PREFERRED SOLUTIONS GROUP LLC DBA PREFERRED ERGONOMICS SIGNS RESELLER AGREEMENT WITH XYBIX SYSTEMS, INC.

Companies' new reseller agreement provides a broad selection of ergonomic workstations and consoles to the VA and the DoD under the federal SDVOSB set-aside program

FT. LAUDERDALE, FL—(March 26, 2020) Our company Preferred Ergonomics, a leading provider of ergonomic workstations and consoles for 24/7 mission-critical announced today it has signed a reseller agreement with Xybix Solutions, Inc. Preferred Ergonomics will now resell Xybix workstations and consoles to the U.S. Department of Veterans Affairs (VA) and the Department of Defense under the service-disabled veteran-owned small business (SDVOSB) federal set-aside program.

Preferred Ergonomics is proud to be associated with the mission and quality that Xybix represents. We are also proud to be able to outfit our men and women in uniform with the safe, comfortable, ergonomic workstations and consoles that will enable them to do the mission-critical, 24/7 work of serving and protecting our country. As our partner in the federal market, Xybix provides us the opportunity to offer a solid portfolio of quality ergonomic products to further serve mission-critical operations for the U.S. government. We look forward to being a key component of their mission-critical ergonomics program.

In business for 30 years, Xybix is a leading designer and manufacturer of ergonomic, height-adjustable workstations and consoles that are ergonomically certified by the American National Standards Institute (ANSI) and the Human Factors and Ergonomics Society (HFES). Also, Xybix desks are environmentally certified by the Greenguard Institute, which tests and approves office products that emit the lowest amount of volatile organic compounds (VOCs) into the environment.

Service-Disabled Veteran Owned Small Business (SDVOSB) certified Preferred Ergonomics serves both commercial and government markets by transforming the work environment with ergonomic design and training. *“Xybix’s product exemplifies the ergonomic design and overall quality we at Preferred Ergonomics provide to our customers. We are proud and excited to add Xybix to our product line to serve the Veterans Affairs and DOD markets.” says John Young, President of Preferred Ergonomics*

Young is passionate about changing the way America works through Ergonomics. An injury during his service in the U.S. Navy ignited an enduring appreciation for health. His usual pain has been reduced drastically through ergonomic office design and training and the productivity of his staff has increased. *“I experienced firsthand the benefits of an ergonomically designed workstation and I understand conceptually why it works because of my years of study in kinesiology and musculoskeletal health.” he says.*

ABOUT PREFERRED ERGONOMICS

Preferred Ergonomics is a leading ergonomic solutions provider, specializing in ergonomic needs assessments, solution implementation, and training. Founded in 2016 by U.S. Navy Veteran John Young, Preferred Ergonomics serves federal, state and local government agencies, as well as commercial markets. Young conducted ergonomic research and discovered promising clinical results and return on investment data, which reinforced his own experience. Potential markets were then researched where a lack of ergonomic utilization and education was found. Young's years of study in musculoskeletal healing suddenly found purposeful use. His prior schooling, practice as a trainer in the Navy, expertise in office IT solutions, sales experience, and his newly improved physical condition, created a new purpose and direction.

Preferred Ergonomics partners with, distributes and integrates technologies from the industry's leading manufacturers and solution providers. Our partnership diversity and extensive knowledge in office ergonomics allow us to create and integrate new solutions or enhance existing systems. We are dedicated to building lasting relationships with both partners and customers.

ABOUT XYBIX

Xybix Systems, Inc. is a leading designer and manufacturer of ergonomic, height-adjustable console furniture for 24/7 operations, including 911 Centers, Command and Control, and Healthcare. Founded in 1991, Xybix serves government agencies—from small local townships to large federal agencies—as well as corporations and academic institutions across the U.S and Canada.

Throughout North America, customers know Xybix's premium, ergonomic line of workstations and consoles. They are designed for the performance of operations in public safety, healthcare, and public/private infrastructure. Manufactured in Littleton, CO, Xybix product designs arise from the company's unique expertise in ergonomics, space planning, and environmental control.
