

The RockyMounts Jetline will work with a Wide variety of Cross Bars. It ships with two mounting configurations, a clip style system that will work with Thule® (square) or Yakima® (round) crossbars, and a hardware kit for slotted crossbars. To help better understand if the RockyMounts Jetline is the correct for your vehicle we have created a list outlining some of the more popular crossbar models that are compatible with the jetline.

Thule®
