive brands I previously tried out. I'm recovering from Lyme disease and have found that the mat has given me more energy during the day, improved moods and deeper sleep. I love the immediate relaxation response that I get while I'm on it as well as the residual effects. I highly recommend this product.

Awesome!!! After 20 years in the construction industry my body is wrecked. I would take drugstore pain reliever's everyday like candy to relieve my joint and arthritis pain, and that was leading to other health issues. I happened to see a YouTube video by Dr. Oz on PEMF therapy...I began to investigate all the different systems out there, but the prices were all \$3000 and up. I found the OMI products one late night while looking online and decided to buy all 3 products Mat, Ring, and Pad...it's been 4 months of using them every day and I feel great! I'm off the pain relievers and my stomach feels better and my joint pain has improved greatly. It was a blessing to find OMI and learn about PEMF Therapy...thank you so much.

Why PEMF Therapy?

When cells are toxic or damaged, the cell membrane becomes thick and stiff, resulting in electrical and chemical receptors which do not function properly. When the pulsating field of PEMF therapy reaches the cells, they expand, facilitating the inflow of fresh nutrients and oxygen. The toxins are pushed out, resulting in cells that are cleansed, refreshed and able to work more efficiently. This restores balanced health and well-being. This response affects all types of cells: blood, brain, nerve and bone. Healthy cells lead to a healthy body!

Americans have been suffering from chronic pain for decades, only to purchase an endless list of prescription medications or suffer from the pain and recovery time with expensive surgical procedures. PEMF therapy can help sustain or improve your health, optimize general wellness, promote relaxation, reduce stress, improve energy, and help you live well even with a chronic disease or condition like type 2 diabetes. Do you suffer from inflammation, pain and swelling? Do you have trouble falling asleep and staying asleep? It could be time for you to try PEMF Therapy.

The OMI PEMF Therapy Mat

Using an OMI PEMF Therapy Mat can give you full body therapy to address your body's needs. Whether you are depleted of energy, in need of more sleep, or you suffer from aches and pains, with the OMI PEMF Therapy Mat or Ring, you can choose your settings and customize your therapy with a simple-to-use controller. Feeling better is now well within your reach.

"We have utilized the OMI mats in our clinical practice, and many of our patients have and are reporting positive results. The OMI PEMF Therapy devices have exceptional signaling with appropriate field strength."

—Cris Angel DA, EAMP, HDD

PEMF Supply Key Offerings

Please visit our website: www.pemfsupply.com to learn more about our OMI PEMF Mat, Ring and Pulse Pad. We are more than happy to answer your questions. Our goal is for you to experience optimal health and well-being!

You Have Options with PEMF Supply Products!

Do you have pain in multiple areas? While the OMI PEMF Mat offers full body therapy, you may also benefit from the Ring or Therapy Pad which can be used on the extremities, joints, head or neck areas. You may purchase each item separately or purchase the OMI Therapy Package and receive all of the great OMI products with the package discount.

Did you know?

Every organ in the body produces its own bio-electromagnetic field. Science has proven that all 70 trillion plus cells in our bodies communicate via electromagnetic frequencies. Over the years, our exposure to harmful electro-magnetic fields has increased (from cell phones, TV's, cell towers and micro-waves), and our connection with the natural magnetic energy of the Earth has decreased. PEMF Therapy helps to provide the beneficial electro-magnetic fields that we are missing on a cellular level. This results in accelerated repair of bone and soft tissue, cellular detoxification, improved intake of nutrients, reduction in platelet adhesion, and the ability to regenerate healthy cells.
