

NLMF SERIES LABORATORY FREEZER

NULINE
REFRIGERATION

FEATURES

- Top Mounted System
- Heated Glass and Heated Cabinet Facia to prevent condensation up to 80% R.H.
- Interior Lighting LED
- Automatic Water Disposal
- Digital Display with Built-in Alarms

-18°C to -22°C

700 L
1400 L
1614 L

740w x 850d x 2050h
1480w x 830d x 2050h
1930w x 750d x 2100h

NLMF SERIES LABORATORY FREEZER

MODEL	nLMF700/1	nLMF1400/2	nLMF1614/3
Gross Capacity	700 L	1400 L	1614 L
External Dimensions in mm (w/d/h including castors or legs)	740 x 850 x 2050	1480 x 830 x 2050	1930 x 750 x 2100
Internal Dimensions in mm (w/d/h)	770 x 550 x 1505	1100 x 550 x 1505	1780 x 550 x 1520
Packed Dimensions in mm (w/d/h including pallet)	1020 x 850 x 2250	1350 x 850 x 2250	2030 x 850 x 2250
Gross Weight – kg (packed weight)	112	137	187
net Weight – kg	95	125	175
Voltage		240V	
Temperature Range		-18°C to -22°C	
Ambient Temperature Range		10°C to 32°C	
Refrigerant		R404a	
Cooling System / Defrost		Fan Forced	
Exterior Cabinet Finish		White Colourbond	
Inner Liner Material		White Colourbond (optional Stainless Steel)	
Door		Solid / Heated Glass	
Door Hinge		LH / RHLH / RH / RH	
Door Handle		Lockable	
Type of Controller		Digital	
Temperature Display		External	
Data Logger		Optional	
Door Ajar Alarms		Optional	
High and Low Readout		Visual / Audible	
Remote Alarm Contacts (BMS Connectivity for Alarms only) (BMS Connectivity for Temperatures)		Optional	
Port Entry		Optional	
Battery Back-up For Controller		n/A	
Power Requirement		10amp GPO	
Castors		Yes	
Adjustable Shelves		515	
usable Shelf Area in mm (w / d)	5	1080 x 530	565 x 530
Light	750 x 530	LED	

REASONS TO CONSIDER BUYING AUSTRALIAN MADE

Total Cost of Ownership

nuline has been locally manufacturing and custom-building units for the Australian market since 1985. We have many units still operating some 15 years later due to our workmanship and use of quality of components. The life expectancy of a locally built unit is 2-3 times that of the typical overseas unit. Due to the life expectancy of a locally manufactured unit the total cost of ownership of an Australian made unit will typically outstrip the cost of a cheaper unit that is repurchased multiple times over the same period.

Servicing & Warranty

You also will get direct access to the craftsmen that designed and built your unit, and easier access to parts when required. Access and availability of parts for overseas manufactured units can be difficult and expensive after only a few short years.

Customisation

Nuline can customise its units to meet your specific requirements, creating a better suited unit than a mass-produced unit. A custom built or a locally manufactured unit gives you total control of the project from start to finish, encompassing an exhaustive testing process and long-term local support.

Environmental Impact

Long asset life means less wasted resources like steel, glass, and electronic equipment. nuline's Australian made products assist in significantly reducing the long-term environmental footprint due to long asset life of these units.

Through buying Australian Made products your organisation will also reduce the energy consumption and greenhouse emissions required to ship products from overseas locations.

Australian made units are made to the highest international standards the Australian businesses must follow with respect to labour, business, safety, and quality control standards. Our Australian Made units are in use 2-3 times as long as the typical imported unit, hence reducing electronic waste. nuline now has ISO 14001 Environment certification and hence is focused on ultimate environmental long term impact of its operations and its products.

Support the Australian Economy

Australian made products supports local skills, jobs, and industry, which creates more jobs locally helping Australia become a more vibrant economy.

nuline's Australian made products directly support a locally owned business, and you keeping your money in Australia. This helps Governments fund local projects via the taxes generated and has a flow on effect in our economy.

Supporting Australian manufacturers assist us in being more competitive in the Global Market. By buying Australian Made units you are helping local manufacturers and their supply chain partners grow and reinvest in their business keeping the proud tradition of Australian Made quality product alive for future generations.

Reduces Australia's Reliance on Overseas Imports

In a pre & post COVID-19 world Australia's reliance on overseas supply chains was highlighted like never before over the past few years. Australia experienced major international shipping delays, massive increases in Global shipping costs, exponential increases in raw material costs, cost gouging, and supply to Australia was held back in favour of overseas suppliers filling demand to Europe & the USA first. It's never been more important to enable local manufacturing businesses thrive in this fast-paced consumer world.
